### Names of the trustees for the charity, if any, (for example, any custodian trustees)

Name	Dates acted if not for whole year

--	--

### Names and addresses of advisers (Optional information)

Type of adviser	Name	Address

### Name of chief executive or names of senior staff members (Optional information)

--

## Section B Structure, governance and management

### Description of the charity's trusts

Type of governing document (eg. trust deed, constitution)	Constitution
How the charity is constituted (eg. trust, association, company)	A Charitable Incorporated Organisation
Trustee selection methods (eg. appointed by, elected by)	Trustees are appointed by existing members

### Additional governance issues (Optional information)

You **may choose** to include additional information, where relevant, about:

- policies and procedures adopted for the induction and training of trustees;
- the charity's organisational structure and any wider network with which the charity works;
- relationship with any related parties;
- trustees' consideration of major risks and the system and procedures to manage them.

The charity has a number of policies and procedures in place. The trustees on appointment are given a copy of the Uganda Piggery Project a Charitable Incorporated constitution and details of the Charity Commission website and asked to read all the relevant policies and procedures regarding the responsibilities for a charity. Subsequent policy reviews are undertaken at trustees regular meetings.

## Section C Objectives and activities

**Summary of the objects of the charity set out in its governing document**

The relief of poverty of orphans and poor children in Uganda for the public benefit.

**Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)**

This is the second year of a 2 year project to sink a Well to provide water to irrigate the crops and provide clean drinking water for public benefit. The main activities this year were to install the irrigation system to water the crops and to install a tap to provide clean drinking water. Purchase and installation of a 3000 litre water tank . Purchase and installation of solar panels to provide electricity to power the water pump.

In supporting these activities our aim was to raise the remaining amount to meet the cost of £9000 for the completion of the Well project.

These activities were successfully achieved this year.

**Additional details of objectives and activities (Optional information)**

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Phase 2 : Purchase and installation of an irrigation system to water the crops.

Phase 3: Purchase and installation of a 3000 litre water tank and solar panels to provide electricity to run the pump. This will prevent the time consuming, labour intensive and expense for transporting water by barrel to the site. Thus saving time for other tasks and reduce work load for the workers and ensure a good supply of water for the crops.

In completing the well project we have provided wider benefit to the local community thus making clean drinking water available on tap for all thereby preventing water borne diseases.

**Summary of the main achievements of the charity during the year**

Phase 2 : Purchase and installation of an irrigation system to water the crops.

Phase 3: Purchase and installation a 3000 litre water tank and solar panels to provide electricity to run the pump.

This will prevent the time consuming, labour intensive and expense for transporting water by barrel to the site. Thus saving time for other tasks and reduce work load for the workers and ensure a good supply of water for the crops.

In completing the well project we have provided an irrigation system to ensure the crops are watered during the dry season in order to provide pig feed and a benefit to the local community in providing clean drinking water available on tap for all thereby preventing water borne diseases.

## Section E Financial review

**Brief statement of the charity's policy on reserves**

N/A

**Details of any funds materially in deficit**

N/A

### Further financial review details (Optional information)

You **may choose** to include additional information, where relevant about:

- the charity's principal sources of funds (including any fundraising);
- how expenditure has supported the key objectives of the charity;
- investment policy and objectives including any ethical investment policy adopted.

We organised a number of fundraising activities during the year and received contributions from friends, parishioners and a local running club. In addition we organised a profitable barn dance event and afternoon tea event. We also participated in a sponsored half marathon running event. These activities helped us achieve our aim of raising the remaining amount this year to cover the full cost of the Well project.

We purchased a 3000 litre water tank, water irrigation equipment, water pump and solar panels. This equipment supported the aims to achieve our objectives to provide an irrigation system to water the crops and provide clean drinking water for the local community. Thus helping the poor children and their families to support themselves by raising pigs to provide a sustainable livelihood for the relief of poverty which is the key aim of the charity.

## Section F Other optional information

## Section G Declaration

The trustees declare that they have approved the trustees' report above.

**Signed on behalf of the charity's trustees**

**Signature(s)** Marie Pennell

**Full name(s)** Marie Pennell

**Position (eg Secretary, Chair, etc)** Chair

**Date** 12<sup>th</sup> September 2025
