

Director's Update on Yearly Accounts for Gospel Network

Since the charity's establishment and registration with the Charity Commission, there have been no activities to report for this financial year. The primary reason is that we are still in the process of resolving the legal deeds for our church building—a process that has now taken nearly two years. Until the deeds are finalised, the charity will remain inactive, with no operational activities or financial transactions.

Consequently, there has been no income or expenditure during this period. The accounts for this year, therefore, reflect a zero balance, with no funds coming in or going out.
