COLLECTIVE CHURCH

TRUSTEES REPORT for the period ended 31st August 2024

The trustees are pleased to present their annual report and financial statements of the charity for the period ended 31 August 2024.

Objectives and Activities

The main objectives of the charity are to advance the Christian faith through worship, prayer and Christian teaching in York or other areas as the Trustees think fit.

In planning the activities of the charity, the trustees have considered the Charity Commission's guidance on public benefit and, in particular, the specific guidance on charities for the advancement of religion.

The Charities activities of advancement of the Christian faith through worship, prayer and Christian teaching are available to the people in York and the wider area to make a positive contribution to the local and wider community.

Achievements and Performance

Collective Church is a growing church in York with around 120 people and a vision to become a multiplying movement of disciples and churches across the city. Our mission is to help people live and share life with Jesus at the centre.

In 2023–24, we saw encouraging growth in both size and spiritual depth. We continue to reach a wide range of people in the city, including families, young professionals, and older adults. A major area of growth this year has been among students. Around 50 students now regularly engage with Collective, with many exploring faith for the first time. Our student Alpha courses and wider outreach events have led to several students coming to faith and being baptised.

We remain rooted in our values—authentic community, gospel-centred living, and mission to the city—and actively contribute to the Taking Ground vision through discipleship, leadership development, and evangelism.

Financial Review

The major risks facing the Charity are:

- High inflation and increase in core costs due to high inflation, employer costs and energy costs.
- A reduction or withdrawal of gift aid if government policy changes.
- Significant drop in tithes and gifts; and
- Significant unforeseen expenditure, likely to be related to property.

The Charity manages these risks by regularly reviewing income levels and expenditure levels, cash reserves and providing ongoing maintenance of the site and property, ensuring the property is maintained to a high standard.

The Charity aims to maintain cash reserves at levels that would cover any unforeseen expenditure and loss of income to enable it to continue whilst formulating an alternative financial strategy.

Financial summary

During the financial year, the charity generated a total income of £63,423, representing a positive growth driven largely by an increase in regular donations from our loyal members. This steady support highlights the strong connection our community has with the charity's work.

Total expenditure for the year was £58,079, which was slightly above budget by 1%. This modest overspend was mainly due to an overspend on one of our outreach programs, and was carefully monitored to ensure continued value for money.

Our income sources this year included:

- Regular donations: £50,634
- One-off gifts: £3,072
- Gift Aid: £9,717

Expenditure was primarily allocated to:

- Staff/Leadership: £36,625
- Operations: £12,443
- Discipleship: £4,423
- Mission: £4,588

At the end of the year, the charity held reserves of £39,688, in line with our reserves policy. This strong financial position enables us to confidently continue delivering our services, respond to emerging needs, and invest in future growth.

Looking forward, the charity remains committed to increasing income sustainably, managing expenditure prudently, and maximising the impact of every pound raised in pursuit of our mission.

Reserves Policy

The Trustees have set a reserves policy which requires maintaining free unrestricted cash balances in the general fund amounting to 3 months of its annual expenditure.

Reserves should be maintained at this level which ensures that the charity's core activity could continue during a period of unforeseen difficulty. The reserves should be maintained in an easily accessible form.

The calculation of the required level of reserves is an integral part of the organisation's annual planning, budget and forecast cycle.

It takes into account risks associated with each stream of income and expenditure being different from that budgeted, planned activity level, the Church's commitments to its stakeholders, future spending plans and expected liabilities and anticipated building costs. It also reflects as far as possible the current economic climate and trends.

Risk management

The Trustees have a duty to identify and review the risks which the Charity is exposed to. To enable the Trustees to manage risks we have systems of internal control to protect and mitigate against any reasonably foreseeable risk.

The control systems include:

- Annual forecasting and budgeting setting, approved by the Trustees.
- Regular Trustee meetings where financial reports are reviewed.
- Risk assessments.
- Delegation of duties.

We regularly review the main risks faced by the Charity and the main risks that have been identified are finance, safeguarding, health and safety, building maintenance and security.

We also use a variety of people from either within our partners at Taking Ground or external third parties to provide advice and guidance on the relevant areas of risk. We use people with expertise in the different areas of risk to provide specialist and expert advice.

We believe that the internal financial controls comply with the relevant Charity Commission guidance.
