Trustees Annual Report Year Ended 31 st March 2025

The Trustees who served the nonregistered charity during the period were as follows:
Hafeez Firoz, Raifi Jawfer, Salman Khan, Haroun Ali

Public Benefits Statement and objectives and activities

As a new non-registered charity, we have struggled to find resources and funds to support our mission and continue our work. We are looking for a community center in the Queensway area to provide facilities for our daily prayers and prayers of special occasions in accordance with our Islamic faith.

Our goal is to alleviate isolation, inactivity, sedentary lifestyle, and poverty in order to improve the quality of life, mental health, and general well-being of the Wellingborough Community.

Achievements and performance

We are an active community center that offers sporting activities such as badminton and archery. We have sessions for all ages and genders, and the number of participants is growing, which shows that our community is interested in being socially and physically active.

Unfortunately, we have struggled to find support from the government and registered organizations. We have been struggling for the past few years to maintain the cost of our events. Our volunteers support this cause financially, even though they are already volunteering their time. We need assistance to keep our sporting activities going and to create more opportunities for other sporting activities, such as football, cricket, and wrestling.

Our ultimate goal is to have an active community with healthy people. This activity could be in the form of knowledge, prayer, or sporting activity.

Financial review

The income is generated from donations collected from Muslim community. The incoming resources are detailed and expanded upon in the financial statements.
