Additional governance issues (Optional information)

You **may choose** to include additional information, where relevant, about:

- policies and procedures adopted for the induction and training of trustees;
- the charity's organisational structure and any wider network with which the charity works;
- relationship with any related parties;
- trustees' consideration of major risks and the system and procedures to manage them.

The charity operates in several teams of volunteers who perform different functions. For example there is a client liaison team which deals with referrals and requests for help, and each session at the foodbank is run by a regular team under a session leader.
All volunteers receive an induction and are given access to all policies and procedures that the charity has in place, such as health and safety, equalities, safeguarding, food safety etc.

Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

The prevention or relief from poverty and hardship among people living in Cleckheaton and surrounding area, particularly but not exclusively by the provision of emergency parcels of food and other necessary consumer goods required by individuals and families in need.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The Trustees have had regard to the guidance issued by the Charity Commission on public benefit when planning activities.

The charity's main activity is running an emergency foodbank. Anyone in need can refer themselves and we also receive referrals from local agencies. A referral form is completed by the client liaison volunteer on duty that day or by the referrer from an agency and beneficiary details are stored on a secure spreadsheet.

The foodbank operates on 3 days per week when teams of volunteers pack and deliver parcels to beneficiaries at their homes.

Information packs on where beneficiaries can find further help on such matters as debt, longer term food support, benefits and job seeking are included with the first parcel that a beneficiary receives and on occasions a client liaison volunteer refers a beneficiary directly to another agency.

These activities help relieve poverty and hardship by enabling beneficiaries to feed themselves and their families. They also help people move on to longer term solutions once the immediate crisis is resolved. We normally limit the number of parcels a beneficiary can receive to 6 within a 6 month period.

Additional details of objectives and activities (Optional information)

We have a fantastic team of about 50 volunteers who fulfil varying roles and Trustees are very grateful to all of them. The foodbank could not run without the time, skills, energy and dedication of all our volunteers.

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

The charity has been able to support all those who have come to us for help during the year thanks to our generous local supporters who continue to bring us donations in kind, and all our funders who have shown their support and their trust in us by making grants to us.

We distributed a total of 1597 parcels during the period of this report. This represents approximately 400 separate households.

We have continued to attract a fantastic group of volunteers without whom none of this could have been achieved and have become established in our local community and are now well known and respected by local people.

Section E

Financial review

Brief statement of the charity's policy on reserves

We aim never to go below reserves of 3 months running costs

Details of any funds materially in deficit

none

Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

The highest percentage of our income is grants from various sources, supplemented by individual donations and gifts in kind (food).

91% of our expenditure this year was on food which was then delivered to our beneficiaries thus relieving poverty.
