The rehabilitation programme is designed to provide comprehensive psychosocial support, structured into two key phases for optimal recovery and empowerment. --	----------------	--

Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	The charity raised £15,339.78 exceeding target. The money will be sent to Ellilta Woman At Risk to help to support woman through their rehabilitation programme. The women in the programme ranged in age from 26 to 32 years, with 72% of them having one or more child. Initially, 85% of the women were struggling with addiction to alcohol, chat (a stimulant), and cigarettes. After six months of intensive therapy, this percentage significantly decreased to 30%. The reduction in addiction rates not only improved the lives of the women themselves but also positively impacted their children and families. The next phase moves to vocational training / job placement. This phase of the program demonstrates both the challenges and success of the rehabilitation journey, highlighting the critical need for continued support to ensure long-term recovery. Moving forward, Ellilta will focus on providing sustained assistance to the women who have successfully transitioned into employment, while also reaching out to those who dropped out or returned to prostitution to offer them further guidance and support. The ultimate goal is to equip all participants with the tools and resources necessary to build a stable and fulfilling future, free from the hardships of their past.
