Para 1.17 and 1.19	During the year, The Audiom Project liaised with students to understand their needs and the challenges they face in accessing financial and professional support. This feedback helped us refine our grant application process to better align with their requirements and ensure our support has the greatest impact, to improve accessibility, we collaborated with a website developer to modify our online platform. The website once launched will feature an interactive grant application process and additional resources to guide students in their journey. These efforts reflect our ongoing commitment to empowering the next generation of audiology professionals and fostering innovation in the field.
