The Isle of Wight Natural History and Archaeological Society, Unit 16, Prospect Centre, Prospect Road, Cowes, Isle of Wight, PO31 7AD is registered with the Charity Commissioners and constituted by a trust deed.

The Charity is administered by a council, comprising:

President: Mr Matthew Chatfield

Treasurer: Miss Jacqueline Hart

Other members: Mr Jim Baldwin, Mr Paul Bingham, Mrs Jo Bingham, Mr Al Blenk
Mr David Bone, Mrs Selena Bone, Miss Natalie Bone, Mr David Fairlamb
Mrs Toni Goodley, Mrs Helen Jackson, Mrs Jane Martin,

New council members are elected at the Annual General Meeting.

The objects of the Charity are to promote, for the benefit of the public, the study of the natural history, geology and archaeology especially in relation to the Isle of Wight and the preservation of all objects of special archaeological and geological interest.

This year has been dominated by the emergence of COVID-19 and the restrictions imposed by the Government from March 23rd. This has meant that we had to cancel some of our centenary celebrations including the 100th Anniversary Conference. However, the Society was able to hold 3 general meetings, 11 section meetings and the Record Society Conference. Our AGM due to be held on 28th March was postponed and was held in accordance with the guidance from the Charity Commission, with a very limited number of people on the agenda. We sent out the notice of AGM with the annual accounts as usual and invited contributions from the membership. The membership was kept abreast of developments by updates sent out by email to those members we hold email addresses and the August Edition of our half-yearly newsletter, delivered to all our members. Unfortunately we are unable to contact about a third of our members without emails. As soon as we are able, we will re-engage our usual programme of activities.

We have taken on the responsibility for recording all appropriate records on the database for the Isle of Wight Council. The overall aim is to provide a central point of contact for any information required to further scientific study.

A visual records section has been set up so that digital photographs of natural history, archaeology and geology of the Isle of Wight may be recorded with the provenance stored for future reference.

We have a wide range of natural history, history, geological and archaeological objects and we encourage our members to borrow.
