

Changing Destiny CIO – Trustee Report

Year Ended 31 March 2024

The charity has been setting up for launching its activities more formally. At this stage it is at the planning stage and building relationships with volunteers and cause delivery.

Further, scoping for causes within the confines of the charity objectives are taking longer than expected.

The running cost have been funded by the trustees thus far.

Income should start to manifest over the next 12 months and the follow up to the same will be to the end causes and individuals who meet strict criteria.
