Objectives and Activities

Delivering sessions and providing resources for the teaching the subjects of computer literacy, teaching skills and the importance of education; and b. Providing grants to like-minded organisations so that they may purchase learning resources to enhance educational outcomes.
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	We have been in receipt of donations that during this period have been saved whilst determining best use. This has involved establishing a network of trusted connections of like-minded individuals and organisations based in both Uganda and elsewhere. Activity has been slower than desired during this initial period but we will have a lot more to report on in this next report.
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	The trustees have had continued regard for this guidance.

Achievements and Performance

	SORP reference	
Summary of the main achievements of the charity, identifying the difference the charity's work has made to the circumstances of its beneficiaries and any wider benefits to society as a whole.	Para 1.20	Donation generated have been slow but purposeful and an increase on previous years. In this reporting window donations have been made to support our objectives in Uganda and increase access to education, support has also been provided intellectually, and a lot of guidance had been given to organisations around their educational pursuits. This has led to the strengthening of relationships formed and for us to continue to learn more about the context that we are supporting. One key fundraising partner was a local school and through this process students at this school benefitted immensely too. They learned a lot about what it means to be a global citizen and to have a right to an education. There is also a secondary core local partner relationships with have formed now too.

Para 1.20	Donation generated have been slow but purposeful. In this reporting window no donations were made to activities, but support has been provided intellectually, and a lot of guidance had been given to organisations around their educational pursuits. One key fundraising partner was a local school and through this process students at this school benefitted immensely too. They learned a lot about what it means to be a global citizen and to have a right to an education.
