Section B, Structure, governance and management

CIO

For the advancement of health or saving of lives

The charity makes grants to individuals and organisations and provides advocacy and advice. The charity sponsors research into genetic cardiac conditions.

Trustee Selection Methods:

Appointed by existing trustees

Aims and objectives of the charity:

- To relieve sickness and to preserve life by funding research into the causes, diagnosis, treatment and or management of illness, primarily for the benefit of those affected by congenital heart defects.*
- To provide automated external defibrillators in Hertfordshire and the surrounding area*
- To provide relief of need among carers and for those suffering from congenital heard defects*
- To provide support to those suffering from child loss, or those with sick children.*

Summary of main activities undertaken in relation to the objectives:

Team Macy is a newly registered charity and within this financial year we have been focused on ensuring the charity has enough funds to provide potentially lifesaving equipment to local schools, clubs and places of worship.

We have written to over 150 local groups to offer Automated External Defibrillators (AED's). We have been in discussion with The Royal Brompton Hospital about where our grant funding can be of most use to meet our objectives.

We have designed a more user-friendly website to ensure those requiring our grant funding can contact us directly and easily.

Financial Review:

*We do not have a reserves policy
We have no material deficit*

Main source of funds:

The principal source of funds within this financial year were from a grant offered to us by our local golf club following a charity event day.

The rest of the funds has been through fundraising including our annual Christmas light display, fetes and fairs, sponsored events and local community activities.

A local school also had a charity football match and concert, and fundraising was offered to Team Macy.

The Trustees declare that they have approved the trustees report.
