Rooting for Andover Trustee Report for the Period to April 30th 2025

Objectives Governance and Structure.

Rooting for Andover supports allotments and community gardens in the Test Valley area.

We hold regular volunteer days at our main garden at Poppy Park next to the Augusta Park Community centre. Throughout the year, we hold a variety of community events in the garden which are advertised on social media. We are open to all and everyone is welcome.

We are a Charitable Incorporated Organisation set up using the Charity Commission's Foundation Governing document. We have three trustees and appointments of trustees follows the model process set out in our governing document. Our charitable aims are described in the same document and can be viewed on the Charity Commission site. Broadly we aim to provide, for public benefit, facilities for community gardens for all members of the community in the Test Valley. We also aim to provide opportunities for learning about sustainable horticulture and community gardening. We provide a great place for people to meet, to enjoy green spaces and to enhance their knowledge and understanding of all aspects of horticulture as well as contributing free surplus food to those in the local community who might need it. The trustees are fully aware and always seek to comply with the Charity Commission's guidance on public benefit.

This third report covers the period from 1st May 2024-30th April 2025.

Achievements

Overview

This period proved to be a highly successful and active year for the community garden.

Community Events and Engagement

The garden hosted a wide range of well-attended events, attracting strong community participation throughout the year.

The Spring Garden Fair in May welcomed over 100 visitors and resulted in a complete sell-out of many plant varieties that volunteers had carefully grown and potted. A children's wildlife photography competition held during the summer attracted high-quality entries and was very well received.

Additional events included the popular Easter Bunny Hunt, summer holiday sessions, and a Halloween celebration. All were exceptionally well supported, despite periods of inclement weather.

Environmental Education

Environmental education remained central to the garden's work. Two People's Planet workshops enabled community members to share their views on environmental and climate issues, with outcomes fed back to regional organisations.

Regular free learning sessions for children were delivered during school holidays. These sessions were well attended and greatly appreciated by both children and parents.

A garden birdwatch recorded a variety of bird species, while wildlife cameras captured fox activity, highlighting the site's increasing biodiversity.

Awards and Recognition

A significant proportion of the year was devoted to preparing for South & South East in Bloom. This involved many hours of volunteer effort, including planting, ongoing maintenance, infrastructure improvements, and presentation of the site. We were delighted to achieve a Level 5 'Outstanding' in the 'It's Your Neighbourhood' category and also a silver gilt for the 'Our Community' category.

Additionally, a comprehensive and high-quality entry was entered into the desktop *Environmental Challenge* category. This involved preparing a report to cover how the community garden was dealing with environmental issues such as using appropriate planting for the climate, attracting wildlife, composting and water collection. We received a silver for our efforts.

Garden Development and Maintenance

Volunteers undertook extensive physical improvements throughout the year, including the installation of bug boxes, information boards, rubbing plaques, and wildlife-friendly dead hedges. Paths were extended and improved, and development work was carried out in a neighbouring wildlife area. The bog garden was further enhanced, and the polytunnel was replaced with a much sturdier cover.

Winter preparations included protecting vulnerable plants, planting over 1,000 spring bulbs and native wildflowers, and adding donated climbing roses to provide long-lasting colour and scent.

Volunteers and community impact

The garden continued to host regular weekly gardening and social sessions, welcoming people of all ages and abilities. Above all, the trustees acknowledge the exceptional contribution of the many volunteers who supported planting, maintenance, events, education, and community outreach throughout the year as well and extended such a warm welcome to the countless families and individuals who come to the garden to simply enjoy it.

We would also like to thank our funders during this year: Test Valley Borough Council (Councillor Grant), the National Garden Scheme, and Action Hampshire.

The Charity's events were also advertised on our website which is

currently <https://rootingforandover.org.uk>

and on Facebook:

<https://www.facebook.com/groups/377104459891872>

Finance

We normally strive to achieve around 6 months reserves which the trustees feel is a safe margin given our annual costs. Most of the funding we receive is related to project work but we aim to have between £2500 - £3500 in reserves which is our best current estimate of our 6 month running costs. At the end of the financial year, the charity was in a strong financial position and is a going concern. Administrative information Rooting For Andover ((Charity Registration 1200827) has three Trustees at present; Mr Michael Parker (Chair), Mrs Vicki Cunningham (Secretary) and Mrs Maureen Treadwell (Treasurer). The postal address for correspondence is as follows: 21 Livia Close SP10 5QR. The contact email for the charity is info@rootingforandover.org.uk

Rooting for Andover Trustee Report for the Period to April 30th 2024

Objectives Governance and Structure.

Rooting for Andover supports allotments and community gardens in the Test Valley area. We hold regular volunteer days at our main garden at Poppy Park next to the Augusta Park Community centre. Throughout the year, we hold a variety of community events in the garden which are advertised on social media. We are open to all and everyone is welcome.

We are a Charitable Incorporated Organisation set up using the Charity Commission's Foundation Governing document. We have three trustees and appointments of trustees follows the model process set out in our governing document. Our charitable aims are described in the same document and can be viewed on the Charity Commission site. Broadly we aim to provide, for public benefit, facilities for community gardens for all members of the community in the Test Valley. We also aim to provide opportunities for learning about sustainable horticulture and community gardening. We provide a great place for people to meet, to enjoy green spaces and to enhance their knowledge and understanding of all aspects of horticulture as well as contributing free surplus food to those in the local community who might need it. The trustees are fully aware and always seek to comply with the Charity Commission's guidance on public benefit.

This second report only covers the period from 1st May 2023-30th April 2024.

Achievements

Rooting for Andover has had another very busy year. Everything we do is focused on encouraging our visitors and volunteers to learn more about food growing, allotments, gardening and our environment.

There was a very successful Easter Egg Hunt which saw 70 children taking part. As usual, there were the two 'Easter bunnies' hopping around the garden which caused squeals of laughter! We also attended a Unity children's Easter event at King Arthur's Hall where the sunflower seed planting was very popular.

We had a very successful King's Coronation event in the community centre in May with over 250 attendees including a plant sale where we raised over £150 for the garden. We also ran a well-attended cobble painting event in the garden to coincide with the event. We ran several short but very successful 'Square foot gardening' courses in the summer. Square foot gardening is a very environmentally friendly way of increasing crop yield without using artificial fertilisers. It can be undertaken in small gardens and produces a

useful range of crops including carrots, lettuces, tomatoes, beetroot, beans and herbs. The events were well attended and much enjoyed.

We also had a very successful plant sale in the garden on Saturday 27th May. Every year, we survey our supporters from our Facebook page, which has well over 750 members, to enquire which events or activities are the most popular and which new activities they might like. The plant sales are one of our most popular events as well as raising some sustainable funding for the garden. Families come along to talk about their gardens, get suggestions and tips for plants and it enables us to sell on some of our surplus plants at prices that are much lower than people would pay for commercial suppliers whilst still providing some funds for the garden.

We spent many enjoyable hours preparing the garden for our South East in Bloom entry. Judging, by John Tweddle from the RHS, took place in July and we were delighted to win our first 'outstanding' award! The gardens looked absolutely beautiful. We had so many visitors who just came through to enjoy the flowers, the scents and the sound of insects buzzing. The vegetables were beginning to be ready for harvest and the garden was in full bloom. John was very complimentary, especially in regards to the new orchard, the wildflowers and how colourful it looked when entering the garden.

We were also voted Acquisition International Magazine's Most Inspiring Community Garden Organisation in Hampshire 2023 in their non-profit organisation awards.

Thanks to the help of one of our volunteers, we were offered 'Kevin the Composter' – a top of the range hot composter. 'Kevin' was named after our TVBC contact who helps us with our licensing and permissions for the garden. Local residents can bring their uncooked kitchen scraps to put into a special bucket. Due to how often the compost gets rotated, it means that it only takes a few weeks to get good quality compost. A huge thanks to Harvey Sullivan (The Wildlife Gardener) for doing all the hard work to get this in place in the garden for us.

We finally got permission for an accessible path through the garden to the orchard. It needed to be woodchip rather than the hardcore type material originally planned but this made the path more environmentally friendly whilst being fully usable by mobility scooter users, wheelchairs and buggies. Our thanks go to TVBC and our local Councillors who supported the grant.

We also got permission and funding for a new, bigger and more sturdy polytunnel as the winter weather pretty much destroyed both of the less robust ones we previously had. Our thanks to members of Andover Town Council for their support for the grant and to all the volunteers who spent their weekends erecting it. It proved to be quite a challenge! In addition, we were also able to purchase a small metal shed to hold some of our bulkier items as we were beginning to outgrow our original shed.

We were able to install a children's mud kitchen which is now at the back of the large shed and a new rose arch feature for the front entrance which will look beautiful in future summers.

A wildlife nature trail is our new attraction with bird and bug boxes, log piles and wildflowers, thanks to funding from the Hubbub Environmental Charity. We also now have some very smart and professional information signs for our garden

We also ran a barbecue at the Augusta Park fun day which was organised by our friends at the Augusta Park Community Association, as well as some NHS Healthy Living events in King Arthurs Way.

More information about our activities and events can be seen on our Facebook group.

<https://www.facebook.com/691799534/videos/3590564821255662/>

The Charity's events were also advertised on our website which is currently <https://rootingforandover.org.uk>

Rooting for Andover annual report for the period to 30th April 2023

Objectives, governance and structure

Rooting for Andover supports allotments and community gardens in the Test Valley area. We hold regular volunteer days at our main garden at Poppy Park next to the Augusta Park Community centre. Throughout the year, we hold a variety of community events in the garden which are advertised on social media. We are open to all and everyone is welcome.

We are a Charitable Incorporated Organisation set up using the Charity Commission's Foundation Governing document. We have three trustees and appointments of trustees follows the model process set out in our governing document. Our charitable aims are described in the same document and can be viewed on the Charity Commission site. Broadly we aim to provide, for public benefit, facilities for community gardens for all members of the community in the Test Valley. We also aim to provide opportunities for learning about sustainable horticulture and community gardening. We provide a great place for people to meet, to enjoy green spaces and to enhance their knowledge and understanding of all aspects of horticulture as well as contributing free surplus food to those in the local community who might need it. The trustees are fully aware and always seek to comply with the Charity Commission's guidance on public benefit.

This first report only covers the period from registration as a Charitable Incorporated Organisation in October 2022 to the end of the financial year on 30th April 2023. Rooting for Andover was previously a charitable not for profit company limited by guarantee (Rooting for Andover Ltd). Residual assets of Rooting for Andover Ltd were transferred to the CIO during this period.

Achievements and performance

Our very successful and well attended bi and tri weekly volunteer sessions were well supported. We had a 'raised bed workshop', undertook some local fruit tree planting and ran a hugely well attended Easter event which attracted crowds of local residents.

Thanks to the earlier work with volunteers from the local Round Table, we completed works on our wonderful pond and saw a definite increase in wildlife as a result.

We installed new benches so that we had a better social and learning space for some of our more formal activities.

All of our activities during this period were either free or required only a small token payment as we understood the financial pressure many families were under. Estimating how many beneficiaries we have is difficult but our popular events often attract hundreds of residents and our Facebook group where we share information has over 600 members.

We worked extensively with the NHS on a successful 'Healthy Andover' project and attended their public events with various planting activities which were popular with adults and children alike.

Several local Councillors were welcomed to our garden and we are grateful both to them, officers of Test Valley Borough Council and the local Community Centre for their help and support.

We are also grateful to a grant received from Gamma Aviation during this period.

The Charity's events were advertised on our website which is currently <https://rootingforandover.org>.uk as well as our Facebook page.

Finance

We normally strive to achieve around 6 months reserves which the trustees feel is a safe margin given our annual costs. Most of the funding we receive is related to project work but we aim to have between £900-£1000 in reserves which is our best current estimate

of our 6 month running costs. At the end of the financial year, the charity was in a strong financial position and is a going concern.
