MAIN ACHIEVEMENTS DURING THE YEAR

The ongoing commitment of the Friends of King George Hospital has been vital in addressing the challenges faced by the hospital and its patients, particularly in the wake of the COVID-19 pandemic. As the community continues to recover, our efforts have focused on enhancing patient care, improving facilities, and fostering connections within the community.

First, we have actively supported the hospital by fundraising for essential medical equipment and resources. This year, thanks to the generosity of our donors, we were able to provide Courtesy & Comfort packs for use in the A&E Department, Information screen for use by the Ante-Natal Unit, RITA Device for use in ITU Department. These contributions have been critical in ensuring that the hospital provides the highest standard of care.

For the Children's A&E Department, we have provided I Pads & Cases, Play Therapy items that provided the children with a distraction during this stressful time, thus creating a more comforting environment for them.

Prior to Covid, the League of Friends ran a very successful shop which both provided a valued service, but also generated significant income. The Committee continue discussions with the hospital to reinstate this. In the meantime, legacy income and its interest provides the financial reserves to meet the needs identified on the site.

Lastly, it goes without saying that none of this would have been possible without the unwavering support of the hospital staff and management. Their dedication and collaboration have been invaluable in identifying the most pressing needs and ensuring that our initiatives align with the hospital's goals. Together, we continue to strengthen our community bonds and improve the lives of those we serve

As the community continues to recover, our efforts have focused on enhancing patient care, improving facilities, and fostering connections within the community.

First, we have actively supported the hospital by fundraising for essential medical equipment and resources. This year, thanks to the generosity of our donors, we were able to provide a Spy Phi machine, which is a unique and versatile fluorescence imaging system that provides clinicians with a convenient solution for perfusion assessment. We were also able to provide the hospital with everyday equipment, such as ITU diaries and a Stoma care trolley. These contributions have been critical in ensuring that the hospital provides the highest standard of care.

Secondly, we have been able to enhance the quality of the patient atmosphere by providing the A+E with children's play panels. This was highly beneficial as it provided the children with entertainment and a distraction during what is likely to be a scary and stressful time, thus creating a more comforting environment for them.

Prior to Covid, the League of Friends ran a very successful shop which both provided a valued service, but also generated significant income. The Committee continue discussions with the hospital to reinstate this. In the meantime, legacy income and its interest provides the financial reserves to meet the needs identified on the site.
