Summary of the purposes of the charity as set out in its governing document	Para 1.17	For the public benefit to promote the conservation, protection and improvement of the physical and natural environment in Islington and surrounding boroughs. We do this by engaging with the community to respond to the decline in the environment and climate and to encourage behavioural change and positive action through education, training, exhibitions, discussions/advice, workshops and creative activities
Summary of the main activities in relation to those purposes for the public benefit, in particular, the activities, projects or services identified in the accounts.	Para 1.17 and 1.19	Run by a team of residents, the Centre is community-led, inclusive, and inspired by local action. We work to address ecological and climate breakdown both within our borough and beyond. Public education is central to our work. We offer six core workshops that help people understand how greenhouse gases are affecting weather patterns and biodiversity. Our flagship Climate Fresk workshop explains climate change and empowers attendees to take meaningful action. We also run repair sessions for electronics and textiles, and creative printing workshops to reconnect people with making and each other. We arrange and host multiple other events for the community, including art exhibitions and film evenings.
Statement confirming whether the trustees have had regard to the guidance issued by the Charity Commission on public benefit	Para 1.18	We can confirm.
