Accounts

Loos4Learners - Charity Number – 1200847

Trustees report for the period – 01/05/2024 to 30/04/2025

The objectives of the charity remain unchanged. They are:

- To support schools in the Ashanti Region of Ghana improve (where they exist) toilet facilities and in building new ones where required.
- To support schools in Ghana with their work on hygiene and health issues linked with the provision of toilets.

Committee meetings follow a three-monthly schedule, and the AGM is open to all members.

Charity Activities

In the reporting period trustees have continued with the fundraising campaign. This entailed:

- i. The continued use of a crowd funding platform
- ii. Direct appeals to friends, family, ex-colleagues, and other associates.
- iii. Ongoing discussions/consultations with supportive individuals and organisations.

The construction of a toilet block in Ejisu Primary School has commenced and allowing for the occasional unexpected building complication, has made good progress. The block has been completed, and the children have for the first time, a quality functional toilet facility. They can now use the toilets in safety with girls having much needed privacy.

Additionally, staff now have on-site toilets. These are integral to the main block but with separate access for the adults.

The Trustees have fulfilled their commitment to raise sufficient funds to build much needed toilets for the children and staff in this school. This achievement has been welcomed and appreciated by the children, staff, parents, and the wider village community.

The Trustees have now identified two more schools that do not have toilets for their children and staff. Plans are in place to continue with a fundraising campaign to achieve this. This is Phase 2 - in keeping with the objectives of L4L. Progress on this phase will be reported fully in the next reporting cycle.

- To support schools in Ghana with their work on hygiene and health issues linked with the provision of toilets.

Committee meetings follow a three-monthly schedule, and the AGM is open to all members.

Charity Activities

In the reporting period trustees have launched a fundraising campaign. This entailed:

- i. A crowd funding platform
- ii. Direct appeals to friends, family, ex-colleagues and other associates.
- iii. A fundraising dinner.

The fundraising campaign has been highly successful and L4L has generated sufficient funds to initiate the first project to build a toilet block for a school in Ejusu Kumasi in the Ashanti Region, Ghana.

To date, building plans have been drafted and consultation re: the plans and costings are ongoing with the school leadership team. We anticipate that the actual construction will begin in the next financial cycle. We will report on this progress accordingly in the next L4L report to the Charities Commission.

The Trustees together with the committee are confident that we will raise sufficient additional funds to complete the Ejsu toilet project and so ensuring that the children of the school have access to toilets - something that was not available prior to this charitable intervention.

Trustees have also begun discussions with a second school. These scoping discussions are at present broad but over time will become more focussed and specific.

Trustees report

L4L was established as a charity in October 2022 with the objectives being:

- To support schools in the Ashanti Region of Ghana improve (where they exist) toilet facilities and in building new ones where required.
- To support schools in Ghana with their work on hygiene and health issues linked with the provision of toilets.

As expected, it was a slow start before activities gained momentum. The time it took in setting up a bank account also contributed to a slow start. Trustees did develop a constitution base on available guidelines and does include financial guidelines and scrutiny.

Committee meetings follow a three-monthly schedule, and the AGM is open to all members.

In this reporting period we did receive a donation from a committee member who undertook a sponsored walk, a donation from the Lions Club and a donation from a supporter.

Future activities – trustees together with committee members will launch a fundraising campaign using an international fundraising platform as well as organising a series of smaller fundraising activities.

Based on planned activities, trustees anticipate that the next report submitted will be more substantial.
