

Annual Trustees Report for AFRICA AGAINST STROKE

Reporting Period: 1.1.2024 to 31.12.2024

Trustees' Overview

The trustees are pleased to present the annual report of Africa Against Stroke for the year ending 31st December 2024 is committed to reducing the incidence and impact of stroke in Africa. Our work focuses on raising awareness, providing support to stroke survivors, and collaborating with local communities and medical teams to improve stroke prevention and care.

Charity's objectives and main activities

Our primary objective remains the eradication of stroke across Africa. To this end, our activities during the year have focused on raising visual Awareness in the community our trustees and key stakeholders live in . As in the past , this is done through public places where the charity tries to educate communities members in Norwich mainly (but all over UK too) about stroke prevention and early recognition of symptoms.

We are grateful for the continued support and generosity of individuals who embrace our vision.

Fundraising and Income Generation

AFRICA AGAINST STROKE HAS not been able to raise any funds during the reported year due to limited human resources available to support. Donations were supposed to be received from customers in partnering commercial shops. And we are incredibly thankful for the support of both these businesses

Financial Review

Income:

Our total income for the year was Nil

Expenditure:

There was no expenditures for the year

Plans for the Upcoming Year

To expand our impact, we aim to:

1. increase fundraising efforts through new initiatives, including online donation drives, partnerships with more retail outlets, and community fundraising events. Additionally, we

plan to increase our educational outreach through collaborations with healthcare professionals and volunteers in Africa.

2. Carry on our community outreach by conducting workshops, seminars, and awareness campaigns in various communities.
3. Pursue on support and Rehabilitation by collaborating with medical practitioners to provide support and rehabilitation to stroke survivors and their families.

Conclusion

While we couldn't generate any income this year , we are encouraged by the support and awareness we continue to generate within the community. We are committed to building on this foundation to further our mission of eradicating stroke in Africa.

The trustees thank everyone who has contributed to the charity's mission and look forward to expanding our reach and impact in the year ahead.
