INVESTMENT POLICY

It is the trustees' policy to maintain a level of investment which generates sufficient income to allow the trust to carry out its charitable objectives on a sustainable basis for the long term. The investment policy is directed towards securing the maximum overall return on the trust's assets commensurate with an appropriate level of risk for a charitable trust investor. It is the Trustees' policy to retain its investments in land which have a long association with the Charity (since 1726) until such time as it is possible to realise substantial capital gain. No special social or ethical constraints are placed on the choice of investments and non-property investments will be placed in income units in the C.O.I.F. fund with the objective of achieving above average total return and dividends.

PLANS FOR FUTURE PERIODS

The Charity's future governance, objects, investment strategy and approach to grant allocation will be subject to review by a working group who will bring recommendations to the AGM. Consideration will also be given to the most appropriate means of disposal of residual lands.

STATEMENT OF TRUSTEES' RESPONSIBILITIES

The Trustees are responsible for preparing the Report of the Trustees and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

The law applicable to charities in England and Wales, the Charities Act 2011, Charity (Accounts and Reports) Regulations 2008 and the provisions of the Trust Deed requires the trustees to prepare the financial statements for each financial year which give a true and fair view of the state of affairs of the Charity and of the incoming resources and application of resources, including the income and expenditure, of the charity for that period. In preparing those financial statements, the trustees are required to: -

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charity SORP;
- make judgements and estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the trust will continue in business.

The trustees are responsible for keeping proper accounting records which disclose with reasonable accuracy the financial position of the trust and to enable them to ensure that the financial statements comply with the Charities Act 2011, the Charity (Accounts and Reports) Regulations 2008 and the provisions of the trust deed. The trustees are also responsible for safeguarding the assets of the trust and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements of the trust, which is a public benefit entity under FRS 102, have been under the historical cost convention, with the exception of investments which are included at market value, as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), "Accounting and Reporting by Charities: Statement of Recommended Practice and with applicable accounting standards and the Charities Act 2011.

Investment property

Investment properties are carried at fair value determined annually by the trustees. Valuations are performed on an open market basis at the balance sheet date. The valuation is at the Trustees' estimate as they do not believe that the expense of a professional valuation is in the interest of the members. No depreciation is provided. Changes in fair value are recognised in the Statement of Financial Activities.

Taxation

The Charity is exempt from tax on its charitable activities.

Fund accounting

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of trustees.

Restricted funds can only be used for particular restricted purposes within the objectives of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.

Debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered and future interest.

Creditors

Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due and future interest.

Cash and Bank

Cash and bank resources are recorded in the balance sheet in a bank current account and deposit fund account.

Investments

Investments are included in the financial statements at market value as at the balance sheet date. Realised and unrealised gains and losses on investments are included in the Statement of Financial Activities.
