- its activities and objectives in the year

In this first year of operation Bryan's Quest has had two objectives to support it's Public benefit aims:

Objective A: to secure sources of funding

Objective B: to recruit volunteers

- its achievements and performance, including reporting on its public benefit

Principle achievements for the year are:

Opening a bank account with Lloyds Bank

Recruiting two temporary student volunteers from Falmouth University
(each for 8 weeks)

Initial research and development of two projects; 'Wildlife Within Reach (encouraging creative people to make and donate animal models) and Tactile Wildlife Sketches (labelling and distribution)

Developing and maintaining website

On-going filming and narration for YouTube channel

Due to the lack of availability of the trustees, who currently provide the main volunteer force, our ability to advance our public benefits has been severely limited.

The Head Trustee has endeavoured to encourage visually impaired people to engage with nature by several media appearances, such as on BBC Radio Devon and a high profile appearance on national television on BBC's flagship horticultural programme Gardener's World.
