Section C Objectives and activities

Summary of the objects of the charity set out in its governing document

For the public benefit to relieve those in need by reason of disability living in rural areas of Casamance (The South of Senegal, West Africa) through the provision of fixed frame active wheelchairs.

Summary of the main activities undertaken for the public benefit in relation to these objects (include within this section the statutory declaration that trustees have had regard to the guidance issued by the Charity Commission on public benefit)

The main activities that were undertaken involved grassroots fundraising to procure funds for purchase and then delivery of 41 Wheelchairs to disabled people in Casamance, Senegal and Gambia.

Social media was also used to build awareness of the project and expand its reach.

Specific training for sharing Wheelchair Skills was undertaken and also research focusing on the area and the individuals receiving chairs.

Training in chair assembly and maintenance was provided as well as ongoing support via WhatsApp Groups aimed to create a sense of community for wheelchair users.

The trustees have had regard to the guidance issued by the Charity Commission on public benefit.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- policy on grantmaking;
- policy programme related investment;
- contribution made by volunteers.

Summary of the main achievements of the charity during the year

A small team delivered 40 Participant Life 'Wildebbeest' chairs over Summer 2025. Participant Life are an American B Corp whose focus is creating affordable, durable and high-quality chairs which are accessible to everyone. We feel it makes complete sense for us to be working with a company with such similar goals and who has experience providing wheelchairs to low middle income countries. We used their all-terrain chair which is customisable to the user, easily maintained with popular bike and motorcycle parts and designed with use outdoors in mind - a perfect fit for our mission in Senegal.

Although the Monsoon Season did complicate things slightly we didn't let it stop us – we organised six days across Senegal and Gambia where we gathered together our recipients from each area. We tailored the wheelchairs to their specific needs and measurements, ate together and discussed the future direction of 'Diam Rek'. For our recipients who weren't able to make it we delivered their wheelchair to them at home instead.

One of our biggest goals this year was establishing a network of trusted individuals who were interested in taking a leading role in the charity and this has been one of the greatest successes of the project so far. We currently have responsible team members in each area we are operating, several of who are members of the local disability community. This means that research and selection of recipients in the future will be far more practical and can be organised remotely. In addition to this having a member of the local community organising the selection very much aligns with our ethos of 'Diam Rek' being led by the individuals it serves.

Although we worked in partnership with local Disability Organisations (particularly in regards to our distribution days which were ran from various 'Centre de Handicapes') it is our belief that the most pragmatic and objective selection process takes place on an individual basis. In order to achieve an unbiased selection of those most in need we visited each of our potential recipients at their home and performed an assessment. This was preferable to delivering the chairs directly to a Disability Association or leaving the selection in their hands; which can often lead to wheelchairs not being distributed fairly, internal strife within the Association and sometimes even chairs being sold instead of donated.

Due to the many shipping and logistics delays we experienced we have been forced to postpone our Surf Camp until after this year's Monsoon Season. We have a three day camp planned in Cap Skirring, Casamance for some of our recipients and members of the local disability community.

The main focus is providing a platform for workshops ran by members of the Diam Rek team and the local community in which skills are shared (we are looking forward to partnering with the Wave Project Bristol for some of these activities). Some of these will include physical activities (such as surfing and yoga), wheelchair skills, wheelchair maintenance and mindfulness. The idea behind this is to promote the opportunity for growth and resilience and to develop personal goals by working outside of individuals comfort zones.

I report to the trustees on my examination of the accounts of the above charity ("the Trust") for the year ended 31/03/2025.

**Responsibilities and
basis of report**

As the charity trustees of the Trust, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the Trust's accounts carried out under section 145 of the 2011 Act and in carrying out my examination, I have followed the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

**Independent
examiner's statement**

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination which gives me cause to believe that in, any material respect:

- accounting records were not kept in accordance with section 130 of the Act or
- the accounts do not accord with the accounting records

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in order to enable a proper understanding of the accounts to be reached.
