

Trustees Report for period ended 6th August 2025

During this period the charity received a grant of £5200.00 towards refurbishment and repairs to the building which it uses for it's activities.

Because the building was deemed to be an electrical hazard, the funds received would be used after the period end to have a rewire on the whole premises.

The charity utilised other free venues to create events for the general public so that awareness would grow in the area.
