- ☐ Policies and procedures adopted for the induction and training of trustees
- ☐ The charity's organisational structure and any wider network with which the charity works
- ☐ Relationship with any related parties
- ☐ Trustees' consideration of major risks and the system and procedures to manage them

--

Objectives and activities

Summary of the objects of the charity set out in its governing document

To provide opportunities for learners to explore and understand space science (including astronomy and astrophysics) through the lens of problems that can be solved through the application of advanced statistical techniques.

Summary of the main activities undertaken for the public benefit in relation to these objects

Globally, the Charity organises an annual international data competition to encourage the development of innovative solutions for challenges faced by the space science community. These data challenges provide a platform for participants to field test their skill set, and thereby fostering skill development.

The charity also hosts local workshops and hackathons, targeting students, researchers, professionals, and amateurs. These workshops are delivered in terms of hands-on training, informative sessions, and interactive discussions.

Through these initiatives, the organisation aims to inspire participants with the latest developments in space science and raise public awareness of the subject. By offering opportunities for learning, skill development, and engagement, the organization contributes to the advancement of education in the field of AI and space science on both a global and local scale.

Additional details of objectives and activities (Optional information)

You **may choose** to include further statements, where relevant, about:

- Policy on grantmaking
- Policy programme related investment
- Contribution made by Volunteers

Achievements and performance

Summary of the main achievements of the charity during the year.

Since becoming constituted as a CIO in 2024, PlanetAI has held two large scale global Data Challenges in collaboration with Kaggle, a data competition platform held by Google.

In both the 2024 and 2025 Data Challenges, PlanetAI were responsible for formulating the problem, developing the materials and data required for the challenge, and providing necessary guidance, knowledge, and support to participants both in advance and throughout the duration of the challenge.

Kaggle provided the platform and necessary storage space on which to host the challenge, global promotional support to ensure the widest reach possible, and \$50,000 as a prize pool to be passed directly to competition winners. No funding from Kaggle passed through the PlanetAI bank account, nor handled by trustees – the donated prize money passed directly from Kaggle, to winning participants.

The Ariel Data Challenge 2024 was held over the three month period of August 1st – October 31st 2024.

This challenge saw:

- **6,951 registrations;**
- **with 1,414 active participants;**
- **from 75 countries;**
- **contributing 23,024 submissions;**
- **averaging more than 200 submissions per day.**

The winning team presented their solution at prestigious machine learning conference, NeurIPS, held December 10th – 15th 2024

The Ariel Data Challenge 2025 was prepared and organised in the first quarter of 2025, to be held between June 26th – September 30th 2025.

Financial review

Brief statement of the charity's policy on reserves

The charity operates with minimal reserves, reflecting its low-cost operating model and reliance on trustee time given voluntarily. The trustees keep this under review and will build reserves as income allows, particularly before committing to activities with associated costs

Details of any funds materially in deficit

Not Applicable

Further financial review details: (Optional information)

You **may choose** to include additional information, where relevant about:

- The charity's principal source of funds (including any fundraising).
- How expenditure has supported the key objectives of the charity.
- Investment policy and objectives including any ethical investment policy adopted.

Other optional information

Declaration

The trustees declare that they have approved the trustees' report above.

Signed on behalf of the charity's trustees
