Activities

Objects: FOR THE BENEFIT OF THE PUBLIC IN THE TELFORD AND WREKIN AREA THE ADVANCEMENT OF ENVIRONMENTAL PROTECTION, IN PARTICULAR, BUT NOT EXCLUSIVELY BY THE PROMOTION OF WASTE REDUCTION, RE-USE, REPAIR, RECYCLING, USE OF RECYCLED PRODUCTS AND THE USE OF SURPLUS. TO ADVANCE THE EDUCATION OF THE PUBLIC ABOUT SUSTAINABLE WASTE MANAGEMENT AND REDUCING THEIR CONSUMPTION OF WASTE BY WORKING WITH OTHER GROUPS TO PROVIDE EDUCATION, ADVICE AND SUPPORT ABOUT CLIMATE AND ECOLOGICAL ISSUES.

Activities: We organise local sustainability events at community centres or other locations within Telford and Wrekin. We organise 'swaps' where the public can bring items to swap or can take items for a pay as you can donation, have an eco library, offer recycling facilities via Telford Terracycle. We invite other eco organisations and individuals to attend our events to share information/activities.

Annual Report for Climate Action Hub Telford for the period April 2024- April 2025

Climate Action Hub Telford

Registered Charity Number: 1197678

Address: 18 Little Meadow Close, Admaston, Telford Shropshire TF5 0DN

Charity Objectives

The object of the CIO is the advancement of environmental protection or improvement. Specifically:

- For the benefit of the public in the Telford and Wrekin area the advancement of environmental protection, in particular, but not exclusively by the promotion of waste reduction, re-use, repair, recycling, use of recycled products and the use of surplus.
- To advance the education of the public about sustainable waste management and reducing their consumption of waste by working with other groups to provide education, advice and support about climate and ecological issues.

Governance

The charity is a Charitable Incorporated Organisation (CIO) governed by a constitution based on the 'Foundation' model and dated **19th December 2022**. We do not have any members. The only people able to make decisions about the charity are the trustees.

During the reporting period April 2024-April 2025 the trustees decided after July 2024 to no longer hold monthly public meetings via Zoom, the link to which was sent out to everyone on our mailing list in our newsletter (approx 200+ people). Minutes were taken of these meetings. Very few people outside of the trustees joined these meetings. It was felt to be more time effective to retain our monthly trustee meetings only where all topics could be discussed.

During this period trustee meetings were held once a month /every 6 weeks where the charity business is discussed including finances, recruitment of trustees and volunteers, communications and admin (including GDPR and IT issues), training and policy needs, services CAHT provides or intends to provide. Minutes are taken of these meetings.

Trustees

The charity's constitution allows it to have at least three charity trustees. There is no maximum number of charity trustees that may be appointed. The Appointed Trustees named in the Constitution can appoint a further 3 nominated trustees. 3 of the original appointed Trustees could serve a 2 year term with one appointed trustee serving a 4 year term. Nominated Trustees serve two year terms. Any charity trustee who has served for two consecutive terms may not be reappointed for a third consecutive term but may be reappointed after an interval of at least one year.

Charity's Trustees during the period of this report remained unchanged

At the end of the reporting period (April 2025) the Trustees were as follows:

Appointed Trustees:

Juliet Soria (Chair) in 3rd year of 4 year term. *First Term due to end after 4 years 3/12/25 at which point can be reappointed for another 4 year term.*

Fiona Morgan (Secretary) *Reappointed Trustee on 3/12/23 for another 2 year term at which point will need to stand down for a minimum of one year.*

Jane Bundy (Treasurer) *Reappointed Trustee on 3/12/23 for another 2 year term at which point will need to stand down for a minimum of one year.*

Nominated Trustees

Elizabeth Pinfield Wells. *First term ended after 2 years on 4/1/25. Was reappointed for another 2 year term which is due to end on 4/1/27.*

Ongoing attempts were made during 2025 to recruit more trustees due to 2 trustee's terms coming to an end in the next reporting period (December 2025) and needing to be replaced to avoid the charity no longer being constitutionally viable. This included existing trustees approaching potential candidates already known to them and via an online advert placed via NCVO on Trustees Unlimited website in August- September 2023 and a form on our website. This has not yet been successful and would continue into the next reporting period.

Volunteers

Over time we recruited volunteers to support us at our Sustainable Sunday events in 2024 and Sustainable Saturday events in 2025. Most of them are known to the Trustees already or via known connections. By April 2025 we had 13 volunteers who had supported us at least one of our events during the reporting period (doing washing up, assisting with serving, clearing dishes, assisting with setting up or putting away at the beginning and end of the event, assisting with managing the swap and eco library). Some other people completed a volunteer form but never attended an event (their details are deleted after a year). Volunteers complete a basic details form with emergency contact details. With their consent we add them to our volunteer WhatsApp group where volunteers are provided with details about the upcoming events and asked who can help at the event. This was set up to facilitate communication as people were not responding to emails.

Financial review

The Charity's main income comes from:

- donations from our own events e.g. Sustainable Sundays (2024) and Sustainable Saturdays (2025);
- donations from events we attend as stall holders organised by other organisations (e.g. Repair, Reuse, Recycle events held in partnership with Telford Repair Cafe up until October 2024)
- Donations and fundraisers from groups we have provided talks/activities to (e.g. Landau);
- Donations from Connected Mobile to thank us for collecting old mobiles which are given to them to reuse/repair.
- The Telford and Wrekin Council Climate Change grant that was successfully applied for in December 2022 to be spent over 12 months for the purposes of setting up a physical hub. Due to experienced challenges with achieving this during 2023 it was agreed with Telford

and Wrekin Council Sustainability Team (who manage the grant scheme) during autumn 2023 that we could amend the use of the grant to providing monthly Sustainable Sunday events in a community centre in Wellington for as long as the monies would last. This enabled us to fund our monthly Sustainable Sunday events throughout 2024 and our bi-monthly Sustainable Saturday events throughout 2025.

- Payments are also received from items donated at our events which are subsequently sent off to Terracycle recycling, Recycling for Good Causes, Empties Please, and Ziffit (the trading arm of World of Books a UK based B Corp company who reuse books, CDs and DVDs).

See financial report for April 2024-April 2025 for full details.

Achievements

- During the reporting period in 2024, CAHT continued to provide a minimum of one event a month (Sustainable Sundays at Belmont Hall) to the residents of Telford and Wrekin which are consistent with our charitable objectives, and often attended the monthly Telford Repair Cafes to provide a swap and reuse opportunity at these events (up to October 2024) and Transition Telford's Grow Local event (May 2024).
- During the reporting period in 2025 in order to make our workload more manageable, the trustees decided to reduce the offer to a Sustainable Saturday once every other month at Belmont Hall. We no longer attended the Telford Repair Cafe to provide a swap.
- Our events at Belmont Hall are thematic e.g. gardening, fashion, food, energy, Sustainable Christmas etc. We invited local groups to participate and provide activities/ advice/ information according to the events' themes. All events include a swap and giveaway, eco library (where people can borrow books on climate and environmental issues), plant based food and drink options (pay as you can), recycling facilities including Terracycle, Recycling for Good Causes who take stamps, jewellery, foreign currency etc, and Connected Mobile for whom we collect phones for them to reuse and recycle, leaflets of local groups engaged in environmental /sustainability initiatives. At all our events we discuss the purpose of reusing things with the public to reduce carbon emissions, save waste from going to landfill/incineration and help us to share resources.
- The events are held in one location: Belmont Hall which is central to Wellington, 5 minutes walk from the bus station and train station, next to a well used public car park with passing footfall heading to and from the town. The location has enabled us to attract new people to our events and break out beyond our regular attendees. At the events we tally the weight of items donated, and count the number of items taken to provide an indication of the amount of waste saved from landfill/rehomed. The plant based refreshments including hot and cold lunch options has encouraged people to attend and stay for longer. The cafe area became a place which facilitated social connections particularly for people attending by themselves. It also provided a learning experience about plant based food and alternatives which some people had not tried before. We have created recipe sheets for some of our favourite dishes which are available as flyers and on the website.
- We organised the Wellington Green Festival in August 2024 which was funded by Wellington Town Council and sponsored a film at Wellington Orbit on the same day.
- We continued to provide talks where requested from other local groups e.g. Landau which is an alternative provision for young people

Details of all our activities are presented on our website under the events and gallery pages.

<https://climateactionhub.org.uk/>

During the reporting period we sent out a newsletter once a month in 2024 reducing to approx. 6-8 weeks in 2025 via our mailing list of over 200+ people to notify them about our events and other eco and climate related events and opportunities happening locally that the readership may be interested in. We also advertise our events and photos of the event afterwards to social media (Facebook/Instagram).

Annual Report for Climate Action Hub Telford for the period April 2023- April 2024

Climate Action Hub Telford

Registered Charity Number: 1197678

Address: 18 Little Meadow Close, Admaston, Telford Shropshire TF5 0DN

Charity Objectives

The object of the CIO is the advancement of environmental protection or improvement. Specifically:

- For the benefit of the public in the Telford and Wrekin area the advancement of environmental protection, in particular, but not exclusively by the promotion of waste reduction, re-use, repair, recycling, use of recycled products and the use of surplus.
- To advance the education of the public about sustainable waste management and reducing their consumption of waste by working with other groups to provide education, advice and support about climate and ecological issues.

Governance

The charity is a Charitable Incorporated Organisation (CIO) governed by a constitution based on the 'Foundation' model and dated **19th December 2022**.

Throughout the year April 2023-March 2024 the charity held online public meetings once a month which external supporters were welcome to attend where we discussed preparations for our events including those organised by other organisations, follow up from past events and any other business. The zoom link to the meeting was sent to everyone on our mailing list in our newsletter (approx 200 people). Minutes are taken of these meetings.

The charity holds a Trustee meeting once a month where the charity business is discussed including finances, recruitment of trustees and volunteers, comms and admin (including GDPR and IT issues), training and policy needs, services the Hub provides or intends to provide. Minutes are taken of these meetings.

Trustees

The charity's constitution allows it to have at least three charity trustees. There is no maximum number of charity trustees that may be appointed to the CIO. However the Appointed Trustees named in the Constitution can appoint a further 3 nominated trustees. 3 of the original appointed Trustees could serve a 2 year term with one appointed trustee serving a 4 year term. Nominated Trustees serve two year terms. Any charity trustee who has served for two consecutive terms may not be reappointed for a third consecutive term but may be reappointed after an interval of at least one year.

Changes to the Charity's Trustees during the period of this report

Attempts have been made to recruit more trustees during this period either by existing trustees approaching potential candidates already known to them and via an online advert placed via NCVO on Trustees Unlimited website in August- September 2023. This has not yet been successful.

Appointed Trustee Steve Smith agreed to stand down and not be reappointed on 8/1/24 after serving one 2 year term which had come to an end.

At the end of the reporting period the Trustees were as follows:

Appointed Trustees:

Juliet Soria (Chair) in 3rd year of 4 year term. *First Term due to end after 4 years 3/12/25*

Fiona Morgan (Secretary) *Reappointed Trustee on 8/1/24 for another 2 year term*

Jane Bundy (Treasurer) *Reappointed Trustee on 8/1/24 for another 2 year term*

Nominated Trustees

Elizabeth Pinfield Wells (in 2nd year of 1st 2 year term). *First term due to end after 2 years 20/12/24*

Volunteers

Over time we have recruited volunteers to support us at our Sustainable Sunday events, most of them are known to the Trustees already or via known connections. By March 2024 we had 3 volunteers who had supported us at our events (doing washing up, assisting with serving, clearing dishes, holding a climate cafe). Volunteers complete a basic details form with emergency contact and are provided with emails about the events they are supporting at including risk assessment, timetable and activities being held.

Financial review

The Charity's main income comes from:

- donations from our own events (e.g. Sustainable Sundays);
- donations from events we attend as stall holders organised by other organisations (e.g. Repair, Reuse, Recycle events held in partnership with Telford Repair Cafe)
- one off donations from other organisations (e.g. Friends of Bowring Park) and from donations and fundraisers from other groups we have provided talks/activities to (e.g. Landau);
- from the Telford and Wrekin Council Climate Change grant that was successfully applied for in December 2022 to be spent over 12 months for the purposes of setting up a physical hub. We experienced challenges during 2023 with trying to set up a physical hub in Wellington due to personnel capacity, locating suitable premises and costs associated with renting premises etc. It was agreed with Telford and Wrekin Council Sustainability Team (who manage the grant scheme) during autumn 2023 that we could amend the use of the grant from setting up a physical hub in Wellington to providing monthly Sustainable Sunday events in a community centre in Wellington for as long as the monies would last which would be beyond the original 12 months.
- Payments are also received from items donated at our events which are subsequently sent off to Terracycle recycling, Recycling for Good Causes, Empties please, selling books, CDs and DVDs donated to us to Ziffit (the trading arm of World of Books a UK based B Corp company who reuse these items).

At the start of the year the bank balance was £11031.22

Total income during the year was £ £2109.97

Total expenditure for the year £3372.47

At the end of the year the Charity had a bank balance of £9189.90

Carried forward for projects ongoing £6568.05 remaining of the Telford and Wrekin Council grant.

Achievements

In 2023 CAHT continued to provide a minimum of one event a month to the residents of Telford and Wrekin which are consistent with our charitable objectives. At all our events we discuss the purpose of reusing things with the public to reduce carbon emissions, save waste from going to landfill/incineration and help us to share resources.

These events include our:

- Swap and Giveaways which we do in conjunction with Telford Repair Cafe and Terracycle Telford at various community centres around the borough and also our own events including swap events at Wellington Market, at Enginuity part of Ironbridge Museums, at Wellington Summer Fayre, and Madeley Christmas Fayre. Some of our swaps focus on specific items (clothes, Christmas items), others are generic for any items, some are garden related scrap stores and tree seedling/plant giveaways in partnership with Transition Telford.
- Talks to young people at Landau (educational provision in Wellington), and adults attending a community group in Ketley
- Supported a gardening day initiative at a local PODS groups who support families with children with additional needs
- Sponsored film showings at Wellington Orbit as part of COP28 (Dec 2023) and Wellington Green Festival (we organised Wellington's First Green Festival in August 2023 which was sadly cancelled due to the weather but the film showing went ahead).

From January 2024 we also started an additional monthly Sustainable Sunday event held at Belmont Hall Community Centre in Wellington. We invited local groups to participate and provide activities/advice/information according to the events' themes listed below. All events include a swap and giveaway, eco library (where people can borrow books on climate and environmental issues), plant based food and drink options (pay as you can), recycling facilities including Terracycle, Recycling for Good Causes who take stamps, jewellery, foreign currency etc, leaflets of local groups engaged in environmental /sustainability initiatives.

- January: Get the year off to a green start (film showing and local groups covering all themes invited to have an information stand and recruit to their organisations) plus climate cafe
- February: energy efficiency at home event
- March: eco arts and craft activities for all ages

These event were held in one location: Belmont Hall which is central to Wellington, 5 minutes walk from the bus station and train station, next to a well used public car park with passing footfall heading to and from the town. This enabled us to attract new people to our events and break out beyond our regular attendees. At the events we tallied the weight of items donated, and counted the number of items taken to provide an indication of the amount of waste saved from

landfill/rehomed. The plant based refreshments including hot and cold lunch options encouraged people to attend and stay for longer, the cafe area became a place which facilitated social connections particularly for older people attending by themselves. It also provided a learning experience about plant based food and alternatives which some people had not tried before.

Details of all our activities are presented on our website under the events and gallery pages.

<https://climateactionhub.org.uk/>

We send out a newsletter at least once a month to notify people about our events and other eco and climate related events and opportunities happening locally that the readership may be interested in. We also advertise our events and follow up to social media (Facebook/Instagram).

Accounts

Annual Report for Climate Action Hub Telford for the period 26thJan 22 to April 2nd 23

Required contents of the report

(<https://www.gov.uk/guidance/prepare-a-charity-trustees-annual-report>)

- For small Charities under £500,000
- your charity's name, registration number, address and trustee names
- its structure and details of how it is managed, including how it recruits trustees
- its activities and objectives in the year
- its achievements and performance, including reporting on its public benefit
- a financial review including any debts and details of your reserves policy (if applicable)
- details of any funds held as a custodian trustee
- You can put more detail into your trustees' annual report if you want to. You only have to send a copy to the commission with [your annual return](#) if your income is more than £25,000. But you need to send the commission a copy if it asks for it.

Climate Action Hub Telford

Registered Charity Number: 1197678

Address: 18 Little Meadow Close, Admaston, Telford Shropshire TF5 0DN

Charity Objectives

The object of the CIO is the advancement of environmental protection or improvement. Specifically:

- For the benefit of the public in the Telford and Wrekin area the advancement of environmental protection, in particular, but not exclusively by the promotion of waste reduction, re-use, repair, recycling, use of recycled products and the use of surplus.
- To advance the education of the public about sustainable waste management and reducing their consumption of waste by working with other groups to provide education, advice and support about climate and ecological issues.

Governance

The charity is a Charitable Incorporated Organisation (CIO) governed by a constitution based on the 'Foundation' model and dated **19th December 2022**.

The Charity has a public meeting once a month (Mondays 7.30pm) which external supporters are welcome to attend where we discuss preparations for our events and any follow up from past events. The meeting is held via zoom and the link to the meeting is sent to everyone on our mailing list.

The charity holds a trustees only meeting once a month (generally Mondays 7pm) where the charity business is discussed including searching for a Hub, managing finances including purchases, recruitment of trustees and volunteers, training and policy needs, IT issues, services the Hub may provide.

Trustees

The charity's constitution allows it to have at least three charity trustees. There is no maximum number of charity trustees that may be appointed to the CIO. However the Appointed Trustees named in the Constitution can appoint a further 3 nominated trustees. Appointed Trustees serve a 2 year term with the exception of one trustee appointed for a 4 year term. Nominated Trustees serve two year terms. Any charity trustee who has served for two consecutive terms may not be reappointed for a third consecutive term but may be reappointed after an interval of at least one year.

Changes to the Charity's Trustees

Elizabeth Pinfield Wells was appointed as a nominated Trustee on 21/12/22. Liz was already known to some of the APpointed Trustees and recruited by word of mouth.

Attempts have been made to recruit more trustees. This has not yet been successful. We placed an online advert via NCVO on Trustees Unlimited website August- September 2023.

During the period of this annual report Juliet Soria replaced Steve Smith as Chair due to Steve Smith experiencing an extended period of ill health.

At the end of the financial year the Trustees were as follows:

Appointed Trustees:

Juliet Soria (Chair)

Fiona Morgan (Secretary)

Jane Bundy (Treasurer)

Steve Smith

Nominated Trustees

Elizabeth Pinfield Wells

Financial review

The Charity's income comes from donations from our events and the Telford and Wrekin Council Climate Change grant that was successfully applied for in December 2022 to be spent over 12 months for the purposes of setting up a physical hub.

At the start of the year the bank balance was £239.00

Total income during the year was £ £10,879.70

£775.51 was paid out to cover our costs

£9690.00 was carried forward to cover expected claims from projects still in progress.

At the end of the year the Trust had a bank balance of £ 11031.22

Achievements

CAHT has continued to provide a minimum of one event a month to the residents of Telford and Wrekin which are consistent with the Trust's objectives. At all our events we discuss the purpose of reusing things with the public to reduce carbon emissions and help us to share resources.

These events include our:

- Swap and Giveaways which we do in conjunction with Telford Repair Cafe and Terracycle Telford at various community centres around the borough and also our own events including Clothes Swap at Wellington Market and Enginuity, Ironbridge Museums. Toy and Christmas decorations swap at Wellington Market and the Little Green Pantry. Some of our swaps focus on specific items, others are generic for any items, some are garden scrap stores and we also do tree seedling/plant giveaways.
- Eco activities with children and young people at Landau, PODS
- Sponsored film showings at Wellington Orbit as part of COP27/28 and Wellington Green Festival
- Litterpick during Great British Spring Clean Week
- We organised Wellington's First Green Festival in August which was sadly cancelled due to the weather.

Details of all our activities are presented on our website under the events and gallery pages.

<https://climateactionhub.org.uk/>

We also send out a newsletter at least once a month to notify people about our events and other eco and climate related events and opportunities happening locally that the readership may be interested in. We also post our events to social media (Facebook/Instagram).

We have also been working towards how we can set up a permanent Hub in the borough so that our swaps and other services we wish to provide longer term are more available to the public. This has involved negotiations with Wellington Town Council. Love Wellington, Telford and Wrekin Council who provided the grant, Wellington Station (Abellio and National Rail). We have also been working with other potential partners in this initiative including Telford Repair Cafe, Terracycle Telford, Telford Makerspace, Active Wellbeing Society etc. No specific plan to make this happen has yet emerged from these discussions.
