Independent Examiner's Report

Independent Examiner's Report to the trustees of Saint Paraskeva Romanian Orthodox Church

I report to the trustees on my examination of the financial statements of Saint Paraskeva Romanian Orthodox Church for the year ended 31 March 2025, which comprises the Statement of Financial Activities, the Balance Sheet and the related notes.

Responsibilities and basis of report

As the charity's trustees, you are responsible for the preparation of the financial statements in accordance with the requirements of the Charities Act 2011 ('the act'). The trustees consider that an audit is not required for this year under the Charities Act 2011, s.144(2) (the 2011 Act) and that an Independent Examination is needed.

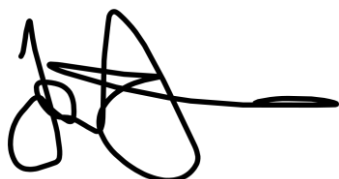

I report in respect of my examination of the charity's financial statements carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed all the applicable directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent Examiner's Statement

I have completed my examination. I can confirm that no material matters have come to my attention in connection with the examination giving me cause to believe that in, any material respect:

- The accounting records were not kept in respect of the charity as required by section 130 of the Act; or
- The financial statements do not accord with those records; or
- The financial statements do not comply with the applicable requirements concerning the form and content of the financial statements set out in the Charities (Accounts and Reports) regulations 2008, other than any requirement that the financial statements give a 'true and fair' view which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the financial statements to be reached.

Freehold Investment Property

Investment properties are measured initially at cost and subsequently at fair value at each balance sheet date and are not depreciated. All gains and losses are taken to the Statement of Financial Activities as they arise.

Saint Paraskeva Romanian Orthodox Church

Notes to the Accounts

Stocks

Stock is included at the lower of cost or net realisable value. Donated items of stock are recognised at fair value which is the amount the charity would have been willing to pay for the items on the open market.

Trade and other debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. In the statement of financial position, bank overdrafts are shown within borrowings or current liabilities. In the Statement of Cash Flows, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the company's cash management.

Trade and other Creditors

Short term creditors are measured at the transaction price. Other creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

Research and development

Expenditure on research and development is written off in the year in which it is incurred.

Foreign Currencies

Monetary assets and liabilities denominated in currencies other than the functional currency of the charity are translated at the rates of exchange prevailing at the end of the reporting period. Transactions in currencies other than the functional currency of the charity are recorded at the rate of exchange on the date that the transaction occurred. All exchange differences are considered in arriving at net income/expenditure.

Saint Paraskeva Romanian Orthodox Church

Notes to the Accounts

Leased Assets

Where the charity enters into a lease which entails taking substantially all the risks and rewards of ownership of an asset, the lease is treated as a finance lease. Leases which do not transfer substantially all the risks and rewards of ownership to charity are classified as operating leases. Assets held under finance leases are initially recognised as assets of the charity at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet date as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the charity's policy on borrowing costs. Assets held under finance leases are depreciated in the same way as owned assets. Operating lease payments are recognised as an expense on a straight-line basis over the lease term. In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis.

Pension Costs

The charity operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the charity pays fixed contributions into a separate entity. Once the contributions have been paid the charity has no further payments obligations. The contributions are recognised as expenses when they fall due. Amounts not paid are shown in accruals in the balance sheet. The assets of the plan are held separately from the charity in independently administered funds.

Receipt of donated goods, facilities and services

All donated goods, facilities and services received are recognised within incoming resources and expenditure at an estimate of the value to the charity.

Freehold Investment Property

Investment properties are measured initially at cost and subsequently at fair value at each balance sheet date and are not depreciated. All gains and losses are taken to the Statement of Financial Activities as they arise.

Notes to the Accounts

Stocks

Stock is included at the lower of cost or net realisable value. Donated items of stock are recognised at fair value which is the amount the charity would have been willing to pay for the items on the open market.

Trade and other debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. In the statement of financial position, bank overdrafts are shown within borrowings or current liabilities. In the Statement of Cash Flows, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the company's cash management.

Trade and other Creditors

Short term creditors are measured at the transaction price. Other creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

Research and development

Expenditure on research and development is written off in the year in which it is incurred.

Foreign Currencies

Monetary assets and liabilities denominated in currencies other than the functional currency of the charity are translated at the rates of exchange prevailing at the end of the reporting period. Leased Assets

Where the charity enters into a lease which entails taking substantially all the risks and rewards of ownership of an asset, the lease is treated as a finance lease. Leases which do not transfer substantially all the risks and rewards of ownership to charity are classified as operating leases. Assets held under finance leases are initially recognised as assets of the charity at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet date as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the charity's policy on borrowing costs. Assets held under finance leases are depreciated in the same way as owned assets. Operating lease payments are recognised as an expense on a straight-line basis over the lease term. In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis.

Pension Costs

The charity operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the charity pays fixed contributions into a separate entity. Once the contributions have been paid the charity has no further payments obligations. The contributions are recognised as expenses when they fall due. Amounts not paid are shown in accruals in the balance sheet. The assets of the plan are held separately from the charity in independently administered funds.

Receipt of donated goods, facilities and services

All donated goods, facilities and services received are recognised within incoming resources and expenditure at an estimate of the value to the charity.

Achievements and Performance

The Church provides a focal building and community space for the Romanian community within Devon and Cornwall. Long-term plans remain in place for the charity to purchase the Church from its current owner in order to secure its future. We continue to plan towards this with community events within the Church over the next 12 months.

Independent Examiner's Report

Independent Examiner's Report to the trustees of Saint Paraskeva Romanian Orthodox Church

I report to the trustees on my examination of the financial statements of Saint Paraskeva Romanian Orthodox Church for the year ended 31 March 2023, which comprises the Statement of Financial Activities, the Balance Sheet and the related notes.

Responsibilities and basis of report

As the charity's trustees, you are responsible for the preparation of the financial statements in accordance with the requirements of the Charities Act 2011 ('the act'). The trustees consider that an audit is not required for this year under the Charities Act 2011, s.144(2) (the 2011 Act) and that an Independent Examination is needed.

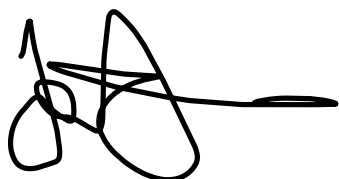

I report in respect of my examination of the charity's financial statements carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed all the applicable directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent Examiner's Statement

I have completed my examination. I can confirm that no material matters have come to my attention in connection with the examination giving me cause to believe that in, any material respect:

- The accounting records were not kept in respect of the charity as required by section 130 of the Act; or
- The financial statements do not accord with those records; or
- The financial statements do not comply with the applicable requirements concerning the form and content of the financial statements set out in the Charities (Accounts and Reports) regulations 2008, other than any requirement that the financial statements give a 'true and fair' view which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the financial statements to be reached.

Change in basis of accounting or to previous accounts.

There has been no change to the accounting policies (valuation rules and method of accounting) since last year and no changes have been made to accounts for previous years.

Fund Accounting

Unrestricted funds: These are available for use at the discretion of the trustees in furtherance of the general objectives of the charity.

Restricted funds: These are available for use subject to restrictions imposed by the donor or through terms of an appeal.

Designated funds: These are unrestricted funds earmarked by the trustees for particular purpose.

Revaluation funds: These are unrestricted funds which include a revaluation reserve representing the restatement of investment assets at their market value.

Recognition of income: Income is included in the Statement of Financial Activities (SoFA) when the charity becomes entitled to, and virtually certain to receive, the income and the amount of the income can be measured with sufficient reliability.

Income with related

Saint Paraskeva Romanian Orthodox Church

Notes to the Accounts

Donated Services and facilities:	These are only included in income (with an equivalent amount in expenditure) where the benefit to the Charity is reasonably quantifiable, measurable and material.
Volunteer Help:	The value of any volunteer help is not recorded in the accounts.

Gains/(losses) on Revaluation of fixed Assets:	This includes any gain or loss resulting from revaluing investments to market value at the end of the year.
Gains/(losses) on Investment assets:	This includes any gain or loss on the sale of investments.

Other expenditure:	These are support costs not allocated to a particular activity.

Taxation

The charity is exempt from tax on its charitable activities

Freehold Investment Property

Investment properties are measured initially at cost and subsequently at fair value at each balance sheet date and are not depreciated. All gains and losses are taken to the Statement of Financial Activities as they arise.

Saint Paraskeva Romanian Orthodox Church

Notes to the Accounts

Stocks

Stock is included at the lower of cost or net realisable value. Donated items of stock are recognised at fair value which is the amount the charity would have been willing to pay for the items on the open market.

Trade and other debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. In the statement of financial position, bank overdrafts are shown within borrowings or current liabilities. In the Statement of Cash Flows, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the company's cash management.

Trade and other Creditors

Short term creditors are measured at the transaction price. Other creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

Research and development

Expenditure on research and development is written off in the year in which it is incurred.

Foreign Currencies

Monetary assets and liabilities denominated in currencies other than the functional currency of the charity are translated at the rates of exchange prevailing at the end of the reporting period. Transactions in currencies other than the functional currency of the charity are recorded at the rate of exchange on the date that the transaction occurred. All exchange differences are considered in arriving at net income/expenditure.

Saint Paraskeva Romanian Orthodox Church

Notes to the Accounts

Leased Assets

Where the charity enters into a lease which entails taking substantially all the risks and rewards of ownership of an asset, the lease is treated as a finance lease. Leases which do not transfer substantially all the risks and rewards of ownership to charity are classified as operating leases. Assets held under finance leases are initially recognised as assets of the charity at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet date as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the charity's policy on borrowing costs. Assets held under finance leases are depreciated in the same way as owned assets. Operating lease payments are recognised as an expense on a straight-line basis over the lease term. In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis.

Pension Costs

The charity operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the charity pays fixed contributions into a separate entity. Once the contributions have been paid the charity has no further payments obligations. The contributions are recognised as expenses when they fall due. Amounts not paid are shown in accruals in the balance sheet. The assets of the plan are held separately from the charity in independently administered funds.

Receipt of donated goods, facilities and services

All donated goods, facilities and services received are recognised within incoming resources and expenditure at an estimate of the value to the charity.
