

HAVEN CARE CARDIFF

Annual Report 2021-2

Haven Care Cardiff was registered as a CIO on 30 September 2021. The CIO was established to take over the business of Haven Home Care, a trust established to provide domiciliary care for older people in the Cardiff area. Haven Home Care has been active as a care provider since 2007 and has been a registered personal care provider since 2013 regulated by Care Inspectorate Wales.

In the period covered by this report Haven Care Cardiff was a dormant organisation. Transfer of the business and assets of Heaven Home Care was conditional on Haven Care Cardiff achieving registration with CIW. The process of applying for registration was planned for the reporting period 2022-3.

As a result, Haven Care Cardiff has not had any activity in 2021-2. It had no income, employed no staff and provided no care. Once registration is achieved in 2022-3 the trustees will look to take over the assets of Heaven Home Care and transfer care and employment contracts to Haven Care Cardiff.

The transfer of business activity from Heaven Home Care to Haven Care Cardiff will not involve any change to the business of the charity. Specifically, there will be no changes to policies and procedures, care provision, or employment terms and conditions. There will be no visible change for clients, staff or suppliers.

Mark Winston
Chair of trustees
