Charity name: **LOWDHAM FLOOD ACTION GROUP**

Charity registration number: **1197083**

Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	The relief and assistance of people living within the vicinity of the parish of Lowdham and surrounding areas who are the victims of flooding through such support as the trustees deem fit. The protection of the environment for the public benefit, by seeking to improve flood defences by working and communicating with the community, other similar organisations and relevant authorities to reduce the risk of flooding in the Lowdham and surrounding area, by helping manage the flow of water into, through and out of the village, and giving support to the appropriate authorities in keeping the drainage infrastructure clear, well maintained and monitored, with a view to minimising the impact on human life and property.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	Lowdham FLAG has had a busy year in 2024/25. We have continued to monitor the efficiency of the culvert and drainage systems to ensure water flows freely underground during an event. We have maintained our relationships with those who consider themselves vulnerable to flooding and who have requested ongoing support; these are mainly elderly people, often living alone. Our water course walkers have continued to check drains and water courses for obstructions and Himalayan Balsam, and to report findings to the working group. The excellent relationship with VIA East Midlands has seen them respond in a timely manner to all observations we have made and we continue to provide the

		critical link between VIA East Midlands and the village. We believe there are two culverts that are poorly sited on Tannery Dyke, therefore we continue to press the Internal Drainage Board to carry out appropriate improvements. Severn Trent Water are also exploring drainage issues and failures around Newton Close and Lime Tree Gardens. They are also working with Greene King brewery at The Magna Charta pub to explore reasons for serious flooding occurring on and around the site with non return valves being fitted to some drains. We are also continuing to maintain very good relationships at various levels within the Environment Agency. We are on a working group and act as a 'critical friend' to the Environment Agency as they continue to progress the 'main scheme' between Lowdham and Lambley. They are building a flood alleviation reservoir, which is due to be operational in 2027, having suffered further delays (original delivery date was spring 2025). We are working with several agencies, including Parish and District Councils to improve regulations around planning for Lowdham to ensure future developments are cognisant of flood issues.
--	--	---

Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	In carrying out their activities, the trustees have had regard to the guidance issued by the Charity Commission on public benefit.

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	Lowdham FLAG has had a successful year in 2024/25. It has built on the successes of the previous year in continuing to engage with both Lowdham residents and the various authorities responsible for flood defences and for drainage services. The Flood Action group presented a plan to various Risk Management Authorities at County Hall for deploying flood blocs and flood walls. This was well received and we now have to refine the plan and represent it for their approval. That approval should lead to FLAG being indemnified for actions taken during a future flood that are consistent with the agreed plan. We have leased a flood prediction tool called SCALGO which we are using to test our plan and also to allow us to make more insightful comments about future housing development plans by Langridge Homes on land that could impact flooding. We have maintained our relationships with those who consider themselves vulnerable to flooding and who have requested ongoing support. These are mainly elderly people, often living alone. FLAG continues to coordinate volunteers to assist with flood defences being deployed, with road closures during floods, with deployment of pumps (donated by a local business/resident), and with the setting up of an HQ set up to coordinate volunteer activity. FLAG runs a large WhatsApp group of nearly 60 volunteers that we can, and have, drawn on in flood events. We have set up and trained a group of volunteers willing to man an HQ, and we have now over 20 residents trained (via NCC training courses) as flood wardens and able to deploy road signage during a flood.

		Volunteers have come forward to assist FLAG members with repairs to the spill weir, and with the removal of blockages in Cocker Beck. The excellent relationship with VIA East Midlands has seen them respond in a timely manner to all observations we have made. We have also successfully bid to the Parish Council for £16,500 to purchase additional resources including re-usable flood blocks and barriers. We also received donations totalling £3,688 from local residents and with this we purchased flood blocks, and additional equipment including water pumps, trolleys and racking. We continue to liaise with the Environment Agency, meeting with them and calling them to account when delays and set backs hit the Flood Alleviation Reservoir scheme. We continue to press the Internal Drainage Board to improve two culverts which are poorly sited on Tannery Dyke. We are working with several agencies, including Parish and District Councils to improve regulations around planning for Lowdham to ensure future developments are cognisant of flood issues.

Financial Review

Review of the charity's financial position at the end of the period	Para 1.21	During 2024/25 we developed our plans to replace sandbags with environmentally friendly flood blocks and barriers, thereby preventing the water leaving the road and diverting it into the drainage system. Income during 2024/25 totalled £22,817 which included a most generous grant of £16,500 from the Lowdham Parish Council, and donations totalling £3,688 from local residents. These grants and donations, plus the £6,620 allocated reserves from 2023/24 were used to purchase flood blocks and barriers amounting to £23,211. Additional purchases included water pumps, trollies for transporting water pumps and barriers, new shelving and storage boxes for holding equipment in our store, and the servicing and maintenance of our existing equipment.
Statement explaining the policy for holding reserves stating why they are held	Para 1.22	The reserves are held to fund future shortfalls in income that may arise, and towards the future development of the charity.
Amount of reserves held	Para 1.22	£1,510
Reasons for holding zero reserves	Para 1.22	N/A
Details of fund materially in deficit	Para 1.24	N/A
Explanation of any uncertainties about the charity continuing as a going concern	Para 1.23	N/A

Additional information (optional)

You may choose to include further statements where relevant about:

The charity's principal sources of funds (including any fundraising)	Para 1.47	During the reporting period, the principal source of funding was from grants.
Investment policy and objectives including any social investment policy adopted	Para 1.46	Our investment policy was adopted in February 2023.
A description of the principal risks facing the charity	Para 1.46	There have not been any significant events that have affected the financial performance and financial position of the charity.
Other		In accordance with the Charity Commission requirements, the required policies have been prepared and adopted

Structure, Governance and Management

Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	The relief and assistance of people living within the vicinity of the parish of Lowdham and surrounding areas who are the victims of flooding through such support as the trustees deem fit. The protection of the environment for the public benefit, by seeking to improve flood defences by working and communicating with the community, other similar organisations and relevant authorities to reduce the risk of flooding in the Lowdham and surrounding area, by helping manage the flow of water into, through and out of the village, and giving support to the appropriate authorities in keeping the drainage infrastructure clear, well maintained and monitored, with a view to minimising the impact on human life and property.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	Lowdham FLAG has had a busy year in 2023/24. We have continued to monitor the efficiency of the culvert and drainage systems to ensure water flows freely underground during an event. Lowdham village suffered at least two major floods in the period – Storm Babet in October 2023, and Storm Henk in January 2024. Approximately 140 homes were flooded during the October floods, and many of them flooded again in January with many families displaced from their homes. We have maintained our relationships with those who consider themselves vulnerable to flooding and who have requested ongoing support; these are mainly elderly people, often living alone. Our water course walkers have continued to check drains and water courses for obstructions and Himalayan Balsam, and to report findings to the working group. The excellent relationship with VIA East Midlands has seen them respond in a timely manner to all observations we have made and we continue to

		provide the critical link between VIA East and the village. We believe there are two culverts that are poorly sited on Tannery Dyke, therefore we continue to press the Internal Drainage Board to carry out appropriate improvements. Severn Trent Water are also exploring drainage issues and failures around Newton Close and Lime Tree Gardens. They are also working with Greene King brewery at The Magna Charta pub to explore reasons for serious flooding occurring on and around the site. We are also continuing to maintain very good relationships at various levels within the Environment Agency. We are on a working group and act as a 'critical friend' to the Environment Agency as they continue to progress the 'main scheme' between Lowdham and Lambley. They are building a flood alleviation reservoir, which is due to be operational in early 2027, having suffered further delays (original delivery date was spring 2025). We are working with several agencies, including Parish and District Councils to improve regulations around planning for Lowdham to ensure future developments are cognisant of flood issues.

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	Lowdham FLAG has had a successful year in 2023/24. It has built on the successes of the previous year in continuing to engage with both Lowdham residents and the various authorities responsible for flood defences and for drainage services. We have maintained our relationships with those who consider themselves vulnerable to flooding and who have requested ongoing support. These are mainly elderly people, often living alone. The floods of October 2023 and January 2024 resulted in many of these residents having to vacate their flooded properties. Several of them will not be returning as a result. The floods saw FLAG's presence online (Facebook) and on the ground become extremely important. FLAG was able to coordinate volunteers to assist with flood defences being deployed, with road closures during floods, with deployment of pumps (donated by a local business/resident), and with the setting up of an HQ set up to coordinate volunteer activity. As a result, FLAG now runs a large WhatsApp group of nearly 60 volunteers that we can, and have, drawn on in flood events. We have set up and trained a group of volunteers willing to man an HQ, and we have now over 20 residents trained (via NCC training courses) as flood wardens and able to deploy road signage during a flood. Volunteers have come forward to assist FLAG members with repairs to the spill weir, and with the removal of blockages in Cocker Beck. The excellent relationship with VIA East Midlands has seen them respond in a timely manner to all observations we have made. We received over £3,000 in funds from the Co-Op Local Community Fund. With this we were able to purchase replacement resources for our Flood Store following the flood events in both October and January. We have also successfully bid to the Parish Council for £5,000 to purchase additional resources and 160 reusable flood blocks.

		We received a donation of £300 from a local newspaper. With this we purchased storage boxes for the reusable flood blocks. We continue to liaise with the Environment Agency, meeting with them and calling them to account when delays and setbacks hit the Flood Alleviation Reservoir scheme. We continue to press the Internal Drainage Board to improve two culverts which are poorly sited on Tannery Dyke. We are working with several agencies, including Parish and District Councils to improve regulations around planning for Lowdham to ensure future developments are cognisant of flood issues.

Financial Review

Review of the charity's financial position at the end of the period	Para 1.21	The charity was first registered on 13 December 2021 and we achieved our initial aim of securing funds and opening a bank account. These initial aims were met following a generous donation from Lowdham Parish Council and our Nottinghamshire County Councillor. Income during 2023/24 totalled £11,176 which comprised a number of most generous grants, including £3,211 from the Cooperative Local
---	-----------	--

		Community Fund, £6,839 from the Lowdham Parish Council, and a number of other smaller amounts. Expenditure during the year focussed mainly on developing, replacing and maintaining resources for use in a flood event, and for servicing our 4 (donated) petrol fuelled pumps We are developing plans so that rather than use sandbags, which have to be replaced once used, we will use environmentally friendly flood blocks to prevent the water leaving the road, and which can then be diverted into the drainage system. We have therefore allocated £6,620 to our restricted reserves for the development and implementation of this project.
Statement explaining the policy for holding reserves stating why they are held	Para 1.22	The reserves are held to fund future shortfalls in income that may arise, and towards the future development of the charity.
Amount of reserves held	Para 1.22	£3,104 excluding £6,620 held in a restricted reserve
Reasons for holding zero reserves	Para 1.22	N/A
Details of fund materially in deficit	Para 1.24	N/A
Explanation of any uncertainties about the charity continuing as a going concern	Para 1.23	N/A

Trustees' Annual Report for the period

From: 1ST April 2022

To: 31st March 2023

Charity name: **LOWDHAM FLOOD ACTION GROUP**

Charity registration number: **1197083**

Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	The relief and assistance of people living within the vicinity of the parish of Lowdham and surrounding areas who are the victims of flooding through such support as the trustees deem fit. The protection of the environment for the public benefit, by seeking to improve flood defences by working and communicating with the community, other similar organisations and relevant authorities to reduce the risk of flooding in the Lowdham and surrounding area, by helping manage the flow of water into, through and out of the village, and giving support to the appropriate authorities in keeping the drainage infrastructure clear, well maintained and monitored, with a view to minimising the impact on human life and property.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	Lowdham FLAG has had a successful year in 2022/23 and has continued to monitor the efficiency of the culvert system to ensure water flows freely underground during an event and we remain confident that they are in good condition. Thankfully during the reporting period, there have been no major flood events to test these culverts, however we have successfully conducted a simulated flood event exercise to test and review all our systems. We have maintained our relationships with those who consider themselves vulnerable to flooding and who have requested ongoing support; these are mainly elderly people, often living alone. Our water course walkers have continuously checked drains and water courses for obstructions.

		The excellent relationship with VIA East Midlands has seen them respond in a timely manner to all observations we have made and we continue to provide the critical link between VIA East and the village. We believe there are two culverts that are poorly sited on Tannery Dyke, therefore we continue to press the Internal Drainage Board to carry out appropriate improvements. We are also continuing to maintain very good relationships at various levels within the Environment Agency. We are on a working group and act as a 'critical friend' to the Environment Agency as they continue to progress the 'main scheme' between Lowdham and Lambley building an attenuation reservoir, which is due to be operational in 2025 having recently slipped three seasons. We are working with several agencies, including Parish and District Councils to improve regulations around planning for Lowdham to ensure future developments are cognisant of flood issues.

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	Lowdham FLAG has had a successful year in 2022/23. It has built on the successes of the previous year which saw, under its leadership, a comprehensive programme of culvert clearance following the February 2020 flood. Through increasingly strong relationships with VIA East Midlands, it has seen them address ongoing maintenance issues. Thankfully, during the reporting period, there have been no major flood events to test these culverts but we remain confident that they are in good condition. We are pressing for them to be checked in the autumn prior to the winter season. We have maintained our relationships with those who consider themselves vulnerable to flooding and who have requested ongoing support. These are mainly elderly people, often living alone. Our water course walkers have continuously checked drains and water courses for obstructions. The excellent relationship with VIA East Midlands has seen them respond in a timely manner to all observations we have made. We have increased the number of sandbags / Aquasacs that we hold and are available to distribute in advance of a flood event, and have also provided some to households requesting them. There was surface water flooding of the A612 Nottingham Road caused by blocked culverts and chambers, ditches that needed digging out, and debris being washed from higher ground. Our intervention ensured a timely response from the riparian owners of assets and VIA East Midlands who cleared all blockages and had a screen built to prevent further blockages. We have provided the critical link between the Environment Agency and the village during the repair of the Cocker Beck left bank flood wall. Monthly meetings have been held, as well as on site meetings. This project has been well run, and our support, especially around communications, has been effective. We are also providing a 'critical friend' to the Environment Agency as they continue to progress the 'main scheme' between Lowdham and Lambley building an attenuation reservoir, which is now due to be operational in 2025. We continue to press the Internal Drainage Board to improve two culverts which are poorly sited on Tannery Dyke.

		We are working with several agencies, including Parish and District Councils to improve regulations around planning for Lowdham to ensure future developments are cognisant of flood issues.

Financial Review

Review of the charity's financial position at the end of the period	Para 1.21	The charity was first registered on 13 December 2021 and we achieved our initial aim of securing funds and open a bank account. These initial aims were met following a generous donation from Lowdham Parish Council and our Nottinghamshire County Councillor. Expenditure during 2022/23 focussed on continuing maintaining communications with the relevant authorities, our beneficiaries and the public, and expanding our resources for monitoring and
---	-----------	---

		assessing rainfall and other weather conditions by the purchase of a weather station. Whilst income during the year amounted to £6, our charity has been successful in being accepted by the Cooperative Local Community Fund for 2023. Expenditure was £257 resulting in total reserves of £1,299, of which £286 is a restricted reserve.
Statement explaining the policy for holding reserves stating why they are held	Para 1.22	The reserves are held to fund future shortfalls in income that may arise, and towards the future development of the charity.
Amount of reserves held	Para 1.22	£1,013 excluding £286 held in a restricted reserve
Reasons for holding zero reserves	Para 1.22	N/A
Details of fund materially in deficit	Para 1.24	N/A
Explanation of any uncertainties about the charity continuing as a going concern	Para 1.23	N/A

Additional information (optional)

You may choose to include further statements where relevant about:

The charity's principal sources of funds (including any fundraising)	Para 1.47	During the reporting period, no funds were generated and no fund raising was undertaken.
Investment policy and objectives including any social investment policy adopted	Para 1.46	Our investment policy was adopted in February 2023.
A description of the principal risks facing the charity	Para 1.46	There have not been any significant events that have affected the financial performance and financial position of the charity.
Other		In accordance with the Charity Commission requirements, the required policies have been prepared and adopted

Structure, Governance and Management

Description of charity's trusts:		
Type of governing document (Trust deed, royal charter)	Para 1.25	Constitution registered 13 December 2021
How is the charity constituted? (e.g., unincorporated association, CIO)	Para 1.25	Charitable Incorporated Organisation – Foundation

Trustee selection methods including details of any constitutional provisions e.g. election to post or name of any person or body entitled to appoint one or more trustees	Para 1.25	Trustees are appointed or reappointed at the Annual General Meeting held in July
