History

As part of the 1856 Enclosure Award, the land was awarded to the Churchwardens and Overseers of the Poor of Pightlesthorpe as Allotments for the Labouring Poor. From as early as 1888, Pitstone Parish Council was administering this allotment site and on 28 December 1923 the Charity Commission approved and established a scheme for the charity to be officially administered by Pitstone Parish Council as trustees of the charity.

In 1970, when much of the large site was unused, the Charity Commission granted permission for half of the land "to be used as an addition to the Recreation Ground under revocable licence given by the council to themselves as trustees of the Recreation Ground Charity". This land has never since been needed as allotments and continued to be managed under licence by the Recreation Ground Charity, until disposal to the Parish Council (as Local Authority) in 2019. The Parish Charity charged no annual rent for this land but receive the benefit-in-kind of all costs associated with the maintenance and care of this land being met by another body. This section of land houses the children's play equipment owned by Pitstone Parish Council.

In 2004, as the Castlemead estate was created on the old Castle Cement factory site, the allotment land was identified for potential development to help extend community facilities and join the old and new halves of the village together (along with two parcels of adjoining land in private ownership). The proposals were adopted by Aylesbury Vale District Council and are contained within the Pitstone Development Area Comprehensive Plan of 2005. These future plans generated three actions:

- Work commenced to find a suitable alternative site within the village for allotments. Mr Hawkins of Pitstone Green Farm bequeathed a section of land along Marsworth Road, in the heart of the village, to the National Trust on condition that they lease it to Pitstone Parish Council for the provision of allotments. In 2010, the Parish Council signed a 99-year lease with National Trust for this site and the new allotments were created, funded in part by the parish council and in part by various grants. The new site is thriving and is managed on a day-to-day basis by the Pitstone Allotment Association, whilst the Parish Council retain overall responsibility.
- On 18 March 2004 the Charity Commission accepted an application to update and broaden the scheme away from just "allotments for the labouring poor" and the charity was renamed the Pitstone Parish Charity with the objects redefined as "for the relief of persons resident in the area of benefit who are in need, hardship or distress." In this guise, the charity will be able to commence charitable work for the parish once the land is brought to market and the charity has available funds.
- In order to prepare the old allotment site for inclusion within any such development, the land first needed to be registered with Land Registry (completed on 10/8/10) and permission needed to be obtained from both the National Association of Allotment and Leisure Gardeners and then the Secretary of State to sell what had originally been appointed as Statutory Allotment Land (granted on 29/2/12 & 30/7/13).

Taylor Wimpey was granted permission to construct the remaining phases of residential development within the Castlemead estate without developing the parcels of land around the recreation ground or including any leisure provision. Aylesbury Vale District Council (AVDC) agreed that a commuted \$106 sum could be paid by Taylor Wimpey instead. AVDC stipulated that the land for the leisure development should be provided within the remaining parcels identified within the Comprehensive Plan which are located around the recreation ground (including the land owned by Pitstone Parish Charity). AVDC now hold these funds on behalf of the parish of Pitstone, providing that the identified leisure requirements can be delivered within a set timeframe. Pitstone Parish Charity therefore entered into a Joint Landowners Agreement with the private landowner to ensure a fair and equitable distribution of proceeds and costs, regardless of which parcel of land amenities are built upon. Employed the services of Bidwells land agents, to undertake the associated marketing required for the joint landowners to support the sale of land, secured the services of Horwood & James solicitors to advise the charity and ensure the necessary sale conditions are applied and opened a dedicated bank account was opened for the Parish Charity to receive the funds generated by the sale of the land (zero balance).

During 2013/14 the Parish Charity served notice to the Pitstone Recreation Ground Charity of their intention to revoke the licence to manage the section of land. The Recreation Ground Charity continued to meet all costs and liability connected with this section of land until its disposal to the Parish Council in 2019. The Parish Charity served notice to Pitstone Parish Council of their intention to dispose of the land currently housing their play equipment and requested confirmation from the Parish Council that they would be willing to accept ownership of the land if transferred as part of the Pitstone Development Area arrangements. The Parish Council confirmed this was acceptable. The Parish Charity, supported by Bidwells and Horwood & James, submitted an outline plan to The Charity Commission relating to their proposals however the Charity Commission advised that the entirety of the land owned by the Parish Charity should be disposed on the open market if possible to ensure maximum benefit to the charity. The Parish Charity employed the services of Kirby & Diamond land agents to assist with resolving the issues and bringing the land to market. The Parish Charity resolved on 26/9/13 to withdraw all permissions granted to Pitstone Parish Council relating to the construction of play space or skate park facilities on the parcel of land managed under licence by the Pitstone Recreation Ground Charity.

During the 2014/15 and despite lengthy negotiations with the neighbouring landowner it was not possible to include the section of land previously managed under licence within the Joint Landowners Agreement for the Pitstone Development Area. Therefore, the previous Joint Landowners Agreement (which had expired) was renegotiated based on the originally defined parcels of land. The Design Brief was brought up-to-date and finalised so that it might be used to supplement the marketing information supplied to developers. The Design Brief includes details of the latest community engagement events as part of the Pitstone Neighbourhood Development Plan, which confirms the desire of the residents to see the parcel of land owned by the Parish Charity developed and will therefore help to obtain a good sale price. Subsequently the joint parcels were advertised on the open market and preferred developer selected. Following receipt of the Section 119 Charities Act report recommending disposal, Heads of Terms have been agreed and contracts entered into. The joint landowners appointed legal representation.

2016/17 saw the developer obtain pre-application advice from the planning authority and hold a public consultation event with the subsequent planning applications being submitted in April 2017. Outline planning permission was successfully obtained by the developer during 2017/18 for two parcels of land for commercial developments of a public house and day nursery as required by the conditions contained in the Pitstone Neighbourhood Development plan. The developer marketed these opportunities upon completion of the sale. The disposal to Nicholas King Homes was due to complete on 31-3-2020, but issues arising for the developer from the Coronavirus outbreak, meant that the completion was been postponed until 30-6-2020. Once the sale of the main parcel of land to Nicholas King Homes reached the 'unconditional' point, the legal advice received by the Charity from Kirby Diamond permitted the separate disposal of the remaining parcel of land (previously managed under licence by the Recreation Ground Charity). AVDC had determined that planning would not be granted for any alternative use of this land, other than as open space/leisure use. The Section 119 Charity Act report therefore concluded that this parcel of land could be disposed of to the Parish Council, as Local Authority, at the value determined by The District Valuer (not to be gifted). The Parish Council, as Local Authority, were also required to meet all associated legal costs incurred by the Parish Charity, so that the charity were not disadvantaged. The charity received the proceeds of this sale in October 2019 (£33,398).

The charity has worked, over many years, with a neighbouring private landowner to bring the parcel of land within its ownership, and within the previously defined Pitstone Development Area, to market. The appointed developer, Nicholas King Homes (NKH), submitted planning to AVDC in April 2017. Outline planning permission was granted for a public house and day nursery, and the parcels of land placed on the open market by NKH. Grant of full planning relating to residential and community uses was granted in December 2018. Section 119 Charities Act reports were obtained. The sale to NKH finally completed in June 2020. The charity received £1,260,359.46 from Nicholas King Homes arising from the sale of this parcel of land. In the 2020-21 financial year the charity also received £10,911.18 VAT refunded & made £64,011.78 in payments made during the year, all of which related to professional fee payments in relation to the sale of the land or the end of year

audit. As the charity income exceeded £1m for that financial year, but this entirely related to the disposal of the parcel of land, the charity sought, and was granted, dispensation from full audit by the Charity Commission, who approved for the Parish Charity to commission an independent examination from IAC Ltd. The resulting report was considered by the full Parish Charity on 11/11/21 and accounts approved.

During 2021/22, the charity appointed HCR Hewitsons to provide the charity with clear legal advice on how the income could be expended and invested, and what the charity could/could not do within the confines of the existing trust deed. Meetings were held with Community Impact Bucks charity advisors and the local Towns Land Charity whilst considering the most appropriate structure and defining of objectives. Quotations were obtained from a number of other charity strategic advisers, with an aim to ensuring that the charity is set up in the more efficient manner. Meetings were also held with Financial Advisors and on 31/3/22 it was resolved to appoint EJS Financial Advisors and Brooks MacDonald Investment partners, to invest £1.2m of the charity funds, with the objective of generating a quarterly revenue which could be utilised to fulfil the objectives of the charity. The Charity also moved all banking across to Unity Trust Bank.

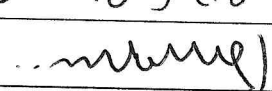

Nicholas King Homes have now completed the construction of the residential dwellings. They are also seeking planning permission to build further residential properties on the two areas of land that were previously defined for a children's day nursery and restaurant/pub. Should this be granted, the Parish Charity should be due further funds arising from the overage agreement.

The current Step-Up Grant scheme launched in April of 2024, with the first applications considered in the June of that year. This followed substantial legal and professional advice to ensure that the scheme was created and administered correctly from the outset. The charity also worked in close collaboration with other local charities to ensure that the offering from each charity was different.
