Policy on grant making	Para 1.38	RangerLab works in partnership with conservation partners on the ground to ensure that grants are effectively utilised. Our conservation partners are well-known in our sector to have consistently complied with other, larger, grant-making bodies and part of the project selection process has included speaking with these bodies prior to commencing grant-making. The grant

		making process includes consultation between our local partners and the potential grant recipient, consideration of the utility of a grant by the RangerLab Trustees. RangerLab monitors the application of grants to ensure that they have been applied for the purposes for which they have been given by asking for photographic evidence of procurement, and where appropriate, breakdowns of receipts of expenditure. In the instance of donations of equipment being made to wildlife rangers, photographic evidence of the equipment being deployed and worn by beneficiaries gives our Trustees enough surety on the effective usage of this grant making activity.

Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.

Para 1.20

In May 2022, we partnered with Stance Socks, a globally recognised sock retailer, to supply 400 pairs of socks, valued at £8.80 each, to Game Rangers International (a registered Non-Governmental Organisation in Zambia. Cert. No. RNGO 101/0185/2014 - ISSUE 2): our Zambian conservation partners. These socks were specifically designed to be robust enough for the demands of anti-poaching units in the region. Alongside this, we told the stories of a handful of those wildlife rangers who received this grant, explaining the challenges and opportunities related to their roles and lives.

In January 2023, we made a financial grant of £5,000 to the High Asia Habitat Fund (a registered non-profit entity under sections 8 and 12A of the Indian Companies Act): our Asian conservation partners. The grant, focussed on supporting two wildlife ranger teams in the Issyk Kul Province, primarily for use in the Sarychat-Ertash Nature Reserve. The funding, inter alia, helped our partners procure eight winter jackets, eight sleeping bags, fourteen pairs of boots, a stove and kitchen set and a diesel generator to help the team live and work with better conditions. These provisions make significant improvements to working wellbeing when considering the challenging temperatures in the region.

In March 2023, we made a grant of various items of kit to National Park Rescue (a Zimbabwean Registered Trust which also has a UK "friends of" charity of the same name, registered charity number 1170025): our Zimbabwean conservation partners. Included in the provision were 20 reusable period products to improve sanitary health, two pairs of socks for each staff member, berets, jacket badges, stock tee shirts. This was accompanied by a project visit by our Honorary Executive Director to meet and interact with wildlife rangers in the Chizarira National Park.

In April 2023, we made a financial grant of £1,900 to replenish the entire stock of boots for National Park Rescue, meaning that each wildlife ranger had a sufficient pair of footwear, including spares.

In May 2023, we partnered with Patagonia, a globally recognised retailer, to provide 38

		<p>state of the art base layers to the High Asia Habitat Fund, our Asian conservation partners. These baselayers were valued at £32 per unit. In this supply, the base layers were distributed between Indian and Kyrgyz wildlife rangers. This will ensure that these wildlife rangers will be able to work in more challenging environments.</p> <p>In July 2023, we made a financial grant of £5,000 to Game Rangers International (GRI). This grant was made to supply the entirety of the GRI anti-poaching units across the Kafue National Park. In total, 200 jackets were supplied, giving wildlife rangers their own to keep them warm during the winter months.</p> <p>In September 2023, we partnered with Tusk Trust, (UK charity 1186533) on the Wildlife Ranger Challenge. In doing so, we provided 375 pairs of socks in total, to the winners of the various challenges. The winning teams of the various challenges including Tarangire Ecosystem Team in Tanzania, the 21km team winner, Gonarezhou Conservation Trust in Zimbabwe, the sit up, push-up, and K9 challenge winners and the Karingani Game Reserve in Mozambique, winners of the quiz.</p>

Financial Review

Review of the charity's financial position at the end of the period	Para 1.21	<p>The charity's financial position at the end of the period included a surplus of £3847 which includes cash and an outstanding loan.</p> <p>At the end of the period, cash flow was stable on the basis of reduced outgoings to manage any fundraising challenges in the winter of 2023/24. As such, the Trustees were in agreement that the position was adequate and required regular performance reviews.</p> <p>Further income was scheduled to arrive shortly after the financial period ended, which gave surety to the operating health of the organisation.</p>
Statement explaining the policy for holding reserves stating why they are held	Para 1.22	It was not appropriate to have a reserves policy in Y1 on the basis that the outgoings of the organisation were well managed. It may, depending on the organisational growth, be appropriate to consider the implementation of a 10% reserves policy to increase financial stability.
Amount of reserves held	Para 1.22	See above.
Reasons for holding zero reserves	Para 1.22	The charity, at the end of the financial period had no ongoing commitments and no staff. Going forward, the Trustees are planning to rely less on external grant funding and more on fundraising income generated by the charity itself. As such, the organisation is in a contextually higher control of cash-flow.
Details of fund materially in deficit	Para 1.24	
Explanation of any uncertainties about the charity continuing as a going concern	Para 1.23	The Trustees recognise that charities are currently operating in a difficult fundraising environment. ~They will therefore monitor carefully the charity's fundraising target and budget and adapt the charity's activities accordingly

Additional information

The charity's principal sources of funds (including any fundraising)	Para 1.47	<p>In this period, the charity's principal sources of funds were generated across three key areas;</p> <p>Firstly, the organisation was grateful to receive the support of grant funding from:</p> <p>Olsen Animal Trust, registered charity number 1169982 (OAT), Covey Environmental Trust (CET) Ernest Kleinwort Charitable Trust, registered charity number 1197205 (EKCT)</p> <p>OAT helped support our grant to equip Zambian wildlife rangers with new jackets.</p>
--	-----------	--

		<p>CET helped support our overall operations and build financial stability, whilst making grants.</p> <p>EKCT helped support our grant making with High Asia Habitat Fund, our Asian conservation partners.</p> <p>£7736 of the total income we received was made on a restricted basis, £3000 of which was derived from grants. We received goods in kind valued at £4736.00 including new, quality socks and base layers which were restricted to being granted to conservation partners within the financial period.</p> <p>Moreover, we hosted a dinner fundraising event in March 2023 to help generate vital operational funding for the organisation to build financial stability. This generated important income for the Charity, and in particular, helped build a pipeline of regular givers which have derived continuing financial success over subsequent months and financial periods.</p> <p>Donations from individuals are the final, but essential source of funds received to enable RangerLab to further its charitable objectives and we are grateful for all of those who have continued to support us.</p>
Investment policy and objectives including any social investment policy adopted	Para 1.46	NA
A description of the principal risks facing the charity	Para 1.46	<p>Fundraising has continually challenged the organisation. Building a financial base from which we can operate, has required us to invest in fundraising capability, events and the diversification of income streams.</p> <p>Trustees, to mitigate future fundraising risks, are aware of the importance of cash-flow projections to ensure the continued financial viability of the organisation.</p>
