Financial Review

<p>Review of the charity's financial position at the end of the period</p>	<p>Para 1.21</p>	<p>A deficit of £13159.3 might look concerning but there have been a number of factors that have brought the total figure down substantially</p> <p>First being last year the grant for the windows came into the account but it was into April when the expense left the account which is a total of £5000 (which put last year's figure £5000 higher than it should have been)</p> <p>Secondly, we paid a donation to the school for £1000 (additional land in equipment and resources)</p> <p>Decking had rotten through which became a danger costing over £2000 to replace.</p> <p>None of this was budgeted and has a total cost implication of over £8000</p> <p>There were also some staffing issues earlier in year which caused us to pay out for agency to cover and a period of suspension with a approx. cost of £2000</p> <p>We have also not raised as much through fundraising events- there was one less event but there was also less money raised at each event. We have had a very small committee this year and with other issues dominating the time of the committee this has affected the fundraising opportunities available. Cost of living and families having less available funds may have also affected the money raised.</p> <p>Hopefully this year we can increase the committee size and run some more events this year.</p> <p>We have seen a cost in bin collection for the year rise to nearly £700 due to changes in</p>
