**1 Principles of accounting policies**

**Basis of preparation**

These accounts have been prepared under the historical cost convention with items recognised at cost or transaction value unless otherwise stated in the relevant note(s) to these accounts.

The accounts have been prepared in accordance with the Statement of Recommended Practice: Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued on 16 July 2014, the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102) and with the Charities Act 2011.

The charity constitutes a public benefit entity as defined by FRS 102.

**2 Accounting policies**

**Recognition of income**

These are included in the Statement of Financial Activities (SoFA) when:

- the charity becomes entitled to the resources;
- it is more likely than not that the trustees will receive the resources; and
- the monetary value can be measured with sufficient reliability.

**Grants and donations**

Grants and donations are only included in the SoFA when the general income recognition criteria are met.

**Tax reclaims on donations and gifts**

Gift Aid receivable is included in income when there is a valid declaration from the donor. Any Gift Aid amount recovered on a donation is considered to be part of that gift and is treated as an addition to the same fund as the initial donation unless the donor or the terms of the appeal have specified otherwise.

**Income from interest, royalties and dividends**

This is included in the accounts when receipt is probable and the amount receivable can be measured reliably.

**Gift in kind**

Gifts in kind are accounted for at a reasonable estimate of their value to the charity or the amount actually realised.

**Donated services and facilities**

These are only included in incoming resources (with an equivalent amount in resources expended) where the benefit to the charity is reasonably quantifiable, measurable and material. The value placed on these resources is the estimated value to the charity of the service or facility received.

**Volunteer help**

The value of any voluntary help received is not included in the accounts.

**Notes to the financial statements  
for the year ended 31 October 2025**

---

**Liability recognition**

Liabilities are recognised where it is more likely than not that there is a legal or constructive obligation committing the charity to pay out resources and the amount of the obligation can be measured with reasonable certainty.

**Governance and support costs**

Support costs have been allocated between governance costs and other support. Governance costs comprise all costs involving public accountability of the charity and its compliance with regulation and good practice.

**Tangible fixed assets**

Tangible assets are included at cost less depreciation and impairment. Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives:

Plant and machinery	20% reducing balance
Fixtures and fittings	20% reducing balance

**Debtors**

Debtors (including trade debtors and loans receivable) are measured on initial recognition at settlement amount after any trade discounts or amount advanced by the charity. Subsequently, they are measured at the cash or other consideration expected to be received.

**Creditors**

Creditors and provision are measured and accounted for in accordance with usually accepted accruals principles.

**Taxation**

As a registered charity, the organisation is exempt from income and corporation tax to the extent that its income and gains are applied towards the charitable objects of the charity and for no other purpose. Value Added Tax is not recoverable by the charity, and is therefore included in the relevant costs in the Statement of Financial Activities.
