Summary of the main achievements of the charity during the year

DECLARATION:

To advance the education of children and autistic children up to the age of seven. To enhance speech, language attainment and global development through engagement through the arts in all it's forms

To relieve the needs of autistic children and their families by providing activities for parents and carers and the opportunity to engage in the arts in all it's forms which they may not otherwise have access to.

To advance the education of children and autistic children up to the age of seven. To enhance speech, language attainment and global development through engagement through the arts in all it's forms

We have been focussing on building relationships. We have worked with:

Bromley Mencap
Bromley Children's Services
Bromley Young Carers
Bromley Autism Beyond
Various individuals

Activites include offering provision to families with autistic children in our venue, where families can meet, swap information and get relevant support, as well as experience tailored provision for the children: this is a service that is lacking in the area, both in terms of contact, and space to run activities, meeting our public benefit to provide for families and offer attainment raising arts activities.

We have also been consulting with children's services on how the charity might bridge the gap between what is currently offered by the council and what is needed for early years in the community. From this consultation, a clearer roadmap has been made for fundraising: in this way we can offer a service to provide attainment boosting arts that otherwise would be absent to their clients.

Lastly, we have opened up the building to small SMEs and charities who have similar aims to strengthen relationships and aid the community.

Section E

Financial review

Brief statement of the charity's policy on reserves

The charity aims to keep £1000 in reserves. This reserve acts as a fund that can potentially cover any minor building works that may arise, or any other related maintenance issues associated with having a venue.

Details of any funds materially in deficit

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

We are still largely volunteer lead, and this is down to trustee circumstances (ill health) and a need to recruit more trustees.

Section F

Other optional information

It has been much more challenging to bring people in to help the charity grow than we had anticipated, but there is a solid foundation now of contacts and understanding of the community in which we sit. This should allow us to more effectively grant make for projects.

Section G

Declaration

We have, so far, been entirely volunteer lead. This has largely been about needing more trustees, and there is also a hurdle that must be jumped before initial funding lets us hire in staff to further advance funding options. We are about to receive further rates relief from Bromley Council – this means incoming donations can be used to propel our first funding round through consultation and potentially, hire.

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Section D

Achievements and performance

Summary of the main achievements of the charity during the year

This year we have focussed on building relationships with the community, through consultations with individuals, and through consultation with partners.

It became clear on submitting our first grant application that we were being too “top down”. While there is clearly a great need in the community we serve for our services, and there is a great need in Early Years for our services nationally, there is still the need to consult with the community and directly make contact with entities in order to be sure that we are appropriately delivering projects we intend to grant make for, and that we are effectively serving a need in the community through that consultation.

However, it is also apparent that there are a lot of entities, like other charities and the council, who want us to provide services, but who can't pay for them: this means we would be in an impossible position, as the grant making we have found indicates we can't raise funds for third party projects in this way. However, it does also signpost the need for projects, and has created optimism that we can find appropriate funding bodies to approach independently.

At present, we feel we must focus on recruitment and continue to run free events lead by voluntary service until we have more trustees to offer oversight and ensure compliance.

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

The charity has in these first years, focussed on understanding more fully how it can serve the community through volunteer-lead activities. Principal funding has come from donations, that have been suggested to those who use our venue to run events that are in concord with our ethos, such as baby massage and yoga, offering well being for mothers and babies. Any expenditure has been on building upkeep, such as insurance payments and reduced rates payments.
