Connie Medical Chair - Activities Summary (2024 - 2025)

During this period, the Connie Medical Chair charity continued progressing the design, development and fundraising for a specialist medical chair intended to improve the wellbeing of children in intensive and palliative care settings.

A major focus has been advancing the product from concept toward prototype stage. Working closely with engineering partners at One/Three (now Heavy Industry), the design moved through regulatory review, block modelling and detailed design phases. Following finalisation of the core structure, prototype manufacturing was initiated, including overseas component production. Although delays occurred due to part amendments and international reprinting requirements, the prototype is now nearing completion, with final adjustments relating to straps and padding ongoing. Specialist advice has been sought from infection control professionals to ensure compliance with clinical hygiene standards, and further consultation with textile manufacturers is underway to finalise safe and durable materials.

Financially, the charity has maintained careful stewardship of resources while investing in prototype development. Over the reporting period, significant design and prototype payments were made, including manufacturing, VAT and import duties. Fundraising activity included church-based collections, a funeral donation, individual gifts, and online giving via the Kindlink platform. The All Saints Christmas Carol Service generated over £1,500, alongside additional individual donations and Gift Aid claims. The current account balance remains stable, reflecting both prudent financial management and targeted expenditure on development milestones.

Governance and infrastructure have also progressed. The charity continued to operate its Kindlink donation and Gift Aid systems and secured Google Non-Profit status, enabling access to digital tools and potential advertising grants to support future fundraising campaigns. Trustee engagement and engineering support remain active, with discussions ongoing regarding formal trustee appointments and freelance technical support.

Looking ahead, priorities include finalising the prototype (including straps and seat padding), engaging hospital stakeholders for feedback, and launching a more focused fundraising campaign supported by community events and digital promotion. Potential fundraising opportunities include church events, a pub fundraiser, and participation in sponsored events.

Overall, despite personal commitments and some manufacturing delays, steady progress has been made toward delivering a clinically informed prototype and strengthening the charity's fundraising and operational foundations.

Charity Objectives

“To relieve sickness and to preserve the health of children in the United Kingdom by developing and assisting in the provision of equipment, not normally available by the statutory authorities”

Summary of main activities undertaken during the year

Key activities included:

- **Engagement with Hospitals:** Consultations were held with staff from Evelina, Brighton, and Bristol Children's Hospitals and local children's hospices to gather clinical feedback and improve the design. Modifications were made in response to suggestions from occupational therapists, physiotherapists, and play therapists to ensure that the

chair met real-world needs. Discussions were held with infection control specialist on suitable processes for the cleaning of the product and the most appropriate materials to use.

- **Product Development:** Iterative improvements were made to the chair, including removable arm supports, sliding backrests, and enhancements for cleaning and safety. The design progressed significantly toward manufacturability with input from engineers and design firms such as Plastech and One/Three.
- **Appointment of Principal Designer & Clinical Consultation** The charity agreed to appoint One/Three as principal product designer to move the original prototype to the next iteration of design. The charity also engaged the services of Patient Guard to help explore the medical regulatory framework for the product.
- **Charity Registration and Governance:** The charity was formally registered in March 2023 following detailed discussions with the Charity Commission about the structure, intellectual property, and benefit arrangements. Trustees were recruited to meet its constitutional requirements and strengthen the governance of the charities activities.
- **Fundraising and Public Engagement:** A successful promotional video campaign was launched, raising over £3,500. Events such as the Edenbridge and Oxted Show, school fundraisers, and community presentations helped raise awareness and additional funds. Applications for grants and donations were submitted, including to Awards for All and local community groups.
- **Outreach and Testimony:** The founder gave talks at churches, community groups and schools, sharing the story behind the product and the family journey that inspired it. He appeared on public radio at Sussex and Ashdown to promote the charity.
- **Platform and Admin Setup:** The KindLink donation platform was implemented to streamline giving and Gift Aid claims.
- **Volunteer and Team Support:** Efforts were made to recruit additional volunteers for social media, fundraising letters, and administrative work, and a professional engineer was found to advise informally.

Public benefit explanation

The charity exists to improve the lives of children with complex medical and mobility needs by developing and distributing the Connie Medical Chair to paediatric intensive care units (PICU), paediatric high dependency units and children's hospices across the United Kingdom. Through close collaboration with hospital staff, engineers, and families, we aim to

provide a product that enhances comfort, accessibility, and quality of life of children in intensive and hospice care.

We ensure public benefit by making the product available to hospitals and institutions serving children across the UK, regardless of background. Our fundraising, design improvements, and awareness campaigns directly support this charitable aim. The trustees have had regard to the Charity Commission's guidance on public benefit in shaping the charity's activities.

Achievements

During the 2023-24 financial year, the Connie Medical Chair charity achieved the following:

- Successful delivery of an initial prototype, followed by the testing of the prototype at a local nursery.
- Awareness and fundraising gained through donations online and through community groups fundraising e.g. Bethany School, Knitting Bees Group.
- Increased awareness through radio broadcasts including Ashdown Radio, Sussex Radio, Nicky Campbell phone-in on BBC Radio Five Live.
- Established online website and kindlink platform for donations.
- Gained positive feedback from families and clinicians on design and the need.
- Undertook paper summary on the rehabilitation and impact of product.
- Engaged services in primary product developer and regulatory consultant.
- Began development of second prototype towards manufacturing potential.

Financial Review

- The charity received £22,292 in donations and grants with £1,657 in gift aid, totalling £23,949 total income.
- The charity expenses were £21,026, which left a surplus of £2,923 as at 30 June 2024
- A significant cost was spent on
 - the initial prototype work, totaling £7,947.73 and
 - developing the stage 2 design, totaling £11,028
- Volunteer expenses were kept to a minimal £204.53, to focus the maximum benefit on the development of the product.

Plans for the Future

The charity intends to spend any additional funds raised during the next financial year to complete the development of a second prototype, which incorporates feedback on the first prototype. Further testing will then be carried out in order to further develop the design towards a final manufacturing production unit.

The charity will further seek to raise its profile through a range of activities that includes:

- securing additional funding through donation and application to grant making organisations;
- raising awareness on the need for the product in hospital and hospice environments,
- seeking further clinical feedback on the design and use of the chair through the use of the second prototype that is currently in development, and
- developing and building further conversations with partner agencies, parents, and medical staff.

Planned activities

To support these plans, the charity aims to carry out the following activities:

- Local fundraising, pursuing grants and developing and implementing crowdsourcing opportunities.
- Hospital visits with the prototype to review the product with parents and medical staff.
- Testing of the prototype in childcare contexts.
- Further iteration of the design.
- Documenting design development and evidence of feedback to meet the Chair's regulatory requirements, with support from PatientGuard.

Statement of Trustees' Responsibilities

Confirmation of responsibility for accounting records, report preparation, and compliance with Charities Act 2011:

The trustees are responsible for preparing the Trustees' Annual Report and the financial statements in accordance with applicable law and the Charity's governing document.

The law applicable to charities in England and Wales requires the trustees to:

- Ensure proper accounting records are kept;

- Prepare an annual report and accounts which properly present the charity's activities and financial position;
- Safeguard the assets of the charity and apply them in accordance with the charity's purposes;
- Take reasonable steps for the prevention and detection of fraud and other irregularities.

The trustees have had due regard to the guidance issued by the Charity Commission on public benefit in deciding what activities the charity should undertake.

INDEPENDENT EXAMINERS REPORT

BASIS OF INDEPENDENT EXAMINERS STATEMENT

My examination is carried out in accordance with the Regulations. An examination includes a review of the accounting records kept by Connie Medical Chair and a comparison of the accounts presented with those records.

The procedures undertaken do not provide all the evidence that would be required in an audit and consequently I do not express an audit opinion on the view given by the accounts. I do not accept responsibility to anyone other than Connie Medical Chair members as a body, for my work and this report.

Independent Examiners Report:

In connection with my examination, no matters has come to my attention:

- (1) which gives me reasonable cause to believe that in any material respect, the requirements to:
 - (a) to keep accounting records in accordance with the Regulations, and
 - (b) to prepare accounts which agree with the accounting records and comply with the Regulations have not been met, or
- (2) to which, in my opinion, attention should be drawn in order to enable a proper understanding of the accounts to be reached.

C Somerville (MICB PM.Dip)
