

### **Trustee's report 2024 – 2025**

The charities income for the financial year consisted of the National Lottery Fund and our annual fundraising day.

The charity was also fortunate to receive the benefit of donated premises enabling the continuation of our 2 session weekly support group at no extra cost to the organisation.

Expenditure throughout the year was incurred solely in support of the charities aims and operational activities. This included but not limited to, purchase of stationary, office and administrative supplies, resources for parents and children, refreshments provided during the charities weekly support groups.

The trustees confirm that all the charities funds and donations have been applied exclusively towards the charitable purposes of the organisation. No trustee, volunteer or member has received any personal financial benefit from charity income or assets.
