Accrued Interest

HMRC rules state that when bonds are sold, income is not reportable on the date of sale but on the next coupon date, even though this income is typically received as part of the settlement proceeds. When the next coupon date falls into the following tax year, there will be an apparent mismatch between the CGT report and cash statements, as the income will appear in the next year's tax pack (when it becomes reportable).

Valuation

This valuation has been prepared on the basis of mid-market prices from the appropriate Stock Exchange, market makers or from the relevant fund manager. Where fund managers publish a single price, i.e. for OEICS, the valuation has been prepared on the basis of the published price. The prices of financial instruments subject to low liquidity due to their special financial characteristics, i.e. Private Equities, are evaluated on a best endeavours basis. This valuation may include holdings where we are unable to obtain up to date prices. If these prices are shown as zero (0), it could reflect an illiquid security. Please contact your account manager if you require further information.

Accrued interest is excluded from the book cost for fixed interest holdings that were purchased on or after 1st October 2012. Existing holdings at that date have not had the accrued interest removed from their book costs.

In July 2005 the pricing of UK(Govt of) Indexed Linked Gilts was brought into line with international methodology. Indexed Linked Gilts issued after this date will be quoted with the Market price net of indexation per £100 Nominal. The price is then multiplied by an Index Ratio representing Inflation since the date of issue. As a result of this, on your valuation, the Price shown for an Indexed Linked holding may not correspond to the Current Value. Please contact your account manager for further information.

Estimated income and yield quoted reflect dividend income and interest receivable as paid. This income may be subject to additional tax, depending on the tax status of the account. The income quoted is calculated partly on historic payments and partly on future expected payments and as such is only a guide.

The Benchmark quoted could contain indices which have been estimated as they may not have been available at the time of the valuation. The method of calculation for these indices is available on request.

Non Nominee Holdings

The valuation of holdings shown on this statement which are not registered in one of our Nominees, or held by one of our custodians, is based on our record of the number of shares held. It is your responsibility to ensure that our records for these securities are up to date and accurate. If you do not agree with our records please contact your account manager so that they can be updated appropriately.

Risk and Restrictions

If the Risk Acceptance Level or Investment Restrictions are incorrect, please advise your account manager.

Charges and Remuneration

Commission on transactions has been notified to you on contract notes sent to you at the time of dealing. These details will be shown within the Capital Cash Statement for those clients who do not receive contract notes.

For trades dealt through third party brokers for execution of non UK equities, the trade price reported is the net price after the adjustment for third party execution charges. Details of these charges are available on request.

Time of Execution

For those clients who do not receive contract notes, information regarding the time of execution for purchases and sales is available on request.

Nominee Statement

We confirm that as at the date of this report the securities shown on the Nominee Statement were held on your behalf by us and registered in the Nominee Company or held in the depot shown. Overseas investments were held to our order by overseas agents. MiFID II eligibility indicates investments which are covered under the rules and requirements of the Markets in Financial Instruments Directive II. MiFID II is the EU legislation that regulates firms who provide services to clients linked to 'financial instruments' such as shares, bonds and units in collective investment schemes.

If you do not agree with our records please extract this section and return it to us having indicated any discrepancies. Alternatively please contact your Account Manager.

Holdings shown on this report are by reference to the date of trade.

Pledged Portfolios

If your portfolio has been pledged, it identifies that the securities are being used as collateral.

Client Money

Your money will be held in a client money account alongside monies held on behalf of other clients. Where the rate of interest we receive overall is more than the rates set out in the Rate Card, any difference between the interest received by us and the interest paid to you is retained by us.
