AEONIAN FOUNDATION

TRUSTEES' REPORT FOR THE YEAR ENDED 31 DECEMBER 2024

The Trustees present their annual report together with the audited financial statements of the Charity for the year ended 31 December 2024. The Trustees confirm that the Annual report and financial statements of the charitable company comply with the current statutory requirements, the requirements of the charitable incorporated organisation's governing document and the provisions of the Statement of Recommended Practice (SORP) applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS102) (effective 1 January 2019).

Objectives and activities

a. Policies and objectives

The objects of the CIO are such exclusively charitable purposes as may be determined from time to time by the charity trustees.

The Charity Trustees' current priorities are:

- advancing education of disadvantaged persons by developing their mental, physical and moral capabilities through educational services or leisure time activities;
- the relief of mental or physical illness and the preservation of health among disadvantaged persons;
- working to prevent or relieve poverty or homelessness; and
- promoting sustainable development through the preservation, conservation and protection of the environment and the prudent use of resources.

The Charity's current policy is to make grants to registered charities based in the United Kingdom and with proven track records in their particular areas of activity.

In setting objectives and planning for activities, the Trustees have given due consideration to general guidance published by the Charity Commission relating to public benefit, including the guidance 'Public benefit: running a charity (PB2)'.¹

b. Strategies for achieving objectives

The Charity achieves its objectives by supporting organisations selected by the Trustees and in particular by making grants.

c. Grant making policies

The Trustees award grants which are most likely to further the Charity's purposes efficiently and effectively. In particular:

- the Trustees allocate the available funds according to the relevance of the organisation's work to the objects and strategic aims of the Charity, the number of individuals likely to benefit from the organisation, the quality and value of the benefit the organisation is able to provide, the resources and financial health of the organisation and the efficiency and security of the administrative systems and processes used by the organisation; and
- the Trustees will consider supporting smaller and less well known organisations if the Trustees determine they have an ability to achieve real growth and deliver a meaningful and significant impact in furtherance of the Charity's purposes, or organisations which may be large but do not have a regular funding base as the cause is perhaps less popular.

Applications from organisations or groups which are not registered charities may be considered at the Trustees' discretion, where the trustees consider they can be satisfied that the grant is applied for charitable purposes.

The Trustees prefer not to receive unsolicited applications from organisations and these will only be considered in exceptional circumstances and will support in priority the work of organisations whose work is known to them or can be readily inspected and where they can be assured that the grant is being applied for the purposes for which it is given.

The size of grants awarded is entirely at the discretion of the Trustees of the Charity and there is no fixed size. The Trustees are willing to make grants to support both core funding and specific projects.

AEONIAN FOUNDATION

TRUSTEES' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2024

The Trustees intend to develop long term strategic relationships with the Charity's grant recipients and intend, therefore, to support organisations on a multi year basis where appropriate, in order to establish a meaningful and ongoing relationship with the recipient.

The Trustees acknowledge they have a duty to avoid exposing the Charity's resources and reputation to inappropriate risk and agree, therefore, to carry out a risk assessment as to proposed grants. As part of this, the Trustees will carry out proportionate and effective due diligence, including appropriate vetting procedures (the level of which should take into account the value of the proposed grant) including due diligence on the identity and background and governance procedures of the recipient and any partners with which the recipient will work, and on the proposed use of the grant and how this will advance the Charity's objects.

The Trustees meet approximately four times a year to consider the award of grants. Potential grant recipients will be required to submit a 'proposal' setting out the activities for which the grant will be used, the anticipated impact, as well as the projected expenditure and grant funding requirements and related timescales. All grant recipients are asked to acknowledge the distribution, to comply with the reporting mechanisms and to sign any grant agreement provided by the Trustees. The Trustees receive and consider reports on grant expenditure by existing grant recipients, as required under the grant documentation entered into with the grant recipient. The impact of contributions is reviewed and adjustments are made annually. The amount of funding allocated to each organisation varies depending on their success and credible future plans, as far as possible each will be supported on a long term basis with only gradual adjustments to funding allocations

Based on current projections the Trustees expect to make total grants in 2025 of £3M and beyond 2025 this is expected to be between £2.5M and £3M, depending upon investment performance.

Achievements and performance

a. Main achievements of the Charity

The Charity made grants of £2,584,797 to supported organisations during the period (2023: £2,095,759).

A loan facility of £1.5M to a supported charity remains in place, an initial amount of £1,245,964 was drawn down in 2023 with the balance being available until May 2026. This was to enable the supported charity to refinance an existing loan at a more beneficial rate of interest and to provide additional finance to enable it to continue and develop its operations.

Organisations to support were carefully selected following extensive research and dialogue with the organisations. During 2024 the Charity continued to support the fourteen organisations already supported and a further organisation was selected to receive support. The fifteen organisations are all UK registered Charities offering services in health, education, disabilities, homelessness and environmental improvement.

Of the 15 UK Charities supported during the year, 8 were supporting development projects outside the UK, mainly in Madagascar and South Africa, grants to these Charities totalled £1,590,228. These projects support schools and health services in remote and deprived areas, with a focus on introducing and encouraging sustainability.

Each organisation continues to be assessed to fully understand their scale and requirements and appropriate quarterly unrestricted funding grants were provided to them to enable them to build their capacity to successfully deliver more projects in subsequent years. In addition restricted funding is provided to support specific projects based upon proposals submitted.

Two of the Organisations supported, The Fore and The Big Give, are grant giving funds. The Fore is a venture philanthropy fund dedicated to small charities and The Big Give is the UK's leading match funding Charity. Supporting these 2 organisations increases the ability of the Aeonian Foundation to reach many more individual organisations and charities.

b. Investment policy and performance

The CIO has the majority of its funds invested in a HSBC investment portfolio advised on by a professional HSBC investment manager. Whilst these funds will typically rise and fall with the global stock markets, over a long period of time they are expected to make an above inflation rate return, currently assumed to be +2%. The expected rate of return is related to the risk factor decided for the portfolio which will be reviewed from time to time. The majority will initially be invested in a general fund called a Core Multi asset Solution (CMS) but over time a greater proportion will be assigned to higher risk, higher volatility, lower liquidity investments including private equity (PE) and funds specifically aligned with the CIO's objectives (Thematic).

AEONIAN FOUNDATION

TRUSTEES' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2024

All funds will be invested into collective investment funds, not individual shares, bonds or other investments.

Funds will be selected to be ethical and sustainable, initially on the basis of avoiding unethical or non sustainable investments through negative screening. As the portfolio develops an increasing focus will be placed on selecting specific ethical and sustainable investments through positive screening.

Consideration will be given to investing a proportion of the funds into social investment funds at a lower than maximum possible expected return but this will always be balanced against the opportunity cost to the CIO of lower future funds being available for grants.

All investment decisions will be determined by the CIO's investment committee consisting of at least two trustees nominated by the majority of trustees from time to time.

Advice will always be sought from professional investment advisors, initially from HSBC Private Bank. In the event that the investment committee decide to make any investments which have not been recommended by HSBC, e.g. social investments or non HSBC approved funds, they will seek explicit majority approval from the full board of trustees.

The investment committee will report to the full board of trustees annually on investment performance and any material changes in investment strategy, risk profile, investment advisors or fund managers.

During the period a gain of £3,032,173 was made on investments in 2024 (2023:£1,996,458).

Financial review

No donations were received in the period to December 2024 (2023: no donations). Investment income amounted to £811,504 (2023: £706,479).

After deducting grants paid and overhead costs and accounting for investment gains the charity made a net surplus of £669,500 (2023: £344,825).

a. Going concern

After making appropriate enquiries, the Trustees have a reasonable expectation that the Charity has adequate resources to continue in operational existence for the foreseeable future given the substantial reserves. For this reason, they continue to adopt the going concern basis in preparing the financial statements. Further details regarding the adoption of the going concern basis can be found in the accounting policies.

b. Reserves policy

Total funds at the year end were £34,030,336 (2023: £33,360,836) The Charity does not maintain specific reserves but a substantial proportion of its investment portfolio is held in liquid investments which can be withdrawn at short notice being £39,361,820 (2023: £34,875,837). In addition HSBC provide a Lombard Loan facility secured on the investments held with them from which funds may be drawn down on demand.

The Trustees wish to use funds to support the chosen charities with an amount to be allotted each year.

c. Principal funding

The funding of the Charity has come from donations, which are invested to produce investment income and capital growth.

AEONIAN FOUNDATION

TRUSTEES' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2024

Structure, governance and management

a. Constitution

Aeonian Foundation is registered as a charitable incorporated organisation (CIO) and was set up under a constitution dated 6 December 2021.

b. Methods of appointment or election of Trustees

The management of the Charity is the responsibility of the Trustees who are elected and co opted under the terms of the constitution.

c. Policies adopted for the induction and training of Trustees

All trustees register for the Institute of Chartered Accountants in England and Wales online trustee training course and complete the modules which are relevant to their role and the requirements of the foundation.

d. Related party relationships

None.

e. Financial risk management

The Trustees have assessed the major risks to which the Charity is exposed, in particular those related to the operations and finances of the Charity, and are satisfied that systems and procedures are in place to mitigate exposure to the major risks.

The main risk considered by the Trustees is investment performance and the Trustees have appointed HSBC Private Banking to manage the investment portfolio on their behalf.

Plans for future periods

The charity intends to extend its support to approximately Sixteen organisations by the end of 2025 and will continue to provide significant extra project grants currently supported organisations. In addition in 2025 the Charity will provide additional funding through The Fore to 3 charities through their Scale-Up Funding programme.

The budget for 2025 has been agreed by the trustees at £3m with the majority of the prospective projects identified and plans being developed. All supported organisations will continue to receive appropriate levels of unrestricted funding to ensure they have the resources required to execute this expanded level of project work.

AEONIAN FOUNDATION

TRUSTEES' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2024

Statement of Trustees' responsibilities

The Trustees are responsible for preparing the Trustees' report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Charity law requires the Trustees to prepare financial statements for each financial period. Under charity law, the Trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Charity and of its incoming resources and application of resources, including its income and expenditure, for that period. In preparing these financial statements, the Trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles of the Charities SORP (FRS 102);
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards (FRS 102) have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Charity will continue in business.

Auditors

The auditors, Menzies LLP, have indicated their willingness to continue in office. The Trustees will propose a motion reappointing the auditors at a meeting of the Trustees.

Approved by order of the members of the board of Trustees and signed on their behalf by:

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AEONION FOUNDATION

Opinion

We have audited the financial statements of Aeonian Foundation (the 'Charity') for the year ended 31 December 2024 which comprise the Statement of financial activities, the Balance sheet, the Statement of cash flows and the related notes, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

The financial statements have been prepared in accordance with Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standards applicable in the UK and Republic of Ireland (FRS 102) in preference to the Accounting and Reporting by Charities: Statement of Recommended Practice issued on 1 April 2005 which is referred to in the extant regulations but has been withdrawn.

This has been done in order for the accounts to provide a true and fair view in accordance with the Generally Accepted Accounting Practice effective for reporting periods beginning on or after 1 January 2019.

In our opinion the financial statements:

- give a true and fair view of the state of the Charity's affairs as at 31 December 2024 and of its incoming resources and application of resources for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and in other respects the requirements of the Charities Act 2011 have been prepared in accordance with the requirements of the Charities Act 2011.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the Charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the United Kingdom, including the Financial Reporting Council's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charity's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Trustees with respect to going concern are described in the relevant sections of this report.

AEONIAN FOUNDATION

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AEONION FOUNDATION (CONTINUED)

Other information

The other information comprises the information included in the Annual report other than the financial statements and our Auditors' report thereon. The Trustees are responsible for the other information contained within the Annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Charities (Accounts and Reports) Regulations 2008 requires us to report to you if, in our opinion:

- the information given in the financial statements is inconsistent in any material respect with the report of the Trustees;
- or sufficient accounting records have not been kept; or
- the Charity's financial statements are not in agreement with the accounting records; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of trustees

As explained more fully in the Trustees' responsibilities statement, the Trustees are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Trustees are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

AEONIAN FOUNDATION

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AEONION FOUNDATION (CONTINUED)

Auditors' responsibilities for the audit of the financial statements

We have been appointed as auditor under section 144 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

- The Charity is subject to laws and regulations that directly affect the financial statements including financial reporting legislation. We determined that the following laws and regulations were most significant including the Charities Act 2011 and the Data Protection Act 2018. We assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.
- We understood how the Charity is complying with those legal and regulatory frameworks by, making inquiries to management, those responsible for legal and compliance procedures. We corroborated our inquiries through our review of Board minutes.
- The engagement partner assessed whether the engagement team collectively had the appropriate competence and capabilities to identify or recognize non-compliance with laws and regulations. The assessment did not identify any issues in this area

We assessed the susceptibility of the financial statements to material misstatement, including how fraud might occur. We considered the opportunities and incentives that may exist within the organisation for fraud and identified the greatest potential for fraud in relation to: posting of fraudulent journal entries, authorisation, processing, and payment of fraudulent grant claims and timing of revenue recognition.

Audit procedures performed by the engagement team included:

- Identifying and assessing the design effectiveness of controls management has in place to prevent and detect fraud;
- Understanding how those charged with governance considered and addressed the potential for override of controls or other inappropriate influence over the financial reporting process;
- Reviewing the system for authorising grant payments,
- Challenging assumptions and judgments made by management in its significant accounting estimates; and
- Identifying and testing journal entries, in particular any journal entries posted with unusual account combinations.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our Auditors' report.

AEONIAN FOUNDATION

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AEONION FOUNDATION (CONTINUED)

Use of our report

This report is made solely to the Trustees in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the Trustees those matters we are required to state to them in an Auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trustees for our audit work, for this report, or for the opinions we have formed.

AEONIAN FOUNDATION

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2024

1. General information

The Aeonian Foundation is a Charitable Incorporated Organisation, and incorporated in England & Wales. The registered address can be found on page 1 and principal activities are set out in the Trustees' Annual Report.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared in accordance with the Charities SORP (FRS 102) - Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and the Charities Act 2011.

The financial statements have been prepared to give a 'true and fair' view and have departed from the Charities (Accounts and Reports) Regulations 2008 only to the extent required to provide a 'true and fair' view. This departure has involved following the Charities SORP (FRS 102) published in October 2019 rather than the Accounting and Reporting by Charities: Statement of Recommended Practice effective from 1 April 2005 which has since been withdrawn.

Aeonian Foundation meets the definition of a public benefit entity under FRS 102. Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy.

2.2 Going concern

The charity has significant reserves amounting to £34,030,336 backed by an investment portfolio. The trustees therefore consider the charity has more than adequate resources to enable it to continue its operations for at least twelve months from the date of approval of these financial statements and for the foreseeable future. The financial statements are accordingly prepared on the going concern basis.

2.3 Income

All income is recognised once the Charity has entitlement to the income, it is probable that the income will be received and the amount of income receivable can be measured reliably.

Income tax recoverable in relation to donations received under Gift Aid or deeds of covenant is recognised at the time of the donation.

Income tax recoverable in relation to investment income is recognised at the time the investment income is receivable.

2.4 Expenditure

Expenditure is recognised once there is a legal or constructive obligation to transfer economic benefit to a third party, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is classified by activity. The costs of each activity are made up of the total of direct costs and shared costs, including support costs involved in undertaking each activity. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs which contribute to more than one activity and support costs which are not attributable to a single activity are apportioned between those activities on a basis consistent with the use of resources. Central staff costs are allocated on the basis of time spent, and depreciation charges allocated on the portion of the asset's use.

Expenditure on raising funds includes all expenditure incurred by the Charity to raise funds for its charitable purposes and includes costs of investment management, interest on the Loan used to fund private equity investments, and any currency fluctuations which are related to the investments.

AEONIAN FOUNDATION

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2024

2. Accounting policies (continued)

2.4 Expenditure (continued)

Expenditure on charitable activities is incurred on directly undertaking the activities which further the Charity's objectives, as well as any associated support costs.

Grants payable are charged in the year when the offer is made except in those cases where the offer is conditional, such grants being recognised as expenditure when the conditions attaching are fulfilled. Grants offered subject to conditions which have not been met at the year end are noted as a commitment, but not accrued as expenditure.

All expenditure is inclusive of irrecoverable VAT.

2.5 Interest receivable

Interest on funds held on deposit is included when receivable and the amount can be measured reliably by the Charity; this is normally upon notification of the interest paid or payable by the institution with whom the funds are deposited.

2.6 Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the reporting date.

Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction.

Exchange gains and losses are recognised in the Statement of financial activities.

2.7 Investments

Fixed asset investments are a form of financial instrument and are initially recognised at their transaction cost and subsequently measured at fair value at the Balance sheet date, unless the value cannot be measured reliably in which case it is measured at cost less impairment. Investment gains and losses, whether realised or unrealised, are combined and presented as 'Gains/(Losses) on investments' in the Statement of financial activities.

Social Investments held as fixed assets are shown at cost less provision for impairment.

2.8 Cash at bank and in hand

Cash at bank and in hand includes cash and short-term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

2.9 Liabilities and provisions

Liabilities are recognised when there is an obligation at the Balance sheet date as a result of a past event, it is probable that a transfer of economic benefit will be required in settlement, and the amount of the settlement can be estimated reliably.

Liabilities are recognised at the amount that the Charity anticipates it will pay to settle the debt or the amount it has received as advanced payments for the goods or services it must provide.

AEONIAN FOUNDATION

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2024

2. Accounting policies (continued)

2.10 Financial instruments

The Charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value with the exception of bank loans which are subsequently measured at amortised cost using the effective interest method.

3. Investment income

	Unrestricted funds 2024 £	Total funds 2024 £	<i>Total funds 2023 £</i>
Income from listed investments	724,219	724,219	655,744
Income from other fixed asset investments	6,702	6,702	1,989
Interest received on cash deposits	3,803	3,803	10,019
Interest received on loans	76,780	76,780	38,727
	<u>811,504</u>	<u>811,504</u>	<u>706,479</u>
<i>Total 2023</i>	<u>706,479</u>	<u>706,479</u>	

4. Investment management costs

	Unrestricted funds 2024 £	Total funds 2024 £	<i>Total funds 2023 (restated) £</i>
Investment management fees	171,093	171,093	139,861
Loan interest paid	323,848	323,848	70,959
Currency gains & losses	53,349	53,349	3,843
	<u>548,290</u>	<u>548,290</u>	<u>214,663</u>
<i>Total 2023</i>	<u>214,663</u>	<u>214,663</u>	

£74,802 of loan interest and currency gains and losses arising in 2023 have been reallocated to investment management costs from support costs as these relate to the management of the investment portfolio.

AEONIAN FOUNDATION

TRUSTEES' REPORT FOR THE YEAR ENDED 31 DECEMBER 2023

The Trustees present their annual report together with the audited financial statements of the Charity for the year ended 31 December 2023. The Trustees confirm that the Annual report and financial statements of the charitable company comply with the current statutory requirements, the requirements of the charitable incorporated organisation's governing document and the provisions of the Statement of Recommended Practice (SORP) applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS102) (effective 1 January 2019).

Objectives and activities

a. Policies and objectives

The objects of the CIO are such exclusively charitable purposes as may be determined from time to time by the charity trustees.

The Charity Trustees' current priorities are:

- advancing education of disadvantaged persons by developing their mental, physical and moral capabilities through educational services or leisure time activities;
- the relief of mental or physical illness and the preservation of health among disadvantaged persons;
- working to prevent or relieve poverty or homelessness; and
- promoting sustainable development through the preservation, conservation and protection of the environment and the prudent use of resources.

The Charity's current policy is to make grants to registered charities based in the United Kingdom and with proven track records in their particular areas of activity.

In setting objectives and planning for activities, the Trustees have given due consideration to general guidance published by the Charity Commission relating to public benefit, including the guidance 'Public benefit: running a charity (PB2)'.

b. Strategies for achieving objectives

The Charity achieves its objectives by supporting organisations selected by the Trustees and in particular by making grants.

c. Grant-making policies

The Trustees award grants which are most likely to further the Charity's purposes efficiently and effectively. In particular:

- the Trustees allocate the available funds according to the relevance of the organisation's work to the objects and strategic aims of the Charity, the number of individuals likely to benefit from the organisation, the quality and value of the benefit the organisation is able to provide, the resources and financial health of the organisation and the efficiency and security of the administrative systems and processes used by the organisation; and
- the Trustees will consider supporting smaller and less well-known organisations if the Trustees determine they have an ability to achieve real growth and deliver a meaningful and significant impact in furtherance of the Charity's purposes, or organisations which may be large but do not have a regular funding base as the cause is perhaps less popular.

Applications from organisations or groups which are not registered charities may be considered at the Trustees' discretion, where the trustees consider they can be satisfied that the grant is applied for charitable purposes.

The Trustees prefer not to receive unsolicited applications from organisations and these will only be considered in exceptional circumstances and will support in priority the work of organisations whose work is known to them or can be readily inspected and where they can be assured that the grant is being applied for the purposes for which it is given.

The size of grants awarded is entirely at the discretion of the Trustees of the Charity and there is no fixed size. The Trustees are willing to make grants to support both core funding and specific projects.

The Trustees intend to develop long term strategic relationships with the Charity's grant recipients and intend, therefore, to support organisations on a multi-year basis where appropriate, in order to establish a meaningful and ongoing relationship with the recipient.

AEONIAN FOUNDATION

TRUSTEES' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2023

The Trustees acknowledge they have a duty to avoid exposing the Charity's resources and reputation to inappropriate risk and agree, therefore, to carry out a risk assessment as to proposed grants. As part of this, the Trustees will carry out proportionate and effective due diligence, including appropriate vetting procedures (the level of which should take into account the value of the proposed grant) including due diligence on the identity and background and governance procedures of the recipient and any partners with which the recipient will work, and on the proposed use of the grant and how this will advance the Charity's objects.

The Trustees will meet approximately four times a year to consider the award of grants. Potential grant recipients will be required to submit a 'proposal' setting out the activities on which the grant would be used, the anticipated impact, as well as the projected expenditure and grant funding requirements and related timescales. All grant recipients will be asked to acknowledge the distribution, to comply with the reporting mechanisms and to sign any grant agreement provided by the Trustees. The Trustees shall receive and consider reports on grant expenditure by existing grant recipients, as required under the grant documentation entered into with the grant recipient. A comprehensive measurement system will be put in place to assess the impact of contributions and make adjustments with a formal annual review process. It is expected that the amount of funding allocated to each organisation will vary depending on their success and credible future plans but as far as possible each will be supported on a long-term basis with only gradual adjustments to funding allocations.

Achievements and performance

a. Main achievements of the Charity

The Charity made grants of £1,912,512 to supported organisations during the period (2022: £581,250). Unconditional grant commitments at the year end were £183,067 (2022: £612,540), making total grants recognised in these accounts of £2,095,579 (2022: £1,193,790).

A loan facility of £1.5M to a supported charity was agreed this year, an initial amount of £1,245,964 was drawn down with the balance being available until May 2026. This was to enable the supported charity to refinance an existing loan at a more beneficial rate of interest and to provide additional finance to enable it to continue and develop its operations.

Organisations to support were carefully selected following extensive research and dialogue with the organisations. During 2023, fourteen organisations were selected to receive support, three operating in South Africa, five in Madagascar and six in the UK. These organisations offer services in health, education, disabilities, homelessness and environmental improvement.

Each organisation was assessed to fully understand their scale and requirements and appropriate quarterly unrestricted funding grants were provided to them to enable them to build their capacity to successfully deliver more projects in subsequent years. Some specific restricted funding was provided to support rural health improvement projects in South Africa and Madagascar.

b. Investment policy and performance

The CIO will have the majority of its funds invested in a HSBC investment portfolio advised on by a professional HSBC investment manager. Whilst these funds will typically rise and fall with the global stock markets, over a long period of time they are expected to make an above inflation rate return, currently assumed to be +2%. The expected rate of return is related to the risk factor decided for the portfolio which will be reviewed from time to time. The majority will initially be invested in a general fund called a Core Multi-asset Solution (CMS) but over time a greater proportion will be assigned to higher risk, higher volatility, lower liquidity investments including private equity (PE) and funds specifically aligned with the CIO's objectives (Thematic).

All funds will be invested into collective investment funds, not individual shares, bonds or other investments.

Funds will be selected to be ethical and sustainable, initially on the basis of avoiding unethical or non-sustainable investments through negative screening. As the portfolio develops an increasing focus will be placed on selecting specific ethical and sustainable investments through positive screening.

Consideration will be given to investing a proportion of the funds into social investment funds at a lower than maximum possible expected return but this will always be balanced against the opportunity cost to the CIO of lower future funds being available for grants.

All investment decisions will be determined by the CIO's investment committee consisting of at least two trustees nominated by the majority of trustees from time to time.

AEONIAN FOUNDATION

TRUSTEES' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2023

Advice will always be sought from professional investment advisors, initially from HSBC Private Bank. In the event that the investment committee decide to make any investments which have not been recommended by HSBC, e.g. social investments or non-HSBC approved funds, they will seek explicit majority approval from the full board of trustees.

The investment committee will report to the full board of trustees annually on investment performance and any material changes in investment strategy, risk profile, investment advisors or fund managers.

During the period a gain of £1,996,458 was made on investments in 2023.

Financial review

No donations were received in the period to December 2023 (2022: donations and tax recovered of £34,492,315). Investment income amounted to £706,479 (2022: £148,589).

After deducting grants paid and overhead costs and accounting for investment gains the charity made a net surplus of £344,825 (2022: £33,016,011).

a. Going concern

After making appropriate enquiries, the Trustees have a reasonable expectation that the Charity has adequate resources to continue in operational existence for the foreseeable future given the substantial reserves. For this reason, they continue to adopt the going concern basis in preparing the financial statements. Further details regarding the adoption of the going concern basis can be found in the accounting policies.

b. Reserves policy

Total funds at the year end were £33,360,836 (2022: £33,016,011) The Charity does not maintain specific reserves but a substantial proportion of its investment portfolio is held in liquid investments which can be withdrawn at short notice (£34,875,837) (2022: £26,578,194). In addition HSBC provide a Lombard Loan facility secured on the investments held with them from which funds may be drawn down on demand.

The Trustees wish to use funds to support the chosen charities with an amount to be allotted each year.

c. Principal funding

The funding of the Charity has come from donations, which are invested to produce investment income and capital growth.

Structure, governance and management

a. Constitution

Aeonian Foundation is registered as a charitable incorporated organisation (CIO) and was set up under a constitution dated 6 December 2021.

b. Methods of appointment or election of Trustees

The management of the Charity is the responsibility of the Trustees who are elected and co-opted under the terms of the constitution.

c. Policies adopted for the induction and training of Trustees

All trustees register for the Institute of Chartered Accountants in England and Wales online trustee training course and complete the modules which are relevant to their role and the requirements of the foundation.

d. Related party relationships

None

AEONIAN FOUNDATION

TRUSTEES' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2023

e. Financial risk management

The Trustees have assessed the major risks to which the Charity is exposed, in particular those related to the operations and finances of the Charity, and are satisfied that systems and procedures are in place to mitigate exposure to the major risks.

The main risk considered by the Trustees is investment performance and the Trustees have appointed HSBC Private Banking to manage the investment portfolio on their behalf.

Plans for future periods

The charity intends to extend its support to approximately Fifteen organisations by the end of 2024 and provide significant extra project grants to nine organisations it started supporting in 2022.

The budget for 2024 has been agreed by the trustees at £2.5m with the majority of the prospective projects identified and plans being developed. All supported organisations will continue to receive appropriate levels of unrestricted funding to ensure they have the resources required to execute this expanded level of project work.

Statement of Trustees' responsibilities

The Trustees are responsible for preparing the Trustees' report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Charity law requires the Trustees to prepare financial statements for each financial period. Under charity law, the Trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Charity and of its incoming resources and application of resources, including its income and expenditure, for that period. In preparing these financial statements, the Trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles of the Charities SORP (FRS 102);
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards (FRS 102) have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Charity will continue in business.

Auditors

The auditors, Menzies LLP, have indicated their willingness to continue in office. The Trustees will propose a motion reappointing the auditors at a meeting of the Trustees.

Approved by order of the members of the board of Trustees and signed on their behalf by:

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AEONIAN FOUNDATION

Opinion

We have audited the financial statements of Aeonian Foundation (the 'Charity') for the year ended 31 December 2023 which comprise the Statement of financial activities, the Balance sheet, the Statement of cash flows and the related notes, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

The financial statements have been prepared in accordance with "Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standards applicable in the UK and Republic of Ireland (FRS 102)" in preference to the "Accounting and Reporting by Charities: Statements of Recommended Practice" issued on 1 April 2005 which is referred to in the extant regulations but has been withdrawn. This has been done in order for the financial statements to provide a true and fair view in accordance with the Generally Accepted Accounting Practice effective for reporting periods beginning on or after 1 January 2019.

In our opinion the financial statements:

- give a true and fair view of the state of the Charity's affairs as at 31 December 2023 and of its incoming resources and application of resources, including its income and expenditure for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and in other respects the requirements of the Charities Act 2011.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the Charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the United Kingdom, including the Financial Reporting Council's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charity's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Trustees with respect to going concern are described in the relevant sections of this report.

AEONIAN FOUNDATION

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AEONIAN FOUNDATION (CONTINUED)

Other information

The other information comprises the information included in the Annual report other than the financial statements and our Auditors' report thereon. The Trustees are responsible for the other information contained within the Annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Charities (Accounts and Reports) Regulations 2008 requires us to report to you if, in our opinion:

- the information given in the financial statements is inconsistent in any material respect with the report of the Trustees;
- or sufficient accounting records have not been kept; or
- the Charity's financial statements are not in agreement with the accounting records; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of trustees

As explained more fully in the Trustees' responsibilities statement, the Trustees are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Trustees are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

AEONIAN FOUNDATION

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AEONIAN FOUNDATION (CONTINUED)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

- The Charity is subject to laws and regulations that directly affect the financial statements including financial reporting legislation. We determined that the following laws and regulations were most significant including the Charities Act 2011 and the Data Protection Act 2018. We assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.
- We understood how the Charity is complying with those legal and regulatory frameworks by, making inquiries to management, those responsible for legal and compliance procedures. We corroborated our inquiries through our review of board minutes.
- The engagement partner assessed whether the engagement team collectively had the appropriate competence and capabilities to identify or recognize non-compliance with laws and regulations. The assessment did not identify any issues in this area.

We assessed the susceptibility of the financial statements to material misstatement, including how fraud might occur. We considered the opportunities and incentives that may exist within the organisation for fraud and identified the greatest potential for fraud in the following areas; posting of fraudulent journal entries, authorisation, processing, and payment of fraudulent grant claims and timing of revenue recognition.

Audit procedures performed by the engagement team included:

- Identifying and assessing the design effectiveness of controls management has in place to prevent and detect fraud;
- Understanding how those charged with governance considered and addressed the potential for override of controls or other inappropriate influence over the financial reporting process;
- Reviewing the system for authorising grant payments,
- Challenging assumptions and judgments made by management in its significant accounting estimates; and
- Identifying and testing journal entries, in particular any journal entries posted with unusual account combinations.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our Auditors' report.

AEONIAN FOUNDATION

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AEONIAN FOUNDATION (CONTINUED)

Use of our report

This report is made solely to the Trustees in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the Trustees those matters we are required to state to them in an Auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trustees for our audit work, for this report, or for the opinions we have

AEONIAN FOUNDATION

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023

1. General information

The Aeonian Foundation is a Charitable Incorporated Organisation, and incorporated in England & Wales. The registered address can be found on page 1 and principal activities are set out in the Trustees' Annual Report.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared in accordance with the Charities SORP (FRS 102) - Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and the Charities Act 2011.

Aeonian Foundation meets the definition of a public benefit entity under FRS 102. Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy.

2.2 Going concern

The charity has significant reserves amounting to £33,360,836 backed by an investment portfolio. The trustees therefore consider the charity has more than adequate resources to enable it to continue its operations for at least twelve months from the date of approval of these financial statements and for the foreseeable future. The financial statements are accordingly prepared on the going concern basis.

2.3 Income

All income is recognised once the Charity has entitlement to the income, it is probable that the income will be received and the amount of income receivable can be measured reliably.

Income tax recoverable in relation to donations received under Gift Aid or deeds of covenant is recognised at the time of the donation.

Income tax recoverable in relation to investment income is recognised at the time the investment income is receivable.

2.4 Expenditure

Expenditure is recognised once there is a legal or constructive obligation to transfer economic benefit to a third party, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is classified by activity. The costs of each activity are made up of the total of direct costs and shared costs, including support costs involved in undertaking each activity. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs which contribute to more than one activity and support costs which are not attributable to a single activity are apportioned between those activities on a basis consistent with the use of resources. Central staff costs are allocated on the basis of time spent, and depreciation charges allocated on the portion of the asset's use.

Expenditure on raising funds includes all expenditure incurred by the Charity to raise funds for its charitable purposes and includes costs of investment management.

Expenditure on charitable activities is incurred on directly undertaking the activities which further the Charity's objectives, as well as any associated support costs.

AEONIAN FOUNDATION

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2023

2. Accounting policies (continued)

2.4 Expenditure (continued)

Grants payable are charged in the year when the offer is made except in those cases where the offer is conditional, such grants being recognised as expenditure when the conditions attaching are fulfilled. Grants offered subject to conditions which have not been met at the year end are noted as a commitment, but not accrued as expenditure.

All expenditure is inclusive of irrecoverable VAT.

2.5 Interest receivable

Interest on funds held on deposit is included when receivable and the amount can be measured reliably by the Charity; this is normally upon notification of the interest paid or payable by the institution with whom the funds are deposited.

2.6 Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the reporting date.

Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction.

Exchange gains and losses are recognised in the Statement of financial activities.

2.7 Investments

Fixed asset investments are a form of financial instrument and are initially recognised at their transaction cost and subsequently measured at fair value at the Balance sheet date, unless the value cannot be measured reliably in which case it is measured at cost less impairment. Investment gains and losses, whether realised or unrealised, are combined and presented as 'Gains/(Losses) on investments' in the Statement of financial activities.

Social Investments held as fixed assets are shown at cost less provision for impairment.

2.8 Cash at bank and in hand

Cash at bank and in hand includes cash and short-term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

2.9 Liabilities and provisions

Liabilities are recognised when there is an obligation at the Balance sheet date as a result of a past event, it is probable that a transfer of economic benefit will be required in settlement, and the amount of the settlement can be estimated reliably.

Liabilities are recognised at the amount that the Charity anticipates it will pay to settle the debt or the amount it has received as advanced payments for the goods or services it must provide.

2.10 Financial instruments

The Charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value with the exception of bank loans which are subsequently measured at amortised cost using the effective interest method.

TRUSTEES' REPORT FOR THE PERIOD ENDED 31 DECEMBER 2022

The Trustees present their annual report together with the audited financial statements of the Charity for the period 6 December 2021 to 31 December 2022. The Trustees confirm that the Annual report and financial statements of the charitable company comply with the current statutory requirements, the requirements of the charitable incorporated organisation's governing document and the provisions of the Statement of Recommended Practice (SORP) applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS102) (effective 1 January 2019).

Objectives and activities

a. Policies and objectives

The objects of the CIO are such exclusively charitable purposes as may be determined from time to time by the charity trustees.

The Charity Trustees' current priorities are:

- advancing education of disadvantaged persons by developing their mental, physical and moral capabilities through educational services or leisure time activities;
- the relief of mental or physical illness and the preservation of health among disadvantaged persons;
- working to prevent or relieve poverty or homelessness; and
- promoting sustainable development through the preservation, conservation and protection of the environment and the prudent use of resources.

The Charity's current policy is to make grants to registered charities based in the United Kingdom and with proven track records in their particular areas of activity.

In setting objectives and planning for activities, the Trustees have given due consideration to general guidance published by the Charity Commission relating to public benefit, including the guidance 'Public benefit: running a charity (PB2)'.

b. Strategies for achieving objectives

The Charity achieves its objectives by supporting organisations selected by the Trustees and in particular by making grants.

c. Grant-making policies

The Trustees award grants which are most likely to further the Charity's purposes efficiently and effectively. In particular:

- the Trustees allocate the available funds according to the relevance of the organisation's work to the objects and strategic aims of the Charity, the number of individuals likely to benefit from the organisation, the quality and value of the benefit the organisation is able to provide, the resources and financial health of the organisation and the efficiency and security of the administrative systems and processes used by the organisation; and
- the Trustees will consider supporting smaller and less well-known organisations if the Trustees determine they have an ability to achieve real growth and deliver a meaningful and significant impact in furtherance of the Charity's purposes, or organisations which may be large but do not have a regular funding base as the cause is perhaps less popular.

Applications from organisations or groups which are not registered charities may be considered at the Trustees' discretion, where the trustees consider they can be satisfied that the grant is applied for charitable purposes.

The Trustees prefer not to receive unsolicited applications from organisations and these will only be considered in exceptional circumstances and will support in priority the work of organisations whose work is known to them or can be readily inspected and where they can be assured that the grant is being applied for the purposes for which it is given.

The size of grants awarded is entirely at the discretion of the Trustees of the Charity and there is no fixed size. The Trustees are willing to make grants to support both core funding and specific projects.

The Trustees intend to develop long term strategic relationships with the Charity's grant recipients and intend, therefore, to support organisations on a multi-year basis where appropriate, in order to establish a meaningful and ongoing relationship with the recipient.

AEONIAN FOUNDATION

TRUSTEES' REPORT (CONTINUED) FOR THE PERIOD ENDED 31 DECEMBER 2022

The Trustees acknowledge they have a duty to avoid exposing the Charity's resources and reputation to inappropriate risk and agree, therefore, to carry out a risk assessment as to proposed grants. As part of this, the Trustees will carry out proportionate and effective due diligence, including appropriate vetting procedures (the level of which should take into account the value of the proposed grant) including due diligence on the identity and background and governance procedures of the recipient and any partners with which the recipient will work, and on the proposed use of the grant and how this will advance the Charity's objects.

The Trustees will meet approximately four times a year to consider the award of grants. Potential grant recipients will be required to submit a 'proposal' setting out the activities on which the grant would be used, the anticipated impact, as well as the projected expenditure and grant funding requirements and related timescales. All grant recipients will be asked to acknowledge the distribution, to comply with the reporting mechanisms and to sign any grant agreement provided by the Trustees. The Trustees shall receive and consider reports on grant expenditure by existing grant recipients, as required under the grant documentation entered into with the grant recipient. A comprehensive measurement system will be put in place to assess the impact of contributions and make adjustments with a formal annual review process. It is expected that the amount of funding allocated to each organisation will vary depending on their success and credible future plans but as far as possible each will be supported on a long-term basis with only gradual adjustments to funding allocations.

Achievements and performance

a. Main achievements of the Charity

The Charity made grants of £581,250 to supported organisations during the period. A further £351,116 was authorised and paid shortly after the year end. Unconditional grant commitments at the year end were £261,424, making total grants recognised in these accounts of £1,193,790.

Organisations to support were carefully selected following extensive research and dialogue with the organisations. During 2022, the charity's first year, nine organisations were selected to receive support, two operating in South Africa, three in Madagascar and four in the UK. These organisations offer services in health, education, disabilities, homelessness and environmental improvement.

Each organisation was assessed to fully understand their scale and requirements and appropriate quarterly unrestricted funding grants were provided to them to enable them to build their capacity to successfully deliver more projects in subsequent years. Some specific restricted funding was provided to support rural health improvement projects in South Africa and Madagascar.

b. Investment policy and performance

The CIO will have the majority of its funds invested in a HSBC investment portfolio advised on by a professional HSBC investment manager. Whilst these funds will typically rise and fall with the global stock markets, over a long period of time they are expected to make an above inflation rate return, currently assumed to be +2%. The expected rate of return is related to the risk factor decided for the portfolio which will be reviewed from time to time. The majority will initially be invested in a general fund called a Core Multi-asset Solution (CMS) but over time a greater proportion will be assigned to higher risk, higher volatility, lower liquidity investments including private equity (PE) and funds specifically aligned with the CIO's objectives (Thematic).

All funds will be invested into collective investment funds, not individual shares, bonds or other investments.

Funds will be selected to be ethical and sustainable, initially on the basis of avoiding unethical or non-sustainable investments through negative screening. As the portfolio develops an increasing focus will be placed on selecting specific ethical and sustainable investments through positive screening.

Consideration will be given to investing a proportion of the funds into social investment funds at a lower than maximum possible expected return but this will always be balanced against the opportunity cost to the CIO of lower future funds being available for grants.

All investment decisions will be determined by the CIO's investment committee consisting of at least two trustees nominated by the majority of trustees from time to time.

AEONIAN FOUNDATION

TRUSTEES' REPORT (CONTINUED) FOR THE PERIOD ENDED 31 DECEMBER 2022

Advice will always be sought from professional investment advisors, initially from HSBC Private Bank. In the event that the investment committee decide to make any investments which have not been recommended by HSBC, e.g. social investments or non-HSBC approved funds, they will seek explicit majority approval from the full board of trustees.

The investment committee will report to the full board of trustees annually on investment performance and any material changes in investment strategy, risk profile, investment advisors or fund managers.

During the period a loss of £376,765 was made on investments due to the adverse financial circumstances in 2022 including those arising from the Ukraine conflict.

Financial review

During the period the Charity received initial funding of £27,610,316 on which Gift Aid of £6,881,999 was receivable (owing at the year end).

a. Going concern

After making appropriate enquiries, the Trustees have a reasonable expectation that the Charity has adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the financial statements. Further details regarding the adoption of the going concern basis can be found in the accounting policies.

b. Reserves policy

Total funds at the year end were £33,016,011. The Charity does not maintain specific reserves but a substantial proportion of its investment portfolio is held in liquid investments which can be withdrawn at short notice (£26,578,194). In addition HSBC provide a Lombard Loan facility secured on the investments held with them from which funds may be drawn down on demand.

The Trustees wish to use funds to support the chosen charities with an amount to be allotted each year.

c. Principal funding

The funding of the Charity has come from donations, which are invested to produce investment income and capital growth.

Structure, governance and management

a. Constitution

Aeonian Foundation is registered as a charitable incorporated organisation (CIO) and was set up under a constitution dated 6 December 2021.

b. Methods of appointment or election of Trustees

The management of the Charity is the responsibility of the Trustees who are elected and co-opted under the terms of the constitution.

c. Policies adopted for the induction and training of Trustees

All trustees register for the Institute of Chartered Accountants in England and Wales online trustee training course and complete the modules which are relevant to their role and the requirements of the foundation.

d. Related party relationships

None

e. Financial risk management

The Trustees have assessed the major risks to which the Charity is exposed, in particular those related to the operations and finances of the Charity, and are satisfied that systems and procedures are in place to mitigate exposure to the major risks.

AEONIAN FOUNDATION

TRUSTEES' REPORT (CONTINUED) FOR THE PERIOD ENDED 31 DECEMBER 2022

The main risk considered by the Trustees is investment performance and the Trustees have appointed HSBC Private Banking to manage the investment portfolio on their behalf.

Plans for future periods

The charity intends to extend its support to approximately twelve organisations by the end of 2023 and provide significant extra project grants to nine organisations it started supporting in 2022.

The budget for 2023 has been agreed by the trustees at £1.5m with the majority of the prospective projects identified and plans being developed. All supported organisations will continue to receive appropriate levels of unrestricted funding to ensure they have the resources required to execute this expanded level of project work.

Statement of Trustees' responsibilities

The Trustees are responsible for preparing the Trustees' report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Charity law requires the Trustees to prepare financial statements for each financial period. Under charity law, the Trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Charity and of its incoming resources and application of resources, including its income and expenditure, for that period. In preparing these financial statements, the Trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles of the Charities SORP (FRS 102);
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards (FRS 102) have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Charity will continue in business.

Auditors

The auditors, Menzies LLP, have indicated their willingness to continue in office. The Trustees will propose a motion reappointing the auditors at a meeting of the Trustees.

Approved by order of the members of the board of Trustees and signed on their behalf by:

BRIGHTER THINKING

INDEPENDENT AUDITORS' REPORT TO THE TRUSTEES OF AEONIAN FOUNDATION

Opinion

We have audited the financial statements of Aeonian Foundation (the 'Charity') for the period ended 31 December 2022 which comprise the Statement of financial activities, the Balance sheet, the Statement of cash flows and the related notes, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

The financial statements have been prepared in accordance with "Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standards applicable in the UK and Republic of Ireland (FRS 102)" in preference to the "Accounting and Reporting by Charities: Statements of Recommended Practice" issued on 1 April 2005 which is referred to in the extant regulations but has been withdrawn. This has been done in order for the financial statements to provide a true and fair view in accordance with the Generally Accepted Accounting Practice effective for reporting periods beginning on or after 1 January 2019.

In our opinion the financial statements:

- give a true and fair view of the state of the Charity's affairs as at 31 December 2022 and of its incoming resources and application of resources, including its income and expenditure for the period then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and in other respects the requirements of the Charities Act 2011.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the Charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the United Kingdom, including the Financial Reporting Council's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charity's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Trustees with respect to going concern are described in the relevant sections of this report.

AEONIAN FOUNDATION

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AEONIAN FOUNDATION (CONTINUED)

Other information

The other information comprises the information included in the Annual report other than the financial statements and our Auditors' report thereon. The Trustees are responsible for the other information contained within the Annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Charities (Accounts and Reports) Regulations 2008 requires us to report to you if, in our opinion:

- the information given in the financial statements is inconsistent in any material respect with the report of the Trustees;
- or sufficient accounting records have not been kept; or
- the Charity's financial statements are not in agreement with the accounting records; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of trustees

As explained more fully in the Trustees' responsibilities statement, the Trustees are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Trustees are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

AEONIAN FOUNDATION

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AEONIAN FOUNDATION (CONTINUED)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

- The Charity is subject to laws and regulations that directly affect the financial statements including financial reporting legislation. We determined that the following laws and regulations were most significant including the Charities Act 2011 and the Data Protection Act 2018. We assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.
- We understood how the Charity is complying with those legal and regulatory frameworks by, making inquiries to management, those responsible for legal and compliance procedures. We corroborated our inquiries through our review of board minutes.
- The engagement partner assessed whether the engagement team collectively had the appropriate competence and capabilities to identify or recognize non-compliance with laws and regulations. The assessment did not identify any issues in this area.

We assessed the susceptibility of the financial statements to material misstatement, including how fraud might occur. We considered the opportunities and incentives that may exist within the organisation for fraud and identified the greatest potential for fraud in the following areas; posting of fraudulent journal entries, authorisation, processing, and payment of fraudulent grant claims and timing of revenue recognition.

Audit procedures performed by the engagement team included:

- Identifying and assessing the design effectiveness of controls management has in place to prevent and detect fraud;
- Understanding how those charged with governance considered and addressed the potential for override of controls or other inappropriate influence over the financial reporting process;
- Reviewing the system for authorising grant payments,
- Challenging assumptions and judgments made by management in its significant accounting estimates; and
- Identifying and testing journal entries, in particular any journal entries posted with unusual account combinations.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our Auditors' report.

AEONIAN FOUNDATION

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AEONIAN FOUNDATION (CONTINUED)

Use of our report

This report is made solely to the Trustees in accordance with Part 4 of the Charities (Accounts and Reports) Regulations 2008. Our audit work has been undertaken so that we might state to the Trustees those matters we are required to state to them in an Auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trustees for our audit work, for this report, or for the opinions we have

for provided.

AEONIAN FOUNDATION

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 DECEMBER 2022

1. General information

The Aeonian Foundation is a Charitable Incorporated Organisation, and incorporated in England & Wales. The registered address can be found on page 1 and principal activities are set out in the Trustees' Annual Report.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared in accordance with the Charities SORP (FRS 102) - Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and the Charities Act 2011.

Aeonian Foundation meets the definition of a public benefit entity under FRS 102. Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy.

2.2 Income

All income is recognised once the Charity has entitlement to the income, it is probable that the income will be received and the amount of income receivable can be measured reliably.

Income tax recoverable in relation to donations received under Gift Aid or deeds of covenant is recognised at the time of the donation.

2.3 Expenditure

Expenditure is recognised once there is a legal or constructive obligation to transfer economic benefit to a third party, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is classified by activity. The costs of each activity are made up of the total of direct costs and shared costs, including support costs involved in undertaking each activity. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs which contribute to more than one activity and support costs which are not attributable to a single activity are apportioned between those activities on a basis consistent with the use of resources. Central staff costs are allocated on the basis of time spent, and depreciation charges allocated on the portion of the asset's use.

Expenditure on raising funds includes all expenditure incurred by the Charity to raise funds for its charitable purposes and includes costs of investment management.

Expenditure on charitable activities is incurred on directly undertaking the activities which further the Charity's objectives, as well as any associated support costs.

Grants payable are charged in the period when the offer is made except in those cases where the offer is conditional, such grants being recognised as expenditure when the conditions attaching are fulfilled. Grants offered subject to conditions which have not been met at the period end are noted as a commitment, but not accrued as expenditure.

All expenditure is inclusive of irrecoverable VAT.

AEONIAN FOUNDATION

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 DECEMBER 2022

2. Accounting policies (continued)

2.4 Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the reporting date.

Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction.

Exchange gains and losses are recognised in the Statement of financial activities.

2.5 Investments

Fixed asset investments are a form of financial instrument and are initially recognised at their transaction cost and subsequently measured at fair value at the Balance sheet date, unless the value cannot be measured reliably in which case it is measured at cost less impairment. Investment gains and losses, whether realised or unrealised, are combined and presented as 'Gains/(Losses) on investments' in the Statement of financial activities.

Investments held as fixed assets are shown at cost less provision for impairment.

2.6 Cash at bank and in hand

Cash at bank and in hand includes cash and short-term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

2.7 Liabilities and provisions

Liabilities are recognised when there is an obligation at the Balance sheet date as a result of a past event, it is probable that a transfer of economic benefit will be required in settlement, and the amount of the settlement can be estimated reliably.

Liabilities are recognised at the amount that the Charity anticipates it will pay to settle the debt or the amount it has received as advanced payments for the goods or services it must provide.

2.8 Financial instruments

The Charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value with the exception of bank loans which are subsequently measured at amortised cost using the effective interest method.
