families.

2. For the public benefit of the reduction or prevention of poverty through (i) provision of uniform and supplies so young people can access education (ii) provision of facilities and instructors to support young people in their education.

### **1i) Providing Extra Curricular Activities**

We have continued to provide weekly sessions for 10 months of the year, once a week, engaging up to 20 young people each session. Within these sessions the young people have been learning practical skills and our team have been teaching them basic English language and also basic Spanish. The activities that they have participated in include sewing, various crafts, drawing and a variety of art activities.

### **ii) Supporting Local Schools to get young people back into education**

This year we have started to build relations with one of the local schools and our coordinator has held meetings with them in regard to supporting local young people while in school. With parents help he has also been able to help some young people with attendance in school and enabling them to keep their place in school due to regular attendance. The basic Spanish lessons we have started for Haitian migrants have also started to prepare these young people for school if they are able to get places as they will be able to communicate with teachers which is important.

### **2i) Provision of Uniform and Supplies for Young People**

We have continued to provide support to the families that we identified in the last financial year through our sponsorship scheme. We have also been able to support 30 young people through the Christmas donations we were given as well. Alongside this providing educational support for young people in our weekly sessions especially to Haitian migrants has become an important part of our work, helping them to integrate into daily life in Santiago and being able to communicate to a wider audience.

### **ii) Provision of Facilities and Instructors**

We have continued to provide a safe space for the young people to come to once a week with qualified teachers to help the young people develop their skills and understanding. We have been able to utilise the dual purpose of the local facilities we have available by using it as a classroom environment and as a fun more relaxed space as well. We are currently exploring how to support our older young people better as they go through the school system so they can achieve the best outcomes.

In everything Espero Global has done this year we have used the guidance given to us by the Charity Commission to ensure that the public we are working with have received the most benefit from the work we have carried out.

**Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)**

**Additional details of objectives and activities (Optional information)**

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

## Section D

## Achievements and performance

### Summary of the main achievements of the charity during the year

Over the last year the most significant achievements that Espero Global has made are:

- 1) This year we have worked with 56 young people with an average of 24 young people attending each session. We have also had 592 total attendances to our sessions throughout the year.
- 2) The programme has developed so that we have been able to run educational and skill-based sessions alongside young people having a more relaxed space for fun and games as well. This has proved to have a positive impact with increasing numbers at each session and relationships have had the opportunity to develop with some young people on a deeper level
- 3) One of our older young people has started volunteering with us on the project. This has proved valuable as he knows many of the young people and their families as he is from the neighbourhood we work in. This is a model we want to encourage moving forward as we believe to "grow your own" staff from existing members will have a greater impact on a longer-term basis.
- 4) We had a particularly successful Christmas support drive where a church in Santo Domingo provided donations of school supplies, shoes and clothes etc... for 30 young people in the neighbourhood preparing for the new school year.
- 5) We have seen an increase in the number of Haitian migrants that we work with in the neighbourhood linked to the ongoing civil war in the country and many Haitians fleeing the violence. This has meant we have had to start teaching basic Spanish in the educational sessions as many of the young people only speak Creole.
- 6) This year we took a group 17 young people to a swimming pool during the summer holidays. For many of them this was a new experience and lots of fun was had by everyone who attended.

Within these sessions the young people have been learning practical skills and our team have been teaching them basic English language. The activities that they have participated in include basic cooking, sewing and drawing and making various crafts. We have also started to provide sessions for parents to see how we can support the families and show them what the young people have been learning within the sessions.

**ii) Supporting Local Schools to get young people back in to education**

Through the parent's session we have been able to meet some of the families in their homes and have discussions around what their needs are. Many of the parents need financial help as they struggle to afford school provisions. They also have their own struggles which impacts their focus to support their young people. We are in the process of trying to contact the schools to find out how we can support the young people in schools. We have also started to put the foundations together of a sponsorship scheme to support the families

**2i) Provision of Uniform and Supplies for Young People**

As stated above we are in the early stages of setting up a sponsorship scheme to support these young people. We have young people and families identified that need the support, it is now a case of finalising the sponsorship scheme structure and advertising for sponsors to support them. Once we have sponsors we will be able to start providing support in regard to supplies and school uniform

**ii) Provision of Facilities and Instructors**

We have provided instructors at our extra curricular sessions on a Saturday. We have had trained instructors to engage them in creative activities such as sewing and cooking. We have also had teachers qualified at a basic level teaching the young people English as part of these sessions.

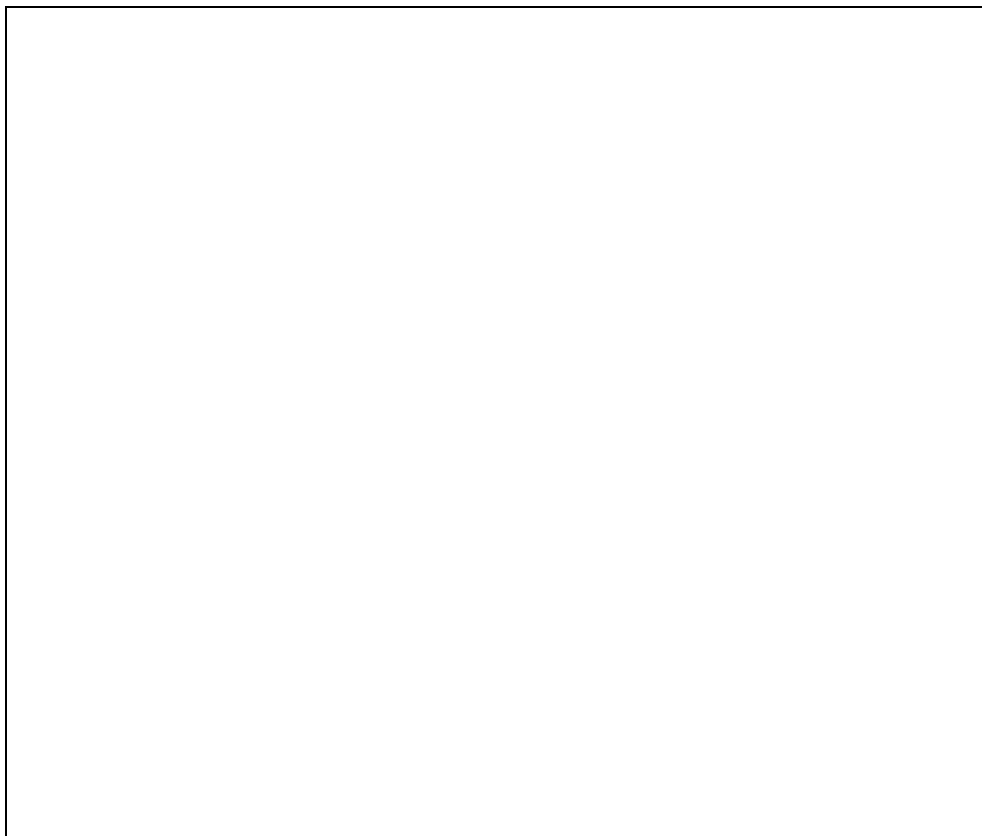

In everything Espero Global has done this year we have used the guidance given to us by the Charity Commission to ensure that the public we are working with have received the most benefit from the work we have carried out.

## Section D

## Achievements and performance

**Summary of the main achievements of the charity during the year**

Over the last year the most significant achievements that Espero Global has made are:

- 1) This year we have worked with 57 unique young people. We have also had around 550 total attendance for the year.
- 2) The young people have developed their skills significantly in areas such as sewing and artistic expression through drawing. They have also been able to use these skills at home by fixing clothes so that they can be worn again.
- 3) We have successfully recruited a coordinator to oversee the work in Santiago and to liaise with the board back here
- 4) We have successfully negotiated a partnership with another local charity in Santiago called Vida Joven. They provide an extra session for young people during the week. This was developed due to the young people from our Saturday sessions being on the streets of the barrio every night where the environment is clearly unsafe and in some circumstances considered dangerous.
- 5) We have successfully recruited a new trustee to support us with marketing and fundraising.
- 6) We launched a small sponsorship scheme for young people in the Los Santos barrio. We are currently sponsoring 2 young people with support for food and school supplies.

2. For the public benefit of the reduction or prevention of poverty through (i) provision of uniform and supplies so young people can access education (ii) provision of facilities and instructors to support young people in their education.

### **1i) Providing Extra Curricular Activities**

We have provided weekly sessions for 10 months of the year, once a week, engaging up to 15 young people each session. Within these sessions the young people have been learning practical skills and our team have been teaching them basic English language. The activities that they have participated in include basic cooking, sewing and drawing and making various crafts. We have also started to provide sessions for parents to see how we can support the families and show them what the young people have been learning within the sessions.

### **ii) Supporting Local Schools to get young people back in to education**

Through the parent's session we have been able to meet some of the families in their homes and have discussions around what their needs are. Many of the parents need financial help as they struggle to afford school provisions. They also have their own struggles which impacts their focus to support their young people. We are in the process of trying to contact the schools to find out how we can support the young people in schools. We have also started to put the foundations together of a sponsorship scheme to support the families

### **2i) Provision of Uniform and Supplies for Young People**

As stated above we are in the early stages of setting up a sponsorship scheme to support these young people. We have young people and families identified that need the support, it is now a case of finalising the sponsorship scheme structure and advertising for sponsors to support them. Once we have sponsors we will be able to start providing support in regard to supplies and school uniform

### **ii) Provision of Facilities and Instructors**

We have provided instructors at our extra curricular sessions on a Saturday. We have had trained instructors to engage them in creative activities such as sewing and cooking. We have also had teachers qualified at a basic level teaching the young people English as part of these sessions.

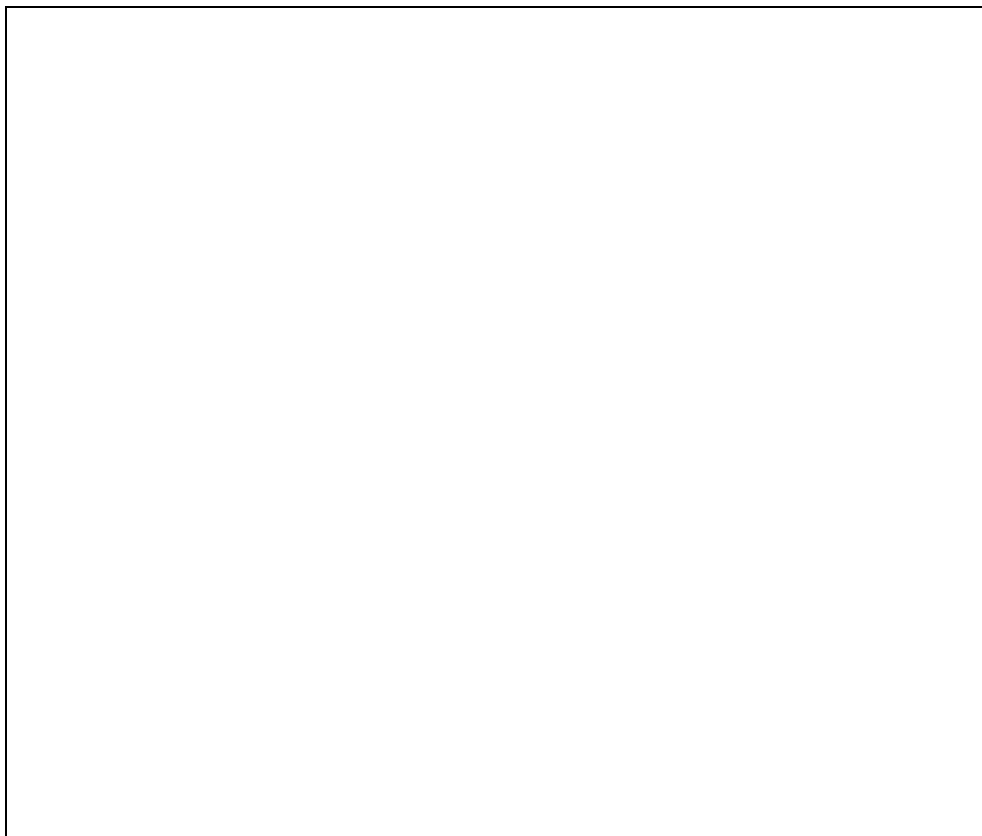

In everything Espero Global has done this year we have used the guidance given to us by the Charity Commission to ensure that the public we are working with have received the most benefit from the work we have carried out.

**Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)**

**Additional details of objectives and activities (Optional information)**

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

## Section D

## Achievements and performance

**Summary of the main achievements of the charity during the year**

Over the last year the most significant achievements that Espero Global has made are:

- 1) We have worked with 41 unique young people over the last 10 months
- 2) We have recruited a committed team of 5 volunteers in Santiago to deliver the project
- 3) We have got 4 private donors that have given unrestricted funding to the charity
- 4) We have established our logo and brand, this is going to help with our social media presence and the website we have established
- 5) Established some good networks in the UK that have offered advice as we manage an international project from here.

## Section E

## Financial review

**Brief statement of the charity's policy on reserves**

The charity currently has a very small positive bank balance. This will be used in the next financial year to develop the foundation of our work.

**Details of any funds materially in deficit**

**Further financial review details (Optional information)**

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.
