The Human in Need is a Public Benefit Entity as defined by FRS 102.

The Human in Need has taken advantage of the provisions in the SORP for charities not to prepare a statement of cash flows.

The financial statements have departed from the Charities (Accounts and Reports) Regulations 2008 only to the extent required to provide a true and fair view. This departure has involved following the Statement of Recommended Practice for charities applying FRS 102 rather than the version of the Statement of Recommended Practice which is referred to in the Regulations but which has since been withdrawn.

The financial statements are prepared in sterling, which is the functional currency of the Human in Need. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

#### 1.2 Going concern

The trustees' considers the use of going concern basis of accounting is appropriate since they have given their assurance that they will continue to support Human In Need for a period of 12 months following the approval of these financial statement. There are therefore, no material uncertainties related to events or conditions that may cast significant doubt about the ability of the charity to continue trading.

#### 1.3 Charitable funds

The charity did not receive any funds during the year.

#### 1.4 Income

Income is recognised when the Human in Need is legally entitled to it after any performance conditions have been met, the amounts can be measured reliably, and it is probable that income will be received.

#### 1.5 Expenditure

Expenditure is recognised once there is a legal or constructive obligation to transfer economic benefit to a third party, it is probable that a transfer of economic benefits will be required in settlement, and the amount of the obligation can be measured reliably.

Expenditure is classified by activity. The costs of each activity are made up of the total of direct costs and shared costs, including support costs involved in undertaking each activity. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs which contribute to more than one activity and support costs which are not attributable to a single activity are apportioned between those activities on a basis consistent with the use of resources. Central staff costs are allocated on the basis of time spent, and depreciation charges are allocated on the portion of the asset's use.
