Fair value of assets and liabilities

25.1 Please provide details of the charity's exposure to credit risk (the risk of incurring a loss due to a debtor not paying what is owed) , liquidity risk (the risk of not being able to meet short term financial demands) and market risk (the risk that the value of an investment will fall due to changes in the market) arising from financial instruments to which the charity is exposed at the end of the reporting period and explain how the charity manages those risks.

The exposure to credit risk is NIL for Cambrbridge Hindu Forum. The charity'e expenses are mostly on cash and carry and only credit payments are those of hall hire on the odd occassions for last minute bookings. Due to CHF's prompt payment history the charity ends up getting support from local schools who open up the premises on some weekends for CHF and the payments are made shortly the week after when the admin staff return to work. The only exception is during school holidays where sometimes the payments are processed after the school reopens and payments are settled for use of premises.

25.2 Please give details of the amount of change in the fair value of basic financial instruments (debtors, creditors, investments (see section 11, FRS 102 SORP)) measured at fair value through the SoFA that is attributable to changes in credit risk.
