REFERENCE AND ADMINISTRATIVE DETAILS

The charity was founded in 1902 and is registered with the Charity Commission under charity number 231508 (England and Wales). The reference and administrative details of the Charity are shown on page 1 of the Financial Statements above.

STRUCTURE, GOVERNANCE AND MANAGEMENT

Constitution

The Royal Economic Society is constituted by a Royal Charter of Incorporation dated 2 December 1902 as amended by a supplemental charter dated 26 January 1968 and byelaws as made in General Meetings of the Society from time to time, subject to the consent of the Privy Council. There are no specific restrictions imposed by the governing document.

The byelaws of the Society were revised by order of the Privy Council made on 19 July 2022 and taking immediate effect.

Appointment of Trustees

The Royal Economic Society Trustee Board comprises the President, President-Elect, Honorary Treasurer, Chair of Trustees, three representatives from Council and up to five trustees co-opted by Council on a proposal from the Trustee Board. The Trustee Board currently meets three times a year.

The trustees are legally responsible for the overall governance, management and policies of the Society, ensuring that the charitable objects for which it has been set up are met. All new members of the Trustee Board receive the Charity Commission's information on the responsibilities of Charity Trustees. Trustee Board members receive a briefing and induction pack on appointment, with further training undertaken on as required.

Since May 2017, the day-to-day running of the Society is delegated by the Trustee Board to the Chief Executive, who reports to the Chair of Trustees.

Members of the Council, which appoints some Trustee Board members as explained above, are nominated by members of the Society and considered by the Nominations Committee. The Nominations Committee comprises six elected members of Council (each of whom serves three years on the committee), the President-Elect and two Additional Members, with the Elections Officer acting as non-voting secretary. The Additional Members are either Life Vice-Presidents of the Society or individuals of high standing in the profession. The Nominations Committee draws up a list of candidates who are voted upon by the members of the Society to become members of Council for a term of five years. The Presidents Selection Committee, which nominates the incoming RES President-Elect, comprises all members of the Nominations Committee excluding the incumbent President-Elect.

Public Benefit

The trustees confirm that they have complied with the duties in Section 17(5) of the Charities Act 2011 to have due regard to the Charity Commission's general guidance on public benefit. The trustees have referred to the guidance in the Charity Commission's general guidance on public benefit when reviewing the aims and objectives of the Society and in planning its future activities. In particular, the trustees consider how planned activities will contribute to the aims and objectives they have set.

Management and administration

In 2017 the Society relocated its office headquarters from the University of St Andrews to Westminster, London, and

THE ROYAL ECONOMIC SOCIETY

appointed its first directly employed staff.

Key management personnel remuneration

The Trustee Board (through its Remuneration Committee) reviews annually the pay of the Chief Executive. In view of the nature of the Society, the remuneration is also benchmarked with similar charities or with reference to sector reports to ensure that the remuneration set is fair and not out of line with that generally paid for similar roles. The Remuneration Committee also considers and makes recommendations to the Trustee Board for annual review of all employees' salaries.

Principal risks and uncertainties

The trustees have given consideration to the Society's major risks and satisfied themselves that systems or procedures are established in order to manage and mitigate those risks to the level that the Society deems appropriate.

During the year, the key risks that might impact on the Society's objectives and the internal procedures have been kept under review and a risk register is in place. This identifies external and internal risks. It is consistent with the guidance published by the Charity Commission in its guidance on risk management (CC26). The Trustee Board has reviewed and approved changes to the risk register and risk ratings therein.

In line with Charity Commission guidance, the risk register identifies the key categories of risk relating to governance, finance and operations.

a) Governance Risks

Proposals to update the Society's governance arrangements were approved at the Society's Annual General Meeting in 2021, with the main changes in place by the end of that year. The effectiveness of the new arrangements will be regularly reviewed.

b) Financial Risks

The fact that finance is a standing item of business for meetings of the Trustee Board and Council ensures that the appropriate financial information is regularly scrutinised. The Society's investments are held in a variety of unit trusts in order to minimise systematic risk and the investment policy is reviewed against performance at least every three years. Internal risks are minimised by the implementation of procedures for authorisation of all projects and financial transactions. A Finance Committee is in place, chaired by the Treasurer. This committee is charged with making recommendations to the Trustee Board on the Society's reserves and investment policies, advising the Treasurer on working capital requirements and reviewing the appointments of auditors and making recommendations to the Annual General Meeting.

c) Operational Risks

As the agent for the Trustee Board, the Chief Executive (working with the Chair of Trustees) has the responsibility for maintaining a sound system of internal control that supports the achievement of the Society's aims and objectives, whilst safeguarding its assets and ensuring proper application of its income to its charitable objects. The system of internal control is designed to manage risk to a reasonable level rather than eliminate all risk of failure to achieve aims and objectives. It can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Society's aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically. The system of internal control has been in place for the year ended 31 December 2023 and up to the date of approval of the annual report and accounts.

The Trustee Board has considered the major risks facing the Society in 2024 and the medium term and remains focussed on the challenges that arise for longer-term financial sustainability from changes in the academic publishing market. The principal risks have been identified as follows:

- The risks that will arise in the medium term from not being able to fund current expenditures from strong journal incomes or historic reserves.
- Limited staff and committee expertise in fundraising and income generation.
- Maintaining and developing member recruitment, engagement and retention for individual, corporate and group

THE ROYAL ECONOMIC SOCIETY

members.

- Managing pricing and costs to balance the effects of inflation and cost-of-living for members, customers and staff with financial sustainability.
- The effectiveness of governance structure, processes and impact measures to ensure optimal delivery of charitable benefit.
- Limited historic focus on dimensions of inclusion and diversity other than gender, including ethnicity, class, disability and potential risks related to accessibility of premises, website and social media.

These risks have and will be mitigated as follows:

- The development of a new strategy for 2024 and beyond that addresses these strategic risks.
- The development of a medium-term financial strategy and associated budgetary processes.
- The appointment of a Commercial Director to oversee improvements to member recruitment and retention
- The development of an Income Generation plan comprising initiatives to diversify the Society's income in ways which align with the Society's strategic and charitable aims
- Ongoing reviews of governance effectiveness
- The commitment to address other dimensions of inclusion and diversity outlined in the new strategy, and the appointment of a co-opted trustee to oversee this work

Volunteers

The Society could not achieve its charitable objectives without the commitment and hard work of its volunteers, both Members and non-Members, many of whom give freely of their time to act as journal reviewers, committee members and volunteers to support our events and activities. The Society wishes to thank all those who have supported it over the last year.

Annual General Meeting

The Annual General Meeting was held online from 24-26 May 2023 with 35 members taking part (2022: 61). Amongst other decisions, members agreed to elect the Presidents and Councillors for the forthcoming year and to appoint Prof Sir Anton Muscatelli as Chair of Trustees.

OBJECTIVES AND ACTIVITIES

Objects

The Royal Economic Society is established to promote and foster the study of economic science. The Society is also concerned with the application of the results of that study.

These objects are undertaken by means of publications, the Annual Conference, Postgraduate Conferences and helping to further the study of economics via free Public Lectures, a programme of various Grants and Projects, and an annual essay competition for Young Economists focused on schools.

The Trustee Board confirm that they have complied with the duty in section 17 of the Charities Act 2011, to have due regard to the Charity Commission's general guidance on public benefit. The Trustee Board believes that social welfare is advanced by promoting and fostering the study of economic science, and that its activities serve to educate the public, and particularly that section of the public that is interested in issues of economic policy. The results of the economic research that the Society supports are widely disseminated through its publications. Although the benefits of the Society's work are not restricted to its members, the subscription is deliberately set at a low level to encourage a broad base of membership, including those on lower incomes.

Strategy

2023 was the final year for the Society's strategy for the period 2019-2023. The strategy set out four key priorities as follows:

- Enhancing the credibility and visibility of economics
- Supporting economists
- Improving diversity
- Working effectively.

THE ROYAL ECONOMIC SOCIETY

The Society continued to measure its achievements against these priorities, with many of its activities delivering on more than one priority.

In early 2023 a working group was formed, chaired by the President Prof Mary Morgan, to oversee the process of developing a new strategy for the period 2024-2028. The working group reflected on the achievements and challenges of the previous period, identified new opportunities and risks and that had emerged in the past years, and considered the Society's place in the ecosystem of cognate organisations. The Society's Trustee Board, Council and staff were actively involved in the ideation and review process. This process was helped immeasurably by the membership's excellent response to a consultation on the draft strategy issued during the year, with over 330 responses containing thoughtful suggestions and feedback. Separately the Society also engaged some of its organisational partners for their views. The overwhelmingly positive response to the consultation allowed the working group, Trustee Board and Council to finesse the draft strategy, which with certain modifications was approved and published in the autumn of 2023.

Building on the previous strategy, the 2024-2028 strategy has four strategic priorities:

- Bring communities of economists together
- Advocate for economics
- Improve diversity, inclusion and integrity in the profession
- Develop the next generation of economists

Underpinning these priorities are four success factors which will help the organisation to achieve its priorities:

- Membership
- People
- Infrastructure
- Stewardship

For the first time, the Society also published 5 core values that drive its work:

- Excellence
- Collaborative
- Inclusive
- Transparent
- Sustainable

Activities to Achieve Objectives

The Society meets its objects by undertaking the following activities.

1. Membership

The Society has a membership scheme whereby anyone who is interested in the study of economics can join and receive the various benefits of membership.

2. Publications

The Society has two peer-reviewed journals, The Economic Journal and The Econometrics Journal. Publication of the journals transitioned to Oxford University Press at the beginning of 2019. Members of the Society can pay a higher fee to receive printed copies of The Economic Journal; members may also choose to receive a printed quarterly newsletter. Increasingly, timely information of interest to members and the general public is provided via the Society's website and social media channels. On-line access to The Economic Journal and The Econometrics Journal is available and is heavily used.

In addition, the Society has a commitment to publishing scholarly editions of classic works in economics. Its editions of the works of Ricardo, Malthus, Marshall, Edgeworth, and Keynes (also now available through online subscription) set an international standard in these matters.

THE ROYAL ECONOMIC SOCIETY

3. **Conferences, education and training**

The Society organises several educational events during the year, subsidised primarily from the surplus generated by publication of the Economic Journal. The largest of these is the Annual Conference, which rotates around UK universities and is held around Eastertime. A one-day PhD Conference takes place annually, organised by a committee of PhD students. The RES Easter School, funded jointly with the Economic and Social Research Council, provides advanced training for doctoral students and early career professional economists. In recent times the Society has expanded its offering to provide online seminars to members and potential members.

CHUDE (Conference of Heads of University Departments of Economics) comprises Heads of Economics at universities in the UK. Its ultimate purpose is the promotion of research and teaching of economics, and more generally of the significance and importance of economics, in the UK. Bi-annual meetings offer a forum for discussion of issues of interest.

4. **Grant funding of activities**

Members are eligible to apply for a range of grants; these schemes are outlined in note 7 to the accounts. The postgraduate conference grant schemes provide support for individuals of limited means to meet the costs of attending these events.

5. **Outreach**

The RES conducts activities to improve the public understanding of economics and to promote the subject to school-age young people. These include an Annual Public Lecture and a Young Economist of the Year competition. The Society also partners with other organisations to this end, such as the annual Festival for Economics. The RES Discover Economics campaign, launched in 2019, seeks to attract more students from underrepresented groups into economics by broadening the appeal of the subject and changing perceptions of economics and economists.

ACHIEVEMENT AND PERFORMANCE

Review of activities

In line with the objects and strategy of the Society the key achievements during the year ended 31 December 2023 were as follows.

Journals

In 2018, Oxford University Press was selected as the Society's journal publisher for a five-year period from January 2019. In 2022 this agreement was renewed for a further five years from January 2024.

The Economic Journal received a total of 1,596 submissions in 2023 (2022: 1,673). 88% of regular submissions that were sent to referees were returned to authors within four months of submission (2022: 87%); 0% of submissions took longer than six months (2022: 0%). The 2022 2-Year Impact Factor (released in June 2023) was 3.2 (2021: 3.721). The Economic Journal continues to be highly international, with 12% of author submissions from the United Kingdom (2022: 15%), 22% from the United States and Canada (2022: 23%), 42% from Europe (2022: 39%) and 24% from the Rest of the World (2022: 23%).

The total number of submissions to The Econometrics Journal was 130 (2022: 134) and the number of accepted papers was 23 (2022: 31). The Journal's JCR year 2022 2-Year Impact Factor was 1.9; this placed it in Quartile 2 in three categories (Mathematics/Interdisciplinary Applications; Social Sciences/Mathematical Methods; and Statistics & Probability) and in Quartile 3 in Economics. Longer run impact measures: 2022 5-Year Impact Factor 3.8 (2021: 4.602) and Article Influence Score: 3.279 (2021: 4.377). The total number of citations in the JCR year was 1,848 marking the ninth consecutive year that citations have increased.

Other publishing activities

A working group convened in 2022 to review opportunities for increasing the number of high quality papers continued its work in 2023. The group concluded that it made more sense to develop strategies to publish more high-quality content in the existing journals, rather than launching a third journal. A recommendation to expand The Economic Journal was approved by the Publications Committee, which was in turn approved by the Trustee Board in late 2023. An announcement will be made in 2024.

THE ROYAL ECONOMIC SOCIETY

In 2012 the Society published with Cambridge University Press the full 30 volumes of the Collected Writings of John Maynard Keynes in digital and paperback editions. Through a 2013 arrangement with the publisher, the Society has since provided the membership with free digital access to this important scholarly resource.

Membership

In November 2021 the RES transitioned to a tiered pricing model for membership. Under the model, those on lower incomes or no income pay a lower fee, while higher-earning members are asked to pay more.

The Society continued to offer group membership in 2023, with 7 departments or other organisations taking up the scheme (2022: 6). The Society launched a member and conference registration bundle, with 257 individuals becoming members through this scheme. The Society's total membership of 3,801 was in line with the previous year (2022: 3,844). The trend for members to opt for online only access to the journals continued, with 98% of members holding an online membership (2022: 98%).

Additionally, in 2023 the Society launched Institutional Membership. By the end of the year 5 organisations – the Bank of England, Compass Lexecon, the Financial Conduct Authority, Frontier Economics and the Government Economic Service – had joined as Institutional Members.

The geographical composition of the membership was largely unchanged, with 46% of members in the UK (2022: 45%), 22% located elsewhere in Europe (2022: 23%), 12% in the United States or Canada (2022: 13%), 1% in Japan (2022: 1%) and 20% in the Rest of the World (2022: 17%).

Newsletter

New editions of the quarterly newsletter are made available to members via the RES website on publication, and to non-members after one month. Members are also sent a digital version of the issue via email. 2023 issues featured a range of topics including the RES Climate Change Summit, an issue honouring Adam Smith's tercentenary, an economic perspective during the reign of HM Queen Elizabeth II and the art and science of communication.

Easter Training School

The 2023 Easter Training School took place on Monday 27 March – Wednesday 29 March and was an in-person event at the University of Bristol.

The Easter School was pleased to host two keynote speakers – Prof. Gabriella Conti and Prof. Eric French, with additional contributions from Dr. Elaine Kelly, Ann Raymond and Prof. Stephanie Von Hinke. Students attending presented papers and posters. 50 applications to attend the School were received (2022: 35); 35 were accepted (2022: 26) and 31 participants attended (2022: 26). All participants rated the event overall as either 'Good' or 'Excellent'.

PhD Conference

The annual RES PhD Conference (formerly the RES Symposium for Junior Researchers) was held at the University of Glasgow on Friday 9 June, with the event hosted and coordinated by students from the university. 160 papers (2022: 174) were submitted with 63 papers (2022: 45) accepted for presentation. The Keynotes were presented by Dr Adam S. Posen and Prof. Herve Moulin. 98% of attendees reported that the event was Excellent/Good.

European Job Market for Economists (EJME)

The 2023 European Job Market for Economists took place online, continuing the partnership between the European Economic Association, the RES, and the Spanish Economic Association. Over 900 candidates and 100 institutions took part. In November the Society again hosted its popular webinar 'How to Prepare for the European Job Market for Economists', which this year was chaired by Prof Caroline Elliott. Approximately 100 individuals joined the live webinar.

TeachECONference2023

The Society continued its support for economics educators by sponsoring a networking session at the TeachECONference2023, an annual virtual conference on economics education.

Professional development

The Education & Training Committee organised the second annual RES summit, which this year was on the topic of inflation

THE ROYAL ECONOMIC SOCIETY

and the credit crisis. Speakers included Assoc Prof Swati Dhingra (London School of Economics and Bank of England), Xiaowei Xu (Institute for Fiscal Studies) and Alfie Stirling (Joseph Rowntree Foundation), with approximately 100 members attending. The event received welcome coverage from Reuters, Bloomberg and The Telegraph.

Grant funding of activities

Society members can apply for grants under the Research Dissemination Grant (RDG), Conference Grant (CG) and the Discover Economics Grant (DE) schemes. The authority to consider applications and award grants under these schemes is delegated to the Education & Training Committee, within financial limits and the overall policy determined by the Trustee Board. The Knowledge Transfer Projects Grant (KTP) programme was discontinued in 2023 following a review of its impact.

The RDG programme received a total of 10 applications, six of these applications were successful with a total funding award of £10,005. The CG programme received 51 applications in 2023, 27 of these were successful with a total funding award of £9,000. The DE Grant programme received a total of 11 applications, 8 applications were successful with a total funding award of £7,800.

Diversity and Women's Committee

The Diversity Champion Prof Stefania Paredes-Fuentes, working closely with the Member Operations Director, continued to deliver the Diversity and Inclusion Programme approved by the Trustee Board. A part-time Programmes Officer was appointed in April 2023 to support these activities. The programme of work has grown significantly and encompasses a range of activities to further diversity, equality and inclusion (DEI) across the Society and the wider discipline. In 2023 this included launching the RES Diversity and Inclusion Network and holding 3 events (2 online, 1 in person); publishing a research report "Who Studies Economics" addressing the lack of diversity in the pipeline; delivering a Consciously Inclusive Mentoring Programme for members; holding an Active Bystander special session at the RES Annual Conference 2023, and publishing a video in November 2023 entitled "Be the change: how to be an active bystander". The Society continues to monitor the diversity of its own activities and has developed a comprehensive bank of DEI-related resources on the RES website. The Member Operations Director continues to sit on the Academic of Social Sciences/ESRC EDI working group to share best practices on improving diversity across the social sciences.

The Mentoring Programme run by the Women's Committee caters for UK-based early-career female lecturers and advanced female PhD students. The 2023 Mentoring Programme matched 58 mentees to 22 mentors (2022: 69 mentees to 10 mentors), and a special session was convened at the 2023 Annual Conference on getting published.

Significant data analysis work was undertaken for the next Women's Committee gender report "Women in Economics Report", using HESA data, with the aim of publishing the full report in early 2024.

The Women's Committee launched the UK Women in Economics Network (UK WEN) in February 2023 at an event hosted by the Bank of England. This network aims to support the career development of UK-based women in economics across all sectors and is overseen by the Member Operations Director and supported by the Programmes Officer for Diversity. Although in its early stages the network has grown significantly, delivering a careers event in partnership with J.P. Morgan Asset Management, several 'Inspirational Talk' events and a Best Practice Forum. A social media presence has been established and regular e-newsletters are circulated to the mailing list. Elsevier provided funding towards the network costs, whilst partner organisations have provided support through the hosting of events.

Outreach

Website

The Society continued to add to its website content, with a particular focus on diversity and inclusion content in 2023. Following the launch of the UK Women in Economics Network a separate part of the website was launched for this initiative. Information and resources curated by the Diversity Champion were expanded. Updates were made to the RES members area, with the newsletter, member news and a video library available to members through this portal. Updates continued to be made to user navigation and to enhance the visual appeal of the website.

Social media

The Society aims to reach a wider audience through its social media activity and maintains a presence on X (formerly Twitter), LinkedIn and YouTube. The Society's followers on X increased to 19k in 2023 (2022: 17.3k), whilst the Economic Journal's followers increased to 22.5k (2022: 20.4k). On LinkedIn the Society's followers increased to 5.6k (2022: 3k). 23 videos were added to the Society's YouTube channel, with 35.9k views of videos on the channel (2022: 55.2k) and 7.7k

THE ROYAL ECONOMIC SOCIETY

subscribers.

Public outreach

The 2023 Annual Public Lecture was delivered by Prof Wendy Carlin and chaired by Prof Denise Hawkes (at University of Reading) and Prof Sir Anton Muscatelli (at University of Glasgow). A combined total of c. 300 students (2022: 254) attended the lecture.

The Society again provided financial support to the Bristol Festival of Economics which was held in November 2023.

Young Economist of the Year competition

The Young Economist of the Year competition is open to students studying a range of further education qualifications and is directed at those who are UK based and studying in school years 10 to 13 or equivalent.

Submissions to the competition increased to 1922 entrants (2022: 1179). The Discover Economics campaign promoted the competition through stakeholders, RES members and direct to schools. KPMG UK sponsored the competition and provided judges for the initial shortlisting. 5 entries were selected to attend an in-person final held at KPMG UK offices – Canary Wharf. Finalists presented their work to an audience of stakeholders and to a judging panel (Arun Advani, Sarah Smith, Heather Sharp, Lizzy Burden and Chris Giles). Through support from HM Treasury, finalists met Chief Economic Adviser to the Treasury Sam Beckett and visited 10 Downing Street.

The winning entry on 'How should big tech be regulated (if at all?)' was published on the Financial Times website. The winners, finalists and shortlisted entrants were published on the website and on social media.

Annual Conference

The 2023 conference took place at the University of Glasgow from 3-5 April 2023 and was held in partnership with the Scottish Economic Society. This marked the first in-person RES conference in 2019, before the pandemic. The Society was particularly delighted to be hosted by Glasgow in 2023, this marking 300 years since the birth of Adam Smith. 630 delegates attended online or in-person over the three days. A newly-introduced ticket option combining conference registration and membership accounted for 48% of tickets purchased. 95% of those responding to the delegate survey rated the conference as Excellent or Good (2022: 88%).

The conference received 1,017 paper submissions (2022: 632). The program chairs subsequently selected 400 papers to present at the conference. The programme included our popular lunchtime sessions, with 15 special sessions on topics include Active Bystanding and the impact of Adam Smith's work on economics. This being a joint conference, delegates enjoyed a larger number of keynote sessions than usual with presentations from Prof. Sir John Vickers, Prof. Dame Carol Proper, Prof. Leah Boustan, Prof. Francis X. Diebold, Prof. Valerie Ramey, Prof. Dani Rodrik, Prof. Silvana Tenreyro, and Dr. Raghuram Rajan.

The introduction of poster sessions as a pilot was a success, with 16 posters presented.

The inaugural RES Award for Service to the Economics Profession was presented to Prof Wendy Carlin by Prof Sir Anton Muscatelli at the Gala Dinner.

Prof. Giovanni Razzu, Conference Secretary, monitored Diversity, Equality, and Inclusion (DEI) elements and the environmental impact of the conference. All sessions began with a reminder of the RES Code of Conduct. Surplus food from the conference was donated to the Homeless Project Glasgow, whilst a conference app was offered in place of a printed programme.

Discover Economics

The Society continued its support as a Founding Partner alongside The Health Foundation for Discover Economics, a campaign to help change perceptions of economics among young people and attract students from under-represented groups. The Society was delighted to secure extended support from the Bank of England, LSE Hub for Equal Representation and KPMG. In addition financial support was kindly received from Cardiff University, CAGE Research Centre – University of Warwick and the Financial Times.

THE ROYAL ECONOMIC SOCIETY

The first year of an in-person outreach project, aimed at 15-17 year olds was completed in partnership with 30 universities involving 131 current undergraduate economics students delivering 102 subject specific outreach workshops to 2,794 state school students. Preliminary evaluation of results shows that attending one of the workshops increases the stated likelihood of studying economics by around 13 per cent.

Online events continued with themes including Black History Month; Careers in Economics; International Women's Day; and Pride in Economics. Additional work commenced with CAGE Research Centre - University of Warwick to deliver educational video content linking economics to history. This series attracted 22k views on YouTube.

The campaign's social media presence grew with 3.3k followers on Twitter (2022: 2.8k), 2.2k followers on LinkedIn (2022: 1.3k), 0.8k followers on Instagram (2022: 0.6k) and 1.6k followers on TikTok (2022: 1.4k). A fortnightly e-newsletter continued with 2.9k subscribers (2022: 0.9k).

Income Generation

The Trustee Board approve the appointment of a Commercial Director to oversee the Society's efforts to diversify its income streams and thereby support the long-term sustainability of the organisation. The Board also convened a working group chaired by trustee Kofi Adjepong-Boateng CBE to work alongside the Commercial Director. The group was tasked with identifying the opportunities with the greatest income and which were aligned with the Society's charitable and strategic aims. In late 2023 the Trustee Board approved a series of initiatives to increase income from both existing and new activities. These initiatives will be taken forward from 2024, with regular updates provided to the Board.

Governance matters

Andrew Farrell resigned as Honorary Treasurer on 31 December 2023. Following a Council member vote to fill this Extraordinary Vacancy, Susan Holloway was appointed interim Honorary Treasurer until the 2024 Annual General Meeting.

FINANCIAL REVIEW

Explanation of the Statement of Financial Activities and the Application of the Society's Funds

2023 saw a return to more normal conditions after the challenges for the Society's operations and investments in 2022. Although journal income continued its downward trend, the full return to an in-person conference, in partnership with the Scottish Economic Society, saw excellent attendance. Investments also gained in value.

The net deficit excluding gains on investments was £248k – higher than the £156k deficit in 2022 but lower than the 2023 budget forecast deficit of £516k. Net gains on investments were £306k, compared with losses of £762k in 2022. Total net income for the year was £57k, with a corresponding increase in total funds and reserves.

Total Income in 2023 was £1,521k, an increase of 8% vs 2022 (£1,406k). Income from journals was £939k, a 3% decline vs 2022 (£967k). Membership income increased by 11% as organisations took out group and institutional memberships. Conference income more than quadrupled, with a full return to an in-person meeting. We were very grateful for support to Discover Economics work on increasing awareness of economics and the diversity of students applying to university with significant contributions from the Bank of England, CAGE Research Centre, Health Foundation, KPMG, and the Hub for Equal Representation at the London School of Economics and Political Science.

Total Expenditure of £1,770k increased by 13% from 2022 (£1,562k). The most significant increase, as one would expect from the higher attendance, was in Conference costs. Journal expenditure was reduced, as a result of lower sales. Increased expenditure on Membership and Outreach was the result of a return to in-person events and the resumption of member grants following the pandemic.

Statement of Cash Flow

It was expected that the budgeted deficit would require funding by withdrawal of investment funds in the year, and indeed £100k was withdrawn. Cash used by operating activities increased to £264k vs 2022 (£128k). This was moderated by a decrease in both creditors and debtors and was funded by the investment capital withdrawal, as well as interest and dividend income.

Balance Sheet and Use of Assets

Fixed asset movements consist of office equipment and software and are relatively minor.

Funds invested increased to £5,756 from £5,586k after £36k investment charges, divestment of £100K and £306k capital gains, with £160k interest paid to RES bank account.

The £5,756k investments are held in three different portfolios with the same investment manager, Sarasin & Partners. The short-term portfolio value at 31/12/2023 is £384k, the medium-term £1,031k and the long-term £4,340k. The short-term is to support cash requirements in the coming year, the medium-term for years 2 to 5 ahead, and the long-term for the longer-term. The long-term portfolio return objective is inflation plus 4%. At 31st December 2023 it was invested 14% in fixed income, 70% equities, 3.8% property, 9.5% alternatives and 2.7% liquidity (cash).

The total portfolio nominal return in the year was positive, 8.3%. Three and five-year average nominal returns remained positive, at 1.9% and 6.2% respectively.

THE ROYAL ECONOMIC SOCIETY

Return on investment funds

The returns on funds invested were:

Calendar year	Annual income	Annual total return		
		One year	Three year	Five year
2019	2.9%	17.7%	7.3%	8.6%
2020	3.1%	8.4%	6.1%	9.7%
2021	2.8%	7.7%	11.2%	7.6%
2022	2.6%	-9.5%	1.9%	3.1%
2023	2.8%	8.3%	1.9%	6.2%

Following the resignation of the Treasurer, the Trustee Board agreed to defer a review of the Society's Reserves and Investment Policies until a new Treasurer had been appointed.

Significant events since the year end

There have been no significant events since the year end that require reporting.

Reserves policy

The reserves consist of £78k restricted reserves, being unspent external contributions for Discover Economics, £1,300k designated funds and £4,460k general funds. The general funds are in line with the Society's general funds target of £4.4m. Designated funds are established to provide for 2024 budget deficit, investment in known programmes, and fixed assets and working capital that are not available for general purposes. The Society agreed to keep designated funds at the 2023 level in 2024, pending an in-depth review during the year to ensure alignment with the new Financial Strategy.

Going Concern

The Board of Trustees actively reviews the status of the Society as a going concern each year. As at 31/12/2023 the Society had designated reserves sufficient for budgeted deficit for 2024 and general reserves equivalent to more than 2 years' expenditure. The Society has no loans, contingent liabilities or finance liabilities other than trade creditors. The Trustees confirm that the RES is a going concern.

Looking forwards

In line with its 2018–2023 strategy the Society budgeted for deficits to bring its historic reserves in line with its target reserves, using the excess of expenditure over income to increase capacity to deliver charitable benefit. In 2023 the Trustee Board agreed a financial strategy for 2024 – 2028 to ensure that by the end of that period charitable expenditures are taking one year with another, wholly funded by current income and return on investments without depletion of reserves.

PLANS FOR FUTURE PERIODS

During 2024 the Society will take forward key initiatives arising from its new strategy. These will include:

- A new initiative to increase the number of published articles in The Economic Journal
- Conducting research on ways to increase Society membership
- Implementing income generation activities agreed by the Trustee Board
- Appointing a co-opted trustee to oversee Diversity, Inclusion and Professional Conduct activities
- Developing the Society's offering to doctoral students
- Creating Implementation Plans for key activities in order to execute the new strategy

ACCOUNTING AND REPORTING RESPONSIBILITIES

The Trustee Board is responsible for preparing the Report of the Charity Trustees and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

The law applicable to charities in England & Wales and in Scotland requires the Trustee Board to prepare financial statements for each financial year which give a true and fair view of the state of the affairs of the charity and of the incoming resources and application of resources of the charity for that period. In preparing these financial statements, the trustees are required to:

THE ROYAL ECONOMIC SOCIETY

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgements and estimates that are reasonable and prudent,
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in business.

The Trustee Board is responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the financial statements comply with the Charities Act 2011, the Charity (Accounts and Reports) Regulations 2008, the Charities and Trustee Investment (Scotland) Act 2005, the Charities Accounts (Scotland) Regulations 2006 (as amended), and the provisions of the Royal Charter. The Trustee Board is also responsible for safeguarding the assets of the charity and so for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements have been prepared in accordance with the Statement of Recommended Practice: Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102) and the Charities Act 2011 and UK Generally Accepted Practice. The financial statements have been prepared to give a 'true and fair' view and have departed from the Charities (Accounts and Reports) Regulations 2008 only to the extent required to provide a 'true and fair view'. This departure has involved following Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) rather than the Accounting and Reporting by Charities: Statement of Recommended Practice effective from 1 April 2005 which has since been withdrawn.

.....
S Holloway
Honorary Treasurer
On behalf of the Trustee Board

Dated: 2024

REPORT OF THE INDEPENDENT AUDITORS TO THE TRUSTEES OF THE ROYAL ECONOMIC SOCIETY

Opinion

We have audited the financial statements of Royal Economic Society (the 'charity') for the year ended 31 December 2023 which comprise the statement of financial activities, balance sheet, statement of cash flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- Give a true and fair view of the state of the charity's affairs as at 31 December 2023 and of its incoming resources and application of resources, for the year then ended
- Have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice
- Have been prepared in accordance with the requirements of the Charities Act 2011

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on Royal Economic Society's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Other Information

The other information comprises the information included in the trustees' annual report, other than the financial statements and our auditor's report thereon. The trustees are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Charities (Accounts and Reports) Regulations 2008 requires us to report to you if, in our opinion:

- The information given in the trustees' annual report is inconsistent in any material respect with the financial statements;
- Sufficient accounting records have not been kept; or
- The financial statements are not in agreement with the accounting records and returns; or
- We have not received all the information and explanations we require for our audit

REPORT OF THE INDEPENDENT AUDITORS TO THE TRUSTEES OF THE ROYAL ECONOMIC SOCIETY

Responsibilities of trustees

As explained more fully in the statement of trustees' responsibilities set out in the trustees' annual report, the trustees are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

We have been appointed as auditor under section 144 of the Charities Act 2011 and report in accordance with regulations made under section 154 of that Act.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud are set out below.

Capability of the audit in detecting irregularities

In identifying and assessing risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, our procedures included the following:

- We enquired of management and the audit committee, which included obtaining and reviewing supporting documentation, concerning the charity's policies and procedures relating to:
 - Identifying, evaluating, and complying with laws and regulations and whether they were aware of any instances of non-compliance;
 - Detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected, or alleged fraud;
 - The internal controls established to mitigate risks related to fraud or non-compliance with laws and regulations.
- We inspected the minutes of meetings of those charged with governance.
- We obtained an understanding of the legal and regulatory framework that the charity operates in, focusing on those laws and regulations that had a material effect on the financial statements or that had a fundamental effect on the operations of the charity from our professional and sector experience.
- We communicated applicable laws and regulations throughout the audit team and remained alert to any indications of non-compliance throughout the audit.
- We reviewed any reports made to regulators.
- We reviewed the financial statement disclosures and tested these to supporting documentation to assess compliance with applicable laws and regulations.
- We performed analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud.
- In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments, assessed whether the judgements made in making accounting estimates are indicative of a potential bias and tested significant transactions that are unusual or those outside the normal course of business.

REPORT OF THE INDEPENDENT AUDITORS TO THE TRUSTEES OF THE ROYAL ECONOMIC SOCIETY

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities is available on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the charity's trustees as a body, in accordance with section 144 of the Charities Act 2011 and regulations made under section 154 of that Act. Our audit work has been undertaken so that we might state to the charity's trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

1 Accounting policies

a) Statutory information

Royal Economic Society is a charitable royal charter company and is incorporated in England.

The principal place of business is 2 Dean Trench Street

The presentation currency of the financial statements is in Pound Sterling (£).

b) Basis of preparation

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) – (Charities SORP FRS 102), The Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and the Companies Act 2006 and Charities Act 2011.

Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy or note.

In applying the financial reporting framework, the trustees have made a number of subjective judgements, for example in respect of significant accounting estimates. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The nature of the estimation means the actual outcomes could differ from those estimates. Any significant estimates and judgements affecting these financial statements are detailed within the relevant accounting policy below.

Key judgements that the charity has made which have a significant effect on the accounts include the depreciation expense estimated on an annual basis based on the depreciation charges assigned to the individual class of asset.

c) Public benefit entity

The charity meets the definition of a public benefit entity under FRS 102.

d) Going concern

The trustees consider that there are no material uncertainties about the charity's ability to continue as a going concern, and make this assessment in respect of a period of at least one year from the date of approval of the financial statements. The Royal Economic Society holds significant reserves and has liquid assets in the form of investments which are readily available to convert into cash. Annual budgets are produced with prudent figures for both income and expenditure.

e) Income

Income is recognised when the charity has entitlement to the funds, any performance conditions attached to the income have been met, it is probable that the income will be received and that the amount can be measured reliably.

Subscriptions begin at the point of payment and are accounted for on an accruals basis

Income from government and other grants, whether 'capital' grants or 'revenue' grants, is recognised when the charity has entitlement to the funds, any performance conditions attached to the grants have been met, it is probable that the income will be received and the amount can be measured reliably and is not deferred.

For legacies, entitlement is taken as the earlier of the date on which either: the charity is aware that probate has been granted, the estate has been finalised and notification has been made by the executor(s) to the charity that a distribution will be made, or when a distribution is received from the estate. Receipt of a legacy, in whole or in part, is only considered probable when the amount can be measured reliably and the charity has been notified of the executor's intention to make a distribution. Where legacies have been notified to the charity, or the charity is aware of the granting of probate, and the criteria for income recognition have not been met, then the legacy is treated as a contingent asset and disclosed if material.

Income received in advance of the provision of a specified service is deferred until the criteria for income recognition are met.

f) Interest receivable

Interest on funds held on deposit is included when receivable and the amount can be measured reliably by the charity; this is normally upon notification of the interest paid or payable by the bank.

g) Fund accounting

Restricted funds are to be used for specific purposes as laid down by the donor. Expenditure which meets these criteria is charged to the fund.

Unrestricted funds are donations and other incoming resources received or generated for the charitable purposes.

Designated funds are unrestricted funds earmarked by the trustees for particular purposes.

1 Accounting policies (continued)

h) Expenditure and irrecoverable VAT

Expenditure is recognised once there is a legal or constructive obligation to make a payment to a third party, it is probable that settlement will be required and the amount of the obligation can be measured reliably. Expenditure is classified under the following activity headings:

- Costs of raising funds relate to the costs incurred by the charity, as well as the cost of any activities with a fundraising purpose
- Expenditure on charitable activities includes the costs of delivering services and other educational activities undertaken to further the purposes of the charity and their associated support costs
- Other expenditure represents those items not falling into any other heading

Irrecoverable VAT is charged as a cost against the activity for which the expenditure was incurred.

i) Grants payable

Grants payable are made to third parties in furtherance of the charity's objects. Single or multi-year grants are accounted for when either the recipient has a reasonable expectation that they will receive a grant and the trustees have agreed to pay the grant without condition, or the recipient has a reasonable expectation that they will receive a grant and that any condition attaching to the grant is outside of the control of the charity.

Provisions for grants are made when the intention to make a grant has been communicated to the recipient but there is uncertainty about either the timing of the grant or the amount of grant payable.

j) Allocation of support costs

Resources expended are allocated to the particular activity where the cost relates directly to that activity. However, the cost of overall direction and administration of each activity, comprising the salary and overhead costs of the central function, is apportioned on the following basis which are an estimate, based on staff time, of the amount attributable to each activity.

Where information about the aims, objectives and projects of the charity is provided to potential beneficiaries, the costs associated with this publicity are allocated to charitable expenditure.

Where such information about the aims, objectives and projects of the charity is also provided to potential donors, activity costs are apportioned between fundraising and charitable activities on the basis of area of literature occupied by each activity.

• Journals	57%
• Other Publishing Activities	0%
• Membership	20%
• Outreach	3%
• Annual Conference	13%
• Discover Economics	6%

Governance costs are the costs associated with the governance arrangements of the charity. These costs are associated with constitutional and statutory requirements and include any costs associated with the strategic management of the charity's activities.

k) Operating leases

Rental charges are charged on a straight line basis over the term of the lease.

l) Tangible fixed assets

Items of equipment are capitalised where the purchase price exceeds £500. Depreciation costs are allocated to activities on the basis of the use of the related assets in those activities. Assets are reviewed for impairment if circumstances indicate their carrying value may exceed their net realisable value and value in use.

Where fixed assets have been revalued, any excess between the revalued amount and the historic cost of the asset will be shown as a revaluation reserve in the balance sheet.

Depreciation is provided at rates calculated to write down the cost of each asset to its estimated residual value over its expected useful life. The depreciation rates in use are as follows:

• Equipment	25% reducing balance
• Software	10 years

m) Listed investments

Investments are a form of basic financial instrument and are initially recognised at their transaction value and subsequently measured at their fair value as at the balance sheet date using the closing quoted market price. Any change in fair value will be recognised in the statement of financial activities. Investment gains and losses, whether realised or unrealised, are combined and shown in the heading "Net gains/(losses) on investments" in the statement of financial activities. The charity does not acquire put options, derivatives or other complex financial instruments.

Notes to the financial statements

For the year ended 31 December 2023

1 Accounting policies (continued)

n) Debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

o) Cash at bank and in hand

Cash at bank and cash in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

p) Creditors and provisions

Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

q) Financial instruments

The charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

r) Defined Contribution Plans – Pension Scheme

Contributions to defined contribution pension schemes are charged to the Statement of Financial Activities as incurred.

At the end of the year	1,797	21,222	-	23,019	31,800

6 Governance costs

	2023 £	2022 £
Legal Fees	-	2,215
Audit fees (excluding VAT)	11,400	9,300
Audit fees – underprovision for previous year (excluding VAT)	1,100	-
Professional fees	1,649	6,900
Council and committee Costs	13,196	10,050
	27,345	28,465

7 Analysis of staff costs, trustee remuneration and expenses, and the cost of key management personnel

Staff costs were as follows:

	2023 £	2022 £
Salaries and wages	480,850	410,024
Redundancy and termination costs	-	12,521
Social security costs	45,864	42,356
Employer's contribution to defined contribution pension schemes	43,082	37,307
Other forms of employee benefits	4,482	2,792
	574,278	505,000

The following number of employees received employee benefits (excluding employer pension costs and employer's national insurance) during the year between:

	2023 No.	2022 No.
£80,000 – £89,999	1	1

7 Analysis of staff costs, trustee remuneration and expenses, and the cost of key management personnel (continued)

The total employee benefits (including pension contributions and employer's national insurance) of the key management personnel (the chief executive, operations manager and commercial director) were £208,113 (2022: £215,581).

The charity trustees were neither paid nor received any other benefits from employment with the charity in the year (2022: £nil). No charity trustee received payment for professional or other services supplied to the charity (2022: £nil).

Trustees' expenses represents the payment or reimbursement of travel and subsistence costs totalling £737 (2022: £891) incurred by 4 (2021: 7) members relating to attendance at meetings of the trustees.

8 Staff numbers

The average number of employees (head count based on number of staff employed) during the year was 12 (2022: 10).

9 Related party transactions

Professor Nicholas Crafts is a Trustee Board member of the Royal Economic Society and the National Institute of Economic and Social Research (NIESR). NIESR owns 2 Dean Trench Street, where the Royal Economic Society rents office space at market value.

Tom Aldred is a Trustee of the RES and an employee of the Government Economic Service. Swati Dhingra is a Trustee of the RES and a member of the Monetary Policy Committee at the Bank of England. The Government Economic Service and the Bank of England are both institutional members of the RES. Neither trustee has been involved in discussions between the parties on institutional membership, and both trustees have recused themselves from any Board decisions which may have presented a conflict.

There are no donations from related parties which are outside the normal course of business and no restricted donations from related parties.

10 Taxation

The charity is exempt from corporation tax as all its income is charitable and is applied for charitable purposes.

11 Tangible fixed assets

	Computer equipment £	Total £
Cost		
At the start of the year	11,419	11,419
Additions in year	1,903	1,903
At the end of the year	13,322	13,322

	280,771	481,841

Notes to the financial statements

For the year ended 31 December 2023

16 Deferred income – Memberships (3 years)

Deferred income comprises of 3 year membership subscriptions

	2023 £	2022 £
Balance at the beginning of the year	23,144	15,014
Amount released to income in the year	(23,144)	(15,014)
Amount deferred in the year	22,840	23,144
Balance at the end of the year	22,840	23,144

The deferred income is included within the creditors liability but separated out for the purpose of explaining the reason for the deferred income. As the memberships span 3 years a proportion of this is represented as a creditor due after one year (see note 17).

17 Creditors: amounts falling due after one year

	2023 £	2022 £
Deferred income – Memberships (3 years)	8,229	14,611
	8,229	14,611

Purposes of restricted funds

Discover Economics – Discover Economics is a RES campaign aimed at changing perceptions of economics among young people and attracting students from under-represented groups.

Purposes of designated funds

- Reserves required for operational reasons and therefore not available for general purposes, ie, funding of fixed assets and working capital used to carry out the Society's charitable purposes.
- Projected future expenditures that cannot be met from future income, ie, budgeted and projected deficits and known programme investments.
- If the situation arises, known commitments that have not been provided for as a liability in the accounts.

Purposes of general funds

- Potential future deficits beyond periods for which reliable budgets are available.
- Unforeseen variances vs budgeted income, eg, bad debts, loss of journals income.
- Potential losses in value of long-term investments. (The investment strategy seeks reasonable returns by investing in equities etc. with risk to capital value. This reserve recognises that over a foreseeable period there will be reductions in values from time to time).
- Emergency expenditures including, eg, settlement of legal claims, uninsured losses, pandemic and other emergency responses, taxation changes.
- Funds to invest in future development activities not yet specified.
- Commitments not provided for as liabilities in the accounts for which no designated reserve has been established.
- In extremis, to provide for orderly settlement of liabilities in the event of restructure or closure.

20 Operating lease commitments payable as a lessee

The charity's total future minimum lease payments under non-cancellable operating leases is as follows for each of the following periods

	Property 2023 £	2022 £
Less than one year	36,169	24,543
One to five years	73,758	1,210
	109,927	25,753

A new lease was signed after the year end on 21 February 2024. The lease has been agreed for the next 3 years covering the period 19 January 2024 – 18 January 2027.

21 Legal status of the charity

The charity is a company limited by guarantee and has no share capital. The individual members or Trustees are not obligated to pay anything in the event of the Society winding up.
