Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

The Objects of the CIO are the relief of poverty among children in the UK and Africa for the public benefit through the provision of grants to enable access to education, healthcare, basic needs such as food and clothing, and to enable them to participate in healthy recreational activities that they would otherwise be unable to afford.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The organisation operates practically by relying on voluntary donations from individuals or other non-profit organisations that share the same ideas. The organisation will continue to advertise and promote its vision to expand the charity's reach and awareness among potential donors. More so, the Foundation will display fliers in places that parents and young children are likely to visit frequently such as Local Community Centres, churches, mosques etc. Also, the foundation will prepare an information pack, letter, or leaflet to introduce or promote the club by asking the local school to give it out to any new parents.

The Love Foundation believes that every child is special, each with their unique gifting and qualities. Hence, the Foundation will give more attention to local schools in Nigeria, since after-school club form part of the Government's extended school agenda in the UK. However, we notice that even in the UK there are times where some children want to engage or learn some skills such as ballet, musical instruments, but the parents are unable to pay the cost of learning. Therefore, Love Foundation will support such children by providing the financial support they need so that they can maximise their potentials.

Furthermore, Love Foundation will carefully develop program for holistic and interactive learning environment to support the disadvantage communities in Nigeria where every child can learn and grow through engaging in different after-school clubs such as musical instruments training, ballet classes. The Foundation will provide financial support for volunteers or local charity and schools to carry this project out.

In promoting the project, after-school club, the foundation will approach and speak local schools within the target communities for opportunity to introduce the club at one of the school parent-teacher meetings/assembly and distribute fliers. If allow will create stand at the school fair or parent's evening where people can be enlightened and educated of the benefits of the after-school clubs at no cost.

Summary of the main achievements of the charity during the year

The trustees recognise that these are difficult to measure but believe that 2023/24 was a positive year for Love Foundation, being able to support a family struggling financially after having a baby. Though, the voluntary contributions received was not in any close to what we expect but the little received was used in making positive impact in supporting a child with basic needs.

This is a sign that the charity has made a huge impact in the lives of family within the community bringing in so many hopes at these unprecedented times.
