Trustee Report for Bronwen's Wish Charity for the Financial Year 2024/25.

The Trustee's present their 5th annual report and financial statements for the year ended 31st March 2025. The financial statements have been prepared in accordance with the accounting policies and direction provided by the Charity Commission and comply with the charity's trust deed.

Brief History of our Charity

Bronwen's W;sh is a new charity established nearly 5 years ago and this is our 5th Trustee's Annual Report. We feel that it is worth providing some background information which will help readers understand our charity and our motivation in trying and make a positive impact into the mental health of children and young people.

Bronwen's W;sh charity was named after Bronwen Grace Morgan who sadly took her life in August 2020, aged 26 years, after suffering with her mental health for several years. Bronwen was a second-year student at Cardiff University studying Mental Health Nursing.

On the day after her death, Bronwen's best friends immediately started fundraising for mental health awareness and suicide prevention. Her friends also came up with the name of our charity, "Bronwen's W;sh".

We wanted to make use of the semicolon as it symbolises the continuation of Mental Health awareness. Created to symbolise affirmation and solidarity against suicide, depression, addiction, and other mental health issues. It inspires strength in the midst of suffering. We want people to see this when they see the name "W;sh" and know our charity is mental health related.

As a new charity, our main aim and focus is providing unique Wellbeing Pods/Dens for Primary Schools in our area. These Pods will be located away from the main school building and the hustle and bustle. It will be a safe place to go when a child is experiencing challenges with their mental health. It will be a place to sit and talk with a mentor, therapist, teacher or friend and learn from a young age how important it is to talk about your feelings.

HOW YOU CAN HELP

- 1. Tell people about us and our vision
- 2. You can fundraise for us as a charity
- 3. Donate to the charity
- 4. Join our charity events
- 5. Follow us on social media
- 6. Fundraise by organising a quiz night

See our contact details in this leaflet to find out more

ANNUAL CHARITY EVENTS

- 1. Summer Ball
- 2. Golf day
- 3. Bronwen's Wish Sports day

Wish Warriors WCF have set up a regular fundraising football event where you can train and compete with grounds going to Bronwen's Wish

See our website / Instagram for dates and details

BRONWEN'S W;SH CHARITY

INFORMATION LEAFLET

CHARITY NUMBER 1196277

We have now virtually finished our second project at Rhydypenau Primary School in Cardiff and have other schools requesting Wellbeing Pods also. Our ultimate wish would be for every school (who wanted one) to have such safe spaces within the school premises. There is also much scope here for Secondary Schools and other primary schools with less outdoor space. This is something our charity is aware of and will be trying to achieve with our designers and specialist craftsmen in the future.

There have been many highlights throughout the year for our charity including our Annual Sunflower Ball in September at the Mercure Hotel in Cardiff which was attended by over 200 kind and generous people; the Annual Golf Day which was supported by over 80 people and a new Annual Winter Quiz which was also a full house. As well as these 3 main fundraising events, many kind people have been taking part in various activities to help raise funds for Bronwen's Wish.

Without doubt, our stand-out news this year was when we heard that our Designers Naeem and Beth from "StudioPropolis" in Cheshire won an International Architectural competition based on the design and use of our unique Well-being Pods. This is a massive achievement and much work went into the submission and competition application. In total, the prize money was nearly 50,000 Euros (This will be paid in full on the completion of Rhydypenau Primary School). As a charity, we are over the moon as it means we have the resources to build our 3rd Well-being Pod.

We have now made the decision to build our 3rd project at Greenway Primary School in East Cardiff. This school is very passionate about well-being and has completely different challenges than our previous two schools. Greenway have been so supportive of Bronwen's Wish and we are very proud to be able to provide a bespoke and unique Safe-Space haven within their school grounds. Our charity, designers and carpenters have already visited the site on two occasions and have been liaising with the Head Teacher and other relevant staff members. A suitable location has been found within the school grounds and work is due to start early Spring.

We have found that within all schools we have visited, pupil wellbeing is of paramount importance. During a recent Estyn school inspection, Lakeside Health & Wellbeing provision was highly praised. All staff are engaged in maintaining wellbeing for all pupils, and actions are swiftly put in place when the need is perceived.

One such need is for a place to have "quiet time": time away from the hustle and bustle of school life, a chance to simply be and to lose oneself in nature, silence and peace. This has become even more of a need since the Covid pandemic. Many current pupils spent two or more years in social isolation, away from friends and interaction with anyone outside their immediate family. Time will tell how deep the impact of the pandemic on young people actually is, but there is a definite necessity for nurture and empathy, where the need to retreat and seek sanctuary is validated, respected and acted upon.

Objectives and Activities for the Public Benefit

The objectives of the charity are to relieve the needs of children and young people, aged between 4 – 18 years living in Cardiff and the surrounding area by providing funding for and support to primary and secondary schools to create well-being pods as safe spaces for children and young people, in particular but not exclusively those experiencing mental health challenges or distress, anxiety, depression or other moments of crisis. It will also be a place to learn self-help skills and encourage our younger generation to open up and talk about their feelings, and to help get rid of the stigma surrounding mental health.

The Trustees confirm that they have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the Charity's aims and objectives and in planning future activities.

Our vision (and Wish) is for every Primary and Secondary school to be offered the opportunity to have a unique Wellbeing Pod within the grounds of the school. The Pods will be located away from the hustle and bustle of the school setting and positioned in an outdoor learning environment as a safe space for any children who are suffering from feelings of anxiety, worry, trauma, or other mental health related challenge and in need of a quiet moment. The Pods will also be timetabled for children who have been identified as experiencing ACE'S (adverse childhood experiences), to access therapy. Also, any outside agencies who work with children who have social and emotional difficulties will use the Pod to meet and work with the children in a quiet, safe, and relaxed place where the children feel less stressed.

The Charity carries out these objectives by:

- Carrying out many fundraising activities throughout the year to try and create the necessary funds to build the Wellbeing Pods.
- Liaising with local schools with a view to providing these unique Pods within a time frame.
- Liaising with the Local Authority with regards to Building Regs, Health & Safety and any unforeseen issues that may arise before, during and after the build.
- Source specialist constructors to create and build these Pods.
- Provide the necessary funds and resources to provide these Pods to each school as and when the charity has sufficient reserves.
- Keeping members of the public updated of how the Pod is progressing, as well as our fund-raising events and mental health awareness raising. This is done through our Website (Bronwenswish.org).

Our well-being Pods are provided within the school setting. A quiet and safe environment for children and young people to escape to during school when they may be experiencing emotional distress or dysregulation. We also intend for these Pods to be used for educational purposes, bringing all pupils to these spaces throughout their school life and learn that mental health is important and talking about how they are feeling and learning how to manage this is a good thing to do.

We aim for the children in these schools to feel comfortable at any point to take themselves away from their stress and learn self-help tools from an early age. It is vital that children build an education around

their emotional wellbeing and we strongly believe the earlier this intervention occurs the better their future will be in managing the challenges that life throws at you.

Given our charity's aspirations, we and our designers (Studio Propolis) wanted to create a healthy space using locally and regionally sourced natural materials with good provenance. Tactile cypress columns invite touch. A highly aromatic cedar floor and breathable, textured hemp lime plastered walls all contribute to a warm, inviting and highly sensory environment with excellent natural light. Our Sanctuary/Pod is unserviced so totally dependent on good daylight for both visual and solar gain which pours in through its south facing saw tooth roof.

As a Charity, we also try our best to help raise awareness on mental health and suicide. We do this mainly through social media, events and also our website. Our charity will continue to campaign for shared decision making to be a legal requirement. Over the past year, our charity has reached out to local MP's, Government Ministers and most importantly, young adults experiencing their own challenges with their mental health. Our charity will continue to push for our cause over the years as we feel that our campaign will improve the mental health of our most vulnerable and reduce the unacceptable number of suicides in the UK.

All Trustees are close friends and family of Bronwen. Once the team of Trustees were in place, we worked hard on building our constitution to register our charity officially. In September 2021, just over a year after Bronwen's passing, Bronwen's Wish became a registered charity for which we are very proud.

Our Values

The values outlined below are what inspire the Bronwen's Wish team to keep fighting, keep motivated and to keep the users of our Pods and their needs at the forefront of all our minds.

Courage

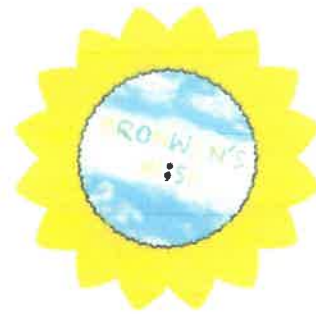

Having courage as our Charities value is extremely important. Firstly, to express the courage and bravery of Bronwen's family and friends for stepping up in the darkness of grief, to do all they can to make a change and create a positive memory in honour of Bronwen. Secondly, to show the individuals who will benefit from the Pods we provide, that there is great courage in taking time out to breathe and to talk about their emotions.

Acceptance

Acceptance is important as the members of Bronwen's Wish endeavour for all individuals to feel accepted for who they are and their needs. The Pods will provide them with a space where they can feel truly accepted, supported, and cared for.

Hope

To remember that despite the darkness, there is always hope. Hope for a better future for the younger generation and hope for change within the mental health system – to provide a service that meets the needs of those who require it.

Achievements and Performance

Over the past year, our Trustees have worked very hard to continue to raise awareness on mental health and suicide. We provide regular wellbeing updates and literature on our website (Bronwenswish.org) as well as providing information on the development of our first wellbeing pod project at Lakeside Primary School. We are continuing to look at ways on improving our marketing and trying to promote our charity and its goals. We have linked in with other national and local mental health charities with a view to working together to help spread awareness. A great example of this was when some Trustees joined up with the "3 Dad's Walking" in Norwich and offered them all our support and backing with regards to suicide awareness. Our charity was also part of the organising team for the "Baton of Hope" when it arrived in Cardiff last summer. This included a national tour with the Baton and was the largest suicide awareness event ever in the UK. It is our intention to continue to work alongside and support other mental health charities in order to raise awareness, and to promote our charity.

We are also very proud and excited that other establishments are offering their support to our charity and its cause. Lakeside Primary School; Rhydyphenau Primary School; Greenway Primary School; Cardiff High School; St. David's College and Swansea University; David Lloyds Leisure Club and Llanishen Fach primary school have all had fundraising events to help support our charity. cannot thank these people enough for all that they have done to help raise the necessary funds to build our t Well-being Pod/Sanctuary, as well as spreading mental health and suicide awareness.

It is with great delight that we can say that we have an amazing carpenter/builder who is willing, keen and very competent to take on our projects and to our specific budget. This woodworking company (Griffinwood) has much experience in building some fantastic outdoor wooden structures and fully supports our charity and its cause.

Plans for future periods

The Trustees feel that once the first couple of projects have been completed, the following ventures will run more efficiently, and we will have a better understanding of costs. We intend to try and build our Pods/Sanctuary to a budget of £50,000 which we now know is attainable at this time.

With two finished products to show and a better understanding of prices and outlays, the Trustees are now applying for grants and other fnd expand from there as we gain more experience and raise much needed funding. Which is obviously our largest hurdle.

We want to use the same original design for each pod in primary schools where the school is located on a large site and there is sufficient space to build. Although each project will be based on our original design for Lakeside Primary, our designers and ourselves feel that each design is slightly different from the other. This gives the building uniqueness. However, we are aware that not all schools have large grounds that can accommodate our well-being pods. With this in mind, our future plans will look at a new design that can be used in smaller schools.

Our charity also recognises that there is much scope to providing Wellbeing Sanctuaries/Pods to Secondary schools. We have spoken with other local High Schools, and all have said they would benefit from having a wellbeing pod within the grounds of unding. We would like to aim to build at least one well-being Pod a year for local schools atheir school.

The aim of our next project is to design, build and furnish approximately 30 sqm, purpose-built well-being space at Greenway Primary School in Cardiff. The building will be used for early intervention mental health sessions where staff listen to, support and engage with children in a way that enables them to grow awareness of their emotional state. In understanding their feelings and learning to communicate their needs, it is hoped that children will better manage and regulate their emotions themselves and thereby building resilience.

Childhood and adolescence can be challenging. These crucial years are when children and young people gain vital knowledge in social and emotional skills that will shape their future. Across the spectrum of mental health issues that young people face, the statistics are painfully astounding and at the extremity of the problem, according to the British Medical Association, suicide is the biggest killer of under 35's in the UK. This alarming Stat. has to be reduced drastically.

The British Psychological Society advocates for an evidence based preventative approach which puts an emphasis on introducing effective interventions early on, incorporating them throughout our children's lives with broader focus on wider issues around children's development and psychological wellbeing. Putting preventative measures in place will, in return, reduce the demand on primary and secondary Mental Health services for children as well as adults.

Greenway Primary already has a well developed mental health strategy in place. However, the school is really struggling with space to carry out their work. Their efforts will be greatly amplified by having a purpose built space in a relaxed, calm and tranquil environment on the edge of the school outdoor learning area, away from the hustle and bustle of a busy school.

For our charity, this will be our third "Safe Space" well-being Pod that we will deliver. It is ultimately our aim to make a network of these Sanctuaries in Cardiff and surrounding area so as to start making a real impact on children's mental health awareness and how it is talked about and dealt with in the wider community.

Structure, Governance and Management

The charity is a CIO – Foundation, registered on 10 September 2021.

The charity is run by a committee comprising the trustees, who are the trustees appointed on registration. New trustees would be appointed as and when required.

**INDEPENDENT EXAMINER'S REPORT TO THE TRUSTEES OF BRONWEN'S WISH
For the Year Ended 31 March 2025**

I report to the trustees on my examination of the financial statements of Bronwen's Wish ('the charity') for the year ended 31 March 2025 which are set out on pages 11 to 13

Responsibilities and basis of report

As the charity's trustees you are responsible for the preparation of the financial statements in accordance with the requirements of the Charities Act 2011 ('the Act').

I report in respect of my examination of the charity's financial statements carried out under section 145 of the 2011 Act and in carrying out my examination I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination which gives me cause to believe that in any material respect:

- accounting records were not kept in respect of the charity as required by section 130 of the Act; or
- the accounts did not accord with the accounting records.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.
