Cornish Views Education Foundation exists to promote education and improve access to safe learning environments for children in underserved communities, with an initial focus on Brazzaville, Republic of the Congo.

Activities in 2024

2024 marked our first full year as a registered charity. As such, our focus was on building strong foundations for long-term impact. Key activities included:

Partnership Development: we established meaningful relationships with several schools in Brazzaville. This groundwork will enable future collaboration in infrastructure improvements and learning initiatives.

Infrastructure Planning: at one partner school, we commissioned architectural designs for urgently needed new toilet facilities to address sanitation issues.

Digital Infrastructure: We launched our website and began building our presence on social media and fundraising media such as JustGiving to raise awareness and engage with supporters.
