Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	December 2022- Fightback Charity Fundraising event. Prosperity CIO organised and supported a boxing event by involving local members of the community struggling with mental health. ProsperityCIO supported through a 10 week training camp. The participants were given life coaching and mental health counselling. They were given boxing training from Respect Fitness and the opportunity to participate within a charity boxing event. This raised funds for ProsperityCIO to support other members of the community with mental health workshops and counselling. The participants in this event experienced an improved physical, emotional and mental health wellbeing as a result of this. We created community cohesion and a support network for these participants to access additional mental health support. We worked with 26 participants within this programme. We have ran Men's mental health workshops through funding from The National Lottery. Prosperity CIO then launched our #MENTalk project around male mental health and suicide prevention. This project began to engage men to access counselling mental health support from Prosperity CIO. We created workshops in June 2022 for men struggling with mental health. We worked with around 45 men within in the community from disadvantaged backgrounds and hard to reach communities and covered topics around suicide prevention, stigma associated with mental heath, understanding anxiety and depression and steps and coping strategies for better and improved mental

		health. We signposted to existing organisations and mental health charities for additional support. Workshops around: - Alcohol awareness - Sucide Prevention - Anxiety Awareness - Depression Awareness - Drug Awareness We delivered sessions that presented key knowledge, awareness and next steps for support from specialists. Clients received one-to-one counselling sessions through Prosperity CIO supporting needs around anxiety, depression, trauma, substance misuse. March 2023 -Fightback event- where we supported members of the community with a training programme and opportunity to participate within the second boxing event. ProsperityCIO supported through a 10 week training camp. The participants were given life coaching and mental health counselling. They were given boxing training from Respect Fitness and the opportunity to participate within a charity boxing event. This raised funds for ProsperityCIO to support other members of the community with mental health workshops and counselling. The participants in this event experienced an improved physical, emotional and mental health wellbeing as a result of this. We created community cohesion and a support network for these participants to access additional mental health support. Prosperity CIO then launched our #MENTalk project around male mental health and suicide prevention. This project began in April 2022 through our social media to engage men to access counselling mental health support from Prosperity CIO. The engagement online was successful and therefore we created workshops in June 2022 for men struggling with mental health. We worked with around 45 men within in the community from disadvantaged backgrounds and hard to reach communities and covered topics around suicide prevention, stigma associated with mental heath, understanding anxiety and depression and steps and coping strategies for better and improved mental health. We signposted to existing organisations and mental health charities for additional support. Over this period, our social media has been set up around Facebook, Instagram, Twitter and Linked in. We are active in our posting of events and tips and strategies for mental health. These engage and support all members of the community.
