

The Mother and Baby Village TMBV 1195949

In the last financial year the CIO had to halt operations due to illness for the main Trustee who undertakes the majority of the charities activities.

The plan for the next year is to secure a place on the Churchill foundation for the purposes of travelling to Australia to observe their family centres. These centres support families with a child under the age of 4years for a period of 5days by accommodating them and working through challenges associated with parenting – but not including where there are safeguarding concerns.

There has been no income in the last year.
