The Dylan Strong Foundation
Trustees' Report
Year ended 31st March 2025

Objectives and activities

Charitable purpose

For the public benefit, the relief of sickness and the promotion of health of children with cancer, in particular but not exclusively by: (1) the provision of information and support services to children with cancer and their families and carers, and (2) raising public awareness in matters relating to childhood cancer.

Main activities of the charity

The charity works with local NHS hospitals in Surrey to provide information and support services to children suffering with cancer and their families as well as raising public awareness in matters relating childhood cancer. The main activities include (1) the provision of care packages to children being treated for cancer during their stay at hospital (particularly during holidays, festive and other occasions at which times the children and families can feel even more vulnerable and isolated.); (2) the provision of healthy snacks and meals in the fridges of parent rooms within the hospitals for parents who feel that they are unable to leave their children during their treatment via periodic deliveries to local hospitals; (3) the provision of healthy meals sent directly to the homes of those families that we support; (4) offering nutrition advice to children with cancer and their families to help during treatment; (5) offering emotional and practical support to help families understand childhood cancer and its treatment.

The Trustees confirm that they have paid due regard to the guidance issued by the Charity Commission on public benefit in deciding what activities the charity should undertake.

Achievements and performance

Over the past year, thanks to the continued generosity of our charity community, we were able to expand our hospital food support to include Kingston Hospital alongside our ongoing work at Epsom Hospital, Surrey. This growth enabled us to extend our reach and support more children and families in hospital settings. A key focus throughout the year remained the regular provision of healthy snacks in parents' rooms, ensuring families had access to nutritious refreshments during what can be an emotionally and physically demanding time.

In addition to our hospital-based initiatives, we significantly increased the level of support provided to children and their families at home. This included the provision of healthy, nutritious freezer meals, helping to ensure families had access to balanced

meals at times when parents were understandably focused on their child's care. By reducing the practical pressures associated with meal preparation, this support helped alleviate some of the day-to-day burden on families, allowing them to concentrate on what matters most during challenging periods.

The feedback we have received highlights the positive impact of these contributions, with many expressing appreciation for the convenience and nutritional value of the meals and snacks provided. This feedback reinforces the importance of our work and the tangible benefits it is bringing to those we support.

We also maintained our commitment to bringing moments of joy and comfort to children in hospital during key festive periods. Easter hampers and Christmas gifts were delivered to children undergoing treatment, as well as to their siblings, helping to brighten what can be a particularly challenging time for families. These seasonal initiatives offered both emotional support and a sense of normality during hospital stays.

During the past year, thanks to the generosity and continued support of our charity community, we have made significant strides in supporting the families and children at Epsom Hospital, Surrey. Throughout the year, we have consistently stocked the parents' room at the hospital with healthy snacks, ensuring that parents and children have access to nutritious options during their time at the hospital.

The feedback we have received from parents and families highlights the positive impact of these contributions, with many expressing appreciation for the convenience and nutritional value of the snacks provided. Parents have commented that the availability of snacks has been a great comfort during difficult times, and

children have enjoyed the healthy treats. This feedback reinforces the importance of our work and the tangible benefits it is bringing to those we support.

As part of our commitment to bringing joy and comfort to children in hospital during festive periods, we delivered 100 Easter hampers and 100 Christmas presents to children undergoing treatment and their siblings. These seasonal gifts have provided much-needed cheer and support to the young patients and their families during what can be a challenging time.

We are also proud to have contributed to a more welcoming and informative environment at Casey Ward, Epsom Hospital by decorating the walls with child-friendly nutrition advice, making the journey to the ward both pleasant and educational for young patients and their families.

In addition to this, we engaged with over 1,000 schoolchildren, providing educational sessions on the importance of healthy eating and its impact on physical and mental well-being.
