## **Trustees' Report**

The trustees present their report and accounts for the year ended **3 October 2024**.

### **Charity Overview and Activities**

Save a Child Foundation is a **community-driven charity** dedicated to **improving the lives of children and young people with disabilities or special needs, as well as supporting their families and carers**. The organisation provides a range of services aimed at **reducing isolation, promoting inclusion, and ensuring that families receive the guidance and assistance they need to navigate the challenges of raising children with disabilities**.

Throughout the year, the charity has engaged in **several key activities**, including:

- **Information and Advice Services** – Offering guidance to parents and carers on accessing essential resources and support.
- **Peer Support and Community Engagement** – Facilitating connections between families through meet-ups, discussion groups, and online platforms.
- **Workshops and Training Sessions** – Providing educational sessions on disability awareness, advocacy, and practical caregiving strategies.
- **Awareness Campaigns** – Promoting understanding and acceptance of children with disabilities within diverse communities, particularly where stigma remains a barrier to seeking support.
- **Referral and Signposting Services** – Connecting families with counselling, therapeutic services, and professional support networks.

### **Community Engagement**

Save a Child Foundation was **founded by a mother of two children with disabilities**, who faced significant challenges in navigating the **complex support systems** available for children with special needs. This personal experience, combined with extensive training and community involvement—including membership in the **Autistic Society**—led to the

establishment of a **strong peer support network** for families in the **Royal Borough of Greenwich and neighbouring boroughs**.

To ensure the charity remains **responsive to community needs**, engagement efforts have included:

- **A dedicated WhatsApp group**, where families share information and experiences.
- **Regular community meetings**, providing a safe space for discussion and emotional support.
- **Consultation with families**, highlighting key gaps in available services, particularly within African communities, where stigma around disabilities often prevents parents from seeking help.
