

**CHARITY COMMISSION**  
FOR ENGLAND AND WALES

## Trustees' annual report (including Directors' report) for the period

**From: 24/03/03** Period start date

**23/04/04**

**To: Period end date**

**Charity name: DOGO**

**Charity registration number: 1198719**

## Objectives and Activities

	SORP reference	
Summary of the purposes of the charity as set out in its governing document	Para 1.17	<p>DOGO is a charitable organisation established to convert donations into free, transparent, and life-saving healthcare for individuals in underserved and low-income regions, particularly within developing countries. Its primary purpose is to bridge the gap between those who wish to give and those who urgently need access to medical care, using advanced technology to ensure every contribution is impactful and accountable.</p> <p>Key Objectives:</p> <ul style="list-style-type: none"><li>• To provide free medical treatment to individuals who are unable to afford it, facilitated through a secure, user-friendly mobile application.</li><li>• To ensure complete transparency by linking every donation to a specific patient case via a unique ID system, allowing donors to see the precise impact of their contributions.</li><li>• To establish sustainable innovation in charitable giving through the development of purpose-driven advertising products that fund healthcare services.</li><li>• To support public health systems by sharing critical healthcare data and trends with governments and NGOs for more effective planning and response.</li></ul>
Summary of the main activities in relation to those	Para 1.17 and 1.19	The DOGO mobile application allows donors to make contributions that are converted directly into medical aid. Each donation is

purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.		<p>linked to a specific patient case using a unique identifier, enabling donors to see exactly how their support has been used. This reinforces accountability while preserving patient dignity and confidentiality.</p> <p>Currently active in several Nigerian and Ugandan cities, we then turn these payments in to critical healthcare for those most in need.</p>
------------------------------------------------------------------------------------------------------------------	--	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	<p>Over the past year, DOGO has made significant strides in advancing its mission to provide free, transparent healthcare to those most in need. One of the key achievements has been the expansion of our local scout network, enabling the charity to identify and reach a greater number of individuals in urgent medical need across underserved communities.</p> <p>DOGO has also seen a marked increase in the number of patients treated, reflecting both the scalability of its operations and the growing efficiency of its processes. Continuous refinement of internal systems has allowed for faster case verification, streamlined fund distribution, and improved coordination with partner medical centres.</p> <p>Additionally, the charity has achieved notable success in growing its user base, bringing more donors onto the platform to support life-saving care. Each new user represents a potential lifeline for someone without access to healthcare, and this increase in participation reflects rising trust in DOGO's transparent, tech-driven approach.</p>

		<p>The wider societal impact includes not only the direct health benefits to beneficiaries but also the strengthening of local healthcare systems, the promotion of digital transparency in charitable giving, and the fostering of community-based solutions to global health inequities.</p>
