

NAS OFFICERS REPORTS 2020 – 2021

CHAIR'S REPORT

Firstly, could I take this opportunity to wish all NAS members, their families, friends, relatives, and communities well, thank you for your continued engagement and support of the NAS and our activities and hope both continue into 2022 and beyond. Our world has continued to be overshadowed by the global pandemic, and whilst restrictions are currently easing (at least in the UK), offering a return to a semblance of normality, this remains uncertain at present, and thus it feels prudent to remain cautious at this time. Personally, I would like to offer my sympathies to anyone who has been impacted by the loss of a loved one due to COVID-19 or other premature passing and I sincerely hope that everyone stays safe and supports their wider communities during this time.

This is my first report as NAS chair and it would be remiss of me not to acknowledge the continued commitment and effort from the NAS staff, the Executive, Management and Sub committees, as well as the support from our members, since Brian's last report. There is undoubtedly a very strong sense of community and purpose, which I am proud to be a small part of.

There are several specific areas that I would like to cover in my report.

Finances: The treasurer's report will cover the details of our financial position to the end of March 2021, but it is worth emphasising that the Management and Executive committees have maintained a close focus on our current and future financial status as we look to build a more sustainable position for the future. This has been another challenging year, with limited project opportunities and it is to the credit of the staff and trustees that we continue to be in a stable position.

Our Trustees and Committees: The NAS trustee community continues to evolve with trustees completing their term and new trustees joining. We are growing the involvement of trustees in areas of particular interest or experience to support staff effort; a very good example is the communications group of trustees and members who are maintaining the engagement activities established by Charlotte during her time with us.

Our trustees offer the Society a mix of archaeological specialisms and wider business skills needed drive our core streams of focus; education and awareness, publication, sectoral engagement, international expansion and archaeological projects, with the necessary expertise to run a charity / business. As always, we continue to seek suitably qualified members to join our committees as other trustees complete their terms.

I would like to specifically thank Brian Minehane for his contributions to the Executive and Management committees during his term as a trustee and his four years as chair, during which he has ably guided the Society towards a stable and prosperous future. I would also like to welcome Peter Green as a NAS Trustee. At the time of writing this report, Peter has been co-opted onto the Executive Committee pending his official joining at the AGM this year.

Peter is the Chief Executive of National Maritime, and we welcome his experience and insight across the maritime sector.

The Executive committee now meets quarterly, with full meetings taking place in April (end of financial year) and October (pre-AGM) and shorter meetings in January and July to maintain progress on discussions across the full Executive, with the Management Subcommittee meeting monthly to maintain momentum on more pressing matters and in support of Mark and the team in Fort Cumberland. If you would like to join us and contribute at a strategic level to the Society, then please reach out to Mark or myself.

Publication: The IJNA contract has been agreed with Taylor and Francis and our thanks go to Miranda Richardson, Paula Martin, Damian Robinson, Lucy Blue and David Blackman for the continued effort to make this transfer successful and for constantly looking to the future of the IJNA. Sadly, Miranda is stepping down as the editor of the IJNA and we are in the final stages of appointing a successor. We thank her for her contribution to the society, in particular the success of IJNA and wish her well for the future. We hope to introduce her successor at the Conference, which marks 50 years of the IJNA.

Staffing: Charlotte Crumpler completed her contract as our Engagement Officer and has taken up a new opportunity, although she remains a member of the society and an active volunteer. Her infectious enthusiasm and professional knowledge have left the society in a much stronger position in terms of external engagement, and we wish her well for the future. Peta Knott, our Education Manager has returned from maternity leave and is now working a four-day week, resulting in a return to two permanent members of staff.

Conference: Sadly, we took the decision, in unison with our Irish partners (CFT), to defer the 2020 Dublin conference again until 2022 and continue with a virtual conference for 2020 and 2021. The 2020 conference allowed us to showcase the international nature of the Society; and I believe 2021 will repeat this success and extend global working relations further.

Education: The education programme continues to evolve, and we have capitalised on many virtual learning opportunities throughout the year. Whilst virtual learning cannot replace face-to-face learning, particularly in practical subject areas, there are many positive lessons we can take forward into a hybrid programme. A statistic from one virtual course which stands out to me is 38 attendees from 12 countries; truly international and a number of attendees that we would struggle to support in our usual locations.

Looking Forward: Whilst this report looks back over the past year, it feels appropriate to cast an eye to the future and emphasise the need for sustainable growth. Society is changing, people's demands and expectations are changing and sources of funding are changing. Suffice to say, the Society must adapt and evolve, and we have a Strategy Group which is actively looking to the future. More information will follow as our plans take shape.

All I ask of you, the members, is that if you have an idea, a suggestion or have spotted something you think we are missing, please don't mutter into your coffee or regulator, but let us know and share your thoughts. I can't promise to solve all of them, but I will listen and if we cannot do it, I will tell you why.

Thank you: Lastly, I will conclude my 2021 Chair's report with some thankyou's.

Our partners, including Historic England, The Honor Frost Foundation, Sub-Aqua Association, Go Dive Scuba Store, Dive Master Insurance, MSDS Marine, National Maritime, Maritime Archaeology Trust and the Maritime Archaeology Sea Trust are in a very large way why we are able to do what we do. Our endless thanks for your ongoing support and continued confidence in the Society.

Mark our CEO, Peta our Education Officer, and Charlotte our (now former) Public Engagement Officer love what they do, and it shows. Thank you for your continued brilliance and enthusiasm in the pursuit of maritime archaeology.

Once more – a massive thank you to our Trustees and our members.

Thank you all and here's to our continued NAS journey.

Tim Parker, Chair

HONORARY SECRETARY'S REPORT

The totally unprecedented challenges for the Society due to Covid-19 emerging in early 2020 have continued during this year and look set to continue for some time to come to varying degrees. This pandemic has posed an extremely adverse impact upon the income streams of the Society as so much of the Society's activities are normally conducted on a face to face basis. The Chair and the Treasurer will provide more details but an outstanding effort has continued to be put in place by NAS staff and my fellow Trustees to equip the Society with new, virtual activities to continue the NAS' work and to seek financial aid to ensure the Society could survive financially. The result of this is that NAS members have had an opportunity to engage digitally with the Society and there is very significant development of digital resources underway, especially for the Education Program. Additionally the grants obtained last year from Historic England, National Heritage Lottery Fund and the Honor Frost Foundation (HFF) enabled the Society to have secure ongoing finances. It would be hard to understate the amount of demanding work to very tight timescales that all this entailed, and it is a credit to the commitment of the NAS staff and my fellow trustees that all this has been achieved.

The Management Sub-Committee has continued to monitor the financial position extremely closely. Further financial challenges remain and the Chair and the Hon. Treasurer will address this aspect in more detail in their reports. The Society continues to examine new opportunities to obtain additional funding and discussions with potential sponsors are ongoing. The Society is also continuing its investigations as to the potential of closer working with other organisations on a 'partnership' basis, which could increase financial efficiency and provide new income streams for the Society. To this end the Society has entered negotiations with

Nautical Archaeology Society

MSDS Marine Ltd to formulate a Memorandum of Understanding to structure the continued co-operation between the Society and MSDS Marine Ltd. The Society is also engaged in negotiations with an American not for profit entity, with a view to the Society administering a grant award scheme for nautical archaeology which will be open to applications from around the world.

Notwithstanding all this hard work it is clear that the Society, like all charities, will continue to face an extremely challenging economic environment for a number of years post Covid-19 but these potential initiatives are designed to ensure that the Society is better equipped and more resilient in such an economic environment.

The Society has continued to be very active in relation to the proposed dredging of the Goodwin Sands by Dover Harbour Board (DHB) and continues to advise both the Save Our Sands (SOS) community group and its associate, the Goodwin Sands Conservation Trust, a registered charity

The Society also continues to be represented at Joint Nautical Archaeology Policy Committee (JNAPC) meetings and to support the policy development work of the JNAPC. The Society has also continued discussions with MOD with a view to the Society participating in a project with MOD. These discussions have resulted in a request from MOD for a draft Project Design which is due to be submitted in July 2021. Inevitably the timescale for this Project has been adversely impacted by Covid-19 but MOD has demonstrated considerable interest in the project's potential and, if approved by MOD, will provide NAS members with the opportunity to undertake archaeological diving operations on a military site which is otherwise inaccessible to divers.

As indicated in my previous year's report, negotiations have now been successfully concluded with a leading academic publisher, Taylor & Francis, for publication of the International Journal of Nautical Archaeology (IJNA) and the Society is very grateful to the HFF for its continued financial support for the Journal's publication. However, the economic downturn in academic publishing due to both Covid-19 and the policy of Open Access will unfortunately have an adverse impact upon the income stream that the Society obtains from IJNA and will add to the Society's financial challenges going forward into future years.

While much of the Society's activities have been curtailed and delayed by the pandemic, the workload that resulted was extensive. At the risk of repeating myself I would like, both upon behalf of the Society and on a personal basis, to thank the NAS staff, the NAS volunteers who stepped forward and my fellow Trustees who, despite considerable disruption in their own work and personal lives, set about protecting the Society from possible stagnation and financial uncertainty. As with all UK charities these challenges, not least on the financial front, will continue for some considerable time. However, members can be assured that no effort will be spared in seeking to bring the NAS through these exceptionally difficult times.

Prof. Michael V Williams Hon Secretary

TREASURER'S REPORT

As noted last year, we entered the Financial Year in some trepidation because of the impact we believed COVID was going to have on our revenue generating activities. With COVID restrictions continuing during much of this financial year too, the impact on NAS revenues remained but will not fully show up in the accounts until the 2021/2022 Accounts.

We were very fortunate to receive the support of the Honor Frost Foundation, Historic England and the Heritage Lottery Fund for a number of desk-based projects to commence this financial year. This is reflected in the figures shown in the Balance Sheet under Restricted Funds – i.e. Grants reserved for completion of future projects.

The continuation of COVID restrictions during 2020/2021 has meant that some of these projects did not fully reach completion during 2021 as planned, and some additional sub-contractor resources had to be employed at extra cost where we encountered unforeseen skills shortages.

However, Cash Management has remained under regular review throughout the year. Staff and other costs were reduced as much as possible and because of the above support we have had sufficient cash to continue to positively move forward through into 2021/2022.

The success of our E-Learning and Webinar initiatives during COVID encouraged us to expand the E-Learning Project. The previous software modules were over 10 years old and showed their age. The management team are confident the new software will attract more UK and international members and non-members when fully complete.

The project will not be fully completed until late 2021 and as a result we decided to capitalise the expenditure on E-Learning and depreciate the cost over the life of its use. As of 31st March 2021, a total of £27,663 has been added to Intangible Fixed Assets shown in Note 12. We will capitalise further amounts during the current financial year as appropriate.

Diving, Education and Training had commenced in a limited form by August 2021 so we hope 'normal' will return during the next financial year. However, we will have completed all our currently funded desk-based projects by the first quarter of 2022 and the future funding of projects is currently unknown.

That makes it even more important for me to thank all those who have renewed their Membership Subscription, recruited new NAS members or have given donations for their continued support in these difficult times. If you are regular users of Amazon then please consider making purchases through 'Amazon Smile' which results in a donation to NAS - details of which are on the NAS website.

NAUTICAL ARCHAEOLOGY SOCIETY
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 31 MARCH 2021

The trustees who are also directors of the charity for the purposes of the Companies Act 2006, present their report with the financial statements of the charity for the year ended 31 March 2021. The trustees have adopted the provisions of Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019).

OBJECTIVES AND ACTIVITIES

Objectives and Aims

The aims and objectives of the Society are to:

- preserve our nautical heritage,
- act as a focus for nautical archaeology and to provide publications,
- provide education, training and information for improving techniques of excavation, recording and preservation of nautical heritage.

NAUTICAL ARCHAEOLOGY SOCIETY

REPORT OF THE TRUSTEES FOR THE YEAR ENDED 31 MARCH 2021

OBJECTIVES AND ACTIVITIES

Review of Activities

The purpose of this section is to summarise the various activities of the Society for the year ended 31 March 2021. The Society's office and staff are well established in the Historic England casemates at Fort Cumberland, Portsmouth. Due to Covid-19/Corona Virus staff spent much of their time working from home.

Outreach Activity

Outreach activity has been supported by the activities of volunteers giving talks throughout the country. Due to Covid-19/Corona Virus the Society was unable to exhibit at the Dive Show at the NEC. The Society continues to campaign to save the London shipwreck in the Thames Estuary and arranged an online event to celebrate the work being done to save artefacts from the wreck. Due to Covid-19/Corona Virus restrictions, the Society ran (for the first time) an online conference weekend where speakers presented papers on research undertaken and virtual exhibitors provided exhibition stands on subjects and projects relevant to nautical archaeology. During the UK's Covid-19/Corona Virus lockdown the Society hosted a series of free weekly online talks and well as launching a free monthly webinar series with grant support from the Honor Frost Foundation

Publishing Activity

During the year the Society continued to publish the International Journal of Nautical Archaeology through John Wiley and Sons. At the end of the year the Society entered into an agreement to publish the journal with Taylor & Francis. The members' online newsfeed continues to be published in-house and stories from the Society and its members is published on its website. Sales continued of the Society's handbook, Archaeology Underwater, and well as the NAS Monograph series.

Publications Grants and Awards

The NAS received a grant from the Honor Frost Foundation to support the International Journal of Nautical Archaeology. The grant is being used to provide translations of article abstracts, to support the costs of the journal editor including helping the editor to attend international conferences. There were no Joan Du Plat Taylor grants awarded in 2020-21.

Education Activity

The Society continued to deliver its Education scheme, through the Education Programme that was relaunched in 2015. It continues to run eLearning courses in Maritime Archaeology, Underwater Archaeology and Foreshore Archaeology as well as practical skills days, both underwater and on foreshore sites. Due to Covid-19/Corona Virus restrictions the Society began to host online live courses in a wide number of special interest topics using experts in their field. Due to Covid-19/Corona Virus restrictions the Society was only able to arrange a limited number of opportunities for recreational divers to visit UK Protected Wrecks to raise awareness of protection of underwater cultural heritage. The Society remains a leading organisation for the education of recreational divers, archaeologists and non-archaeologists in the techniques of maritime archaeology on land, in the inter-tidal zone and underwater. The Education Programme is widely taught overseas by international training partners and has been praised internationally.

Project Activity

The Society organised a number of projects which enabled volunteers to engage with nautical archaeology and develop skills. Projects included continuing research into the protected wreck of the historic submarine Holland No.5 and the Norman's Bay Wreck, the Chesil Beach Wrecks and a newly protected wreck off Eastbourne. The NAS received funding from a number of different grant providers (see restricted funds) to run training activities and fieldwork involving the public.

The Nautical Archaeology Sub-Aqua Club (NASAC) was set up in 2009-10 as an affiliated branch of the Sub-Aqua Association (BSAC). This dive club is established to operate as a BSAC branch carrying out underwater archaeology dives using NAS equipment, including a boat bought in October 2011.

Trading Activity

The Society continued to sell merchandise, consisting of books relating to nautical archaeology, survey equipment for nautical archaeology and clothing advertising the Society, to further the aims of the Society. The sales include books (including the NAS handbook and monographs) and survey equipment to be utilised by students of the Society's training courses.

NAUTICAL ARCHAEOLOGY SOCIETY
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 31 MARCH 2021

OBJECTIVES AND ACTIVITIES

PUBLIC BENEFIT

The Trustee Directors confirm that they have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the Society's aims and objectives and in planning future activities. In accordance with the charitable objects, the Society educates and raises awareness of maritime cultural heritage. Through education, particularly of the general public and the diving community, the maritime cultural heritage is valued and respected and so preserved for future generations. While the Society's courses are generally provided on a fee basis, the Society obtains grants where possible to subsidise such courses and also provides free talks.

The nautical archaeological research which is carried out and promoted by the Society results in knowledge that is recorded in public archives and is also made available through publications. The Society's website is used to disseminate information for the benefit of the public. The Society's learned journal and monograph series ensure that all such research of a suitable standard for publication, whether carried out by the Society or by others will be available to current and future researchers. The Society's editors encourage and support new authors of such work to help bring work to publication.

FINANCIAL REVIEW

Reserves Policy

The Executive Committee has a reserves policy which states that the reserves should be £60,000 of liquid assets. This figure is principally to provide for working capital in respect of grants paid in arrears, the need for deposits to be paid in advance and provides a reserve against unexpected loss of income, enabling the Society to meet its commitments for a period of at least six months. No reserves are designated but expenditure may be authorised against the reserves provided that income sources are in a favourable state and investment is required to support the future sustainability of the Society.

NAUTICAL ARCHAEOLOGY SOCIETY
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 31 MARCH 2021

FINANCIAL REVIEW

Summary of Financial Position

At the end of the year 2020-2021 the Society's funds stood at £241,635 (2020: £124,970). The accounts report a surplus of £116,665 for the year to 31 March 2021 (2020: £4,652).

Grants

The NAS received a contribution from the Heritage Lottery Funded CITiZAN Project, for providing support to the south-west CITiZAN team who are based in offices at Fort Cumberland.

The NAS received a grant from the Honor Frost Foundation to support the International Journal of Nautical Archaeology. The grant is being used to provide translations of article abstracts and to support the costs of the journal editor and to allow the editor to attend international conferences.

During the year the NAS completed a Resilient Heritage project grant from the Heritage Fund (previously the Heritage Lottery Heritage Fund). The grant has helped NAS deliver our strategic plan to build awareness of threat to our nautical heritage and achieve greater engagement and support from a larger and more diverse public audience and private sector organisations. This involved new marketing and fundraising strategies, additional staff, trustee and volunteer training, the re-development of marketing and fundraising materials and greater use of social media to reach a larger and broader range of people. The project completed in October 2020.

The NAS received a Heritage Emergency Fund grant from the Heritage Fund to support the Society through the Covid-19/Corona Virus pandemic. The grant supported staff costs and marketing and advertising over four months from July through to October 2020.

During the year the NAS completed "A feasibility study for a scheme for the "Recovery, Recording and Reburial" of material from the protected wreck of The London (1665) in the Thames Estuary". The project was grant funded by Historic England and completed in January 2021. The Society made a recommendation for a pilot study to be commissioned and awaits Historic England's guidance.

The NAS received a grant from Historic England to update its three eLearning courses and to develop two new eLearning courses on Cannon Research and Recording and Monitoring Archaeological Sites with Photogrammetry. This project will complete in 2021-22.

The NAS continues to manage a grant from the Honor Frost Foundation that will result in the creation of Arabic versions of the NAS eLearning Courses in Maritime and Underwater Archaeology. The project is now due to complete in 2021-22.

The NAS received a grant to co-manage (with the Maritime Archaeology Trust) a community archaeology project on the Chesil Beach Protected Wrecks off Chesil Beach, Portland, Dorset. This work with included diver training and educational open days for the public will complete in April 2021.

The NAS received a grant from the Honor Frost Foundation for the development of the Big Anchor Project website and database. The grant allows for the creation of a project mobile App to allow the real time recording of anchors by the general public. The project is due to complete in 2021-22.

The NAS received a grant income from a partnership with MSDS Marine to work on a project titled "Historic England Affiliated Volunteer Recruitment and Engagement Project", to run two pilot projects to link two existing Licensee wreck teams with new diver groups; to report on the successes and challenges faced in the project; and, to make a series of recommendations for future licensee volunteer recruitment. In 2020-21 the project was impacted by Covid-19/Corona Virus and should now complete in 2021-22.

Subscriptions

Membership subscriptions include online membership, including access to a member's online newsfeed as well as online or hardcopy membership providing access to the International Journal of Nautical Archaeology. Concessionary subscriptions are provided for students and unsalaried individuals. Members who are UK taxpayers may elect to subscribe as Gift Aid. Gift Aid is not eligible where members receive a benefit from their membership (including discounts on training and conference attendance) that exceeds thresholds defined by HM Revenue and Customs.

NAUTICAL ARCHAEOLOGY SOCIETY
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 31 MARCH 2021

FINANCIAL REVIEW

Publishing

Wiley publish and distribute the International Journal of Nautical Archaeology on behalf of the Society. The Society receives a profit share and a contribution to the editorial costs from sales of subscriptions to the journal by Wiley. There are no royalties payable for the Monographs which are published by Archeopress. The Society's handbook, published in 2008 by Wiley continues to sell and the Society has received royalties from Wiley.

Training and Project Income

Income from attendees on training events, supported by the grants covered the expenditure on these activities. A small amount of project income derives from the contributions of participants in protected wreck visits including to the Normans' Bay Wreck, the Holland 5 submarine, as well as to HMS Invincible and the A1 submarine in the Solent.

Outreach Income including Annual Conference

The annual conference was held online with the support of numerous sponsors and exhibitors. Small donations were received from outreach activities, but these were less than the total costs of outreach.

Merchandise

There was a small amount of income from the sale of merchandise, nautical archaeology books and equipment and branded clothing.

International Licensing

The Society receives an income in respect of licensing the NAS training materials to suitable organisations outside the UK and sales of NAS qualification cards to such organisations. This source of income enables the NAS to provide education and advice to individuals and organisations to further nautical archaeology research outside the UK.

Non-operational Income

The Society's reserves are held in an interest-bearing investment account operated in conjunction with a current account. A small amount of interest was received in the financial year.

Financial Controls

All Society income and expenditure is managed through the Portsmouth office. Every cheque needs to be signed and counter signed by authorised signatories on the account. All major expenditure needs to be approved at committee level. The Society contracts the services of a bookkeeper to maintain the income and expenditure records on a regular basis.

FUTURE PLANS

The activities for the 2021-22 year will include similar activities to those in 2020-2021, with the development of new training, outreach, projects and publishing activities. It is expected that the Society will continue to develop online offerings to allow more people to attend from all over the world. In addition, effort will be spent on reviewing the Society's activities, determining future activities for ensuring a stable financial future for the Society as well as supporting divers and non-divers alike with clear training paths and to motivate them to continue learning about nautical archaeology.

NAUTICAL ARCHAEOLOGY SOCIETY
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 31 MARCH 2021

STRUCTURE, GOVERNANCE AND MANAGEMENT

Governing Document

The Nautical Archaeology Society (NAS) is a charity registered in England and Wales (Registration number 264209) and registered in Scotland (Registration number SC040130). The Society is a company limited by guarantee, registered in England and Wales (Company number 01039270). The registered address, to which all correspondence should be addressed is shown on page 6.

The Society was originally incorporated and registered as a charity in 1972 under the name of the Nautical Archaeology Trust. The Nautical Archaeology Society in its present form dates from 1981 when the name and constitution were changed, and the memorandum and articles of association were revised accordingly.

The governance of the Society is defined by its memorandum and articles of association. In accordance with the articles of association, the Society is governed by an executive committee. The members of the Executive Committee are the Trustee Directors. Members of the Executive Committee are elected at the Annual General Meeting (AGM) for a period of three years and on expiry of this term are free to stand again. The Executive Committee may also choose to co-opt additional members during the year. Any members co-opted in this manner will stand for election at the next AGM. The Executive Committee also benefit from the advice of Vice-Presidents. Vice-Presidents are appointed for a period of three years at the discretion of the Executive Committee but do not count towards the quorate of the Executive Committee and do not have voting powers on the Executive Committee.

Organisational Structure

There are sub-committees which are formed for the management of the Society's publication activities and for general management of the Society's activities in the office at Portsmouth, onto which members may be co-opted. The Society, by the year-end, had three full time employees. Bookkeeping is carried out by a sub-contractor.

INDEPENDENT EXAMINER'S REPORT TO THE TRUSTEES OF NAUTICAL ARCHAEOLOGY SOCIETY

Independent examiner's report to the trustees of Nautical Archaeology Society ('the Company')

I report to the charity trustees on my examination of the accounts of the Company for the year ended 31 March 2021.

Responsibilities and basis of report

As the charity's trustees of the Company (and also its directors for the purposes of company law) you are responsible for the preparation of the accounts in accordance with the requirements of the Charities and Trustee Investment (Scotland) Act 2005 ('the 2005 Act'), the Charities Accounts (Scotland) Regulations 2006 (as amended) and the Companies Act 2006 ('the 2006 Act'). You are satisfied that the accounts of the company are not required by charity or company law to be audited and have chosen instead to have an independent examination.

Having satisfied myself that the accounts of the Company are not required to be audited under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of your charity's accounts as carried out under section 44 (1) (C) of the 2005 Act and section 145 of the Charities Act 2011 ('the 2011 Act'). In carrying out my examination I have followed the requirement of Regulation 11 of the Charities Accounts (Scotland) Regulations 2006 (as amended) and the Directions given by the Charity Commission under section 145(5) (b) of the 2011 Act.

Independent examiner's statement

Since your charity's gross income exceeded £250,000 your examiner must be a member of a listed body. I can confirm that I am qualified to undertake the examination because I am a registered member of FCCA which is one of the listed bodies.

Since the Company is required by company law to prepare its accounts on an accruals basis and is registered as a charity in Scotland your examiner must be a member of a body listed in Regulation 11 (2) of the Charities Accounts (Scotland) Regulations 2006 (as amended). I can confirm that I am qualified to undertake the examination because I am a registered member of FCCA which is one of the listed bodies.

I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe:

1. accounting records were not kept in respect of the Company as required by section 386 of the 2006 Act; or
2. the accounts do not accord with those records; or
3. the accounts do not comply with the accounting requirements of section 396 of the 2006 Act other than any requirement that the accounts give a true and fair view which is not a matter considered as part of an independent examination; or
4. the accounts have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities (applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

The charitable company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 March 2021.

The members have not required the company to obtain an audit of its financial statements for the year ended 31 March 2021 in accordance with Section 476 of the Companies Act 2006.

The trustees acknowledge their responsibilities for

- ensuring that the charitable company keeps accounting records that comply with Sections 386 and 387 of the Companies Act 2006 and
- preparing financial statements which give a true and fair view of the state of affairs of the charitable company as at the end of each financial year and of its surplus or deficit for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the charitable company.

The notes form part of these financial statements

NAUTICAL ARCHAEOLOGY SOCIETY

BALANCE SHEET - continued
31 MARCH 2021

These financial statements have been prepared in accordance with the provisions applicable to charitable companies subject to the small companies regime.

The financial statements were approved by the Board of Trustees and authorised for issue on 16th Oct 2021 and were signed on its behalf by:

S Harvey - Trustee

The notes form part of these financial statements

NAUTICAL ARCHAEOLOGY SOCIETY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The financial statements of the charitable company, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Income

All income is recognised in the Statement of Financial Activities once the charity has entitlement to the funds, it is probable that the income will be received and the amount can be measured reliably. Such income is only deferred when:

- The donor specifies that the grant must only be used in future accounting periods; or
- The donor has imposed conditions which must be met before the charity has unconditional entitlement.

Investment income is recognised on a receivable basis.

Expenditure

Liabilities are recognised as expenditure as soon as there is a legal or constructive obligation committing the charity to that expenditure, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all cost related to the category. Where costs cannot be directly attributed to particular headings they have been allocated to activities on a basis consistent with the use of resources.

Intangible fixed assets

Intangible fixed assets (including website costs) are amortised on a straight line basis over their estimated useful economic lives, which is considered to be 5 years.

Tangible fixed assets

Tangible fixed assets over £100 are capitalised at cost.

Tangible fixed assets are depreciated over their estimated useful lives as follows:

Training equipment	33.33% and 20% straight line
Furniture	20% straight line
Computer equipment	33.33% straight line

Heritage assets

The NAS has been formally collecting material since its inception. Collections arrive at the Museum as a result of gift, bequest, purchase or loans. In addition the NAS undertakes proactive acquisition of books. The number of items purchased in any one year is generally low, and would typically number between 6 and 12 books. All the books are catalogued on an Excel spreadsheet administered by the NAS.

Heritage assets are capitalised at cost unless they have been donated when they are included at market value, where such a value is readily available. No depreciation is provided for on heritage assets.

NAUTICAL ARCHAEOLOGY SOCIETY

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 MARCH 2021

1. ACCOUNTING POLICIES - continued

Heritage assets

The collection

The Nautical Archaeology Society holds a library collection that is split between its office in Portsmouth and its North East branch in Hartlepool. The library collection has not been valued as, due to the specific and individual nature of the books and periodicals held, it is not believed to be possible to obtain a reliable value of the collection without incurring a cost disproportionate to the benefit of the information reported to the readers of the accounts.

The collection consists of books, periodicals, magazines, CD's and DVD's on the subject of nautical archaeology and history as well as a nearly complete collection of Lloyd's Registers dating from 1876 to 1966.

By categories, numbers held are:

Printed books - 400

Periodicals / Journals - 500

Magazines - 300

CD's / DVD's - 390

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Taxation

The charity is exempt from corporation tax on its charitable activities.

Fund accounting

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the Statement of Financial Activities on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The charitable company operates a defined contribution pension scheme. Contributions payable to the charitable company's pension scheme are charged to the Statement of Financial Activities in the period to which they relate.

Financial instruments

The charity only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities like trade and other accounts receivable and payable and investments in stocks and shares. The measurement basis used for these instruments is detailed below.

Debtors and cash at bank

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due. Cash at bank and in hand included cash held on deposit or in a current account.

NAUTICAL ARCHAEOLOGY SOCIETY

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 MARCH 2021

1. ACCOUNTING POLICIES - continued

Creditors and provisions

Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

Description of funds

Wales

Grant aid by Cadw was used to carry out an assessment of all currently known material relating to the Bronze Bell (Tal-y-Bont) protected wreck. To use the existing information assessed, together with knowledge of the site from licensees, plan a suitable route around the site that would provide divers visiting the shipwreck with an enjoyable and informative dive, and depart having gained a better understanding of both the site and the remains of the wreck. Finally, the grant was used to compile documentation that would contribute to providing a bi-lingual underwater guide suitable for divers. An additional £2,000 in grant support from Cadw was used to undertake additional work on the Bronze Bell (Tal-y-Bont) Diver Trail project, specifically to undertake 3D photogrammetry surveys of several items from the wreck site which currently are housed at the Maritime Museum in Barmouth.

RCAHMW

A grant was received from the Royal Commission on the Ancient and Historical Monuments of Wales for development work, as part of the partnership project: Commemorating the Forgotten U-boat War around the Welsh Coast, 1914-18. The U-boat War project will lead to NAS events being held in North Wales in 2018-19 and in South-Wales in 2019-20

Norman's Bay Wreck Project

A grant was received from Historic England for research on the Norman's Bay Wreck and the creation of an online interpretative trail of the protected wreck.

IJNA Publication Support

The NAS received a grant from the Honor Frost Foundation to support the International Journal of Nautical Archaeology. The grant is being used to provide translations of article abstracts, to support the journal editor to attend international conferences as well as creating an open access prize for a single article every year.

NAUTICAL ARCHAEOLOGY SOCIETY

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 MARCH 2021

20. MOVEMENT IN FUNDS - continued

Cyprus Fieldschool

This fund represents income received from the Honor Frost Foundation for the delivery of the 2017 Cyprus Underwater Archaeology Fieldschool.

Big Anchor Project

This project has been funded by a Crowdfunder campaign to help develop a new website for the project.

Wales U Boats Project

During 2018 -19 this Heritage Lottery Funded project used the latest imaging techniques to reveal underwater wrecks from the Great War, and will support coastal communities around Wales to tell their previously untold stories about the Great War at Sea. As a project partner the NAS will be involved in delivering two fieldschool events in North Wales in 2018-19 and South Wales in 2019-20.

Arabic Elearning Project

This project funded by the Honor Frost Foundation will result in the creation of Arabic versions of the NAS Elearning Courses in Maritime and Underwater Archaeology.

Resilient Heritage HLF

The NAS received a grant from the Heritage Fund (previously the Heritage Lottery Fund). The grant will help NAS deliver our strategic plan to build awareness of threat to our nautical heritage and achieve greater engagement and support from a larger and more diverse public audience and private sector organisations. This will involve new involvement and fundraising strategies, additional staff, trustee and volunteer training, the re-development of marketing and fundraising materials and greater use of social media to reach a larger and broader range of people. The project is due to complete late 2019-20.

IJNA Support HFF

The NAS received a grant from the Honor Frost Foundation to support the International Journal of Nautical Archaeology (IJNA). The grant is being used to provide translations of article abstracts, to support the journal editor to attend international conferences, to broadcast live online webinars, as well as creating an annual open access prize for a single IJNA article.

London Wreck Project

Restricted fund for income associated with research and investigation of the protected wreck of the London in the Thames Estuary.

Licensee Succession Project - Historic England

A Historic England grant funded project in partnership with MSDS Marine to help build new strong licensee teams to work on England's protected wrecks.

Chesil Beach Project

A Historic England grant funded project in partnership with Maritime Archaeology Trust to undertake work on the Chesil Beach Protected Wrecks, involving the local community. Also involves drafting a conservation statement and management plan for the wreck and creating an online dive tour to allow the public to access the wreck from their computer.

Recover Record Rebury study

A Historic England grant funded feasibility study to evaluate whether a programme of recovery, record and then subsequent reburial could be undertaken on the protected wreck of the London in the Thames Estuary.

Save the London

Restricted fund for donations associated with the campaign to save the London shipwreck in the Thames Estuary. The campaign is being run in partnership with the London Shipwreck Trust with funds raised being allocated to cover the cost of diving, conservation of material and the costs of running the campaign itself.

NAUTICAL ARCHAEOLOGY SOCIETY

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 MARCH 2021

20. MOVEMENT IN FUNDS - continued

RCE Bronze Gun Site

Restricted fund for income associated with the research and investigation of the Unknown Wreck, off Eastbourne. The site was protected by DCMS in 2019 as it is believed to contain the remains of a 17th century warship.

Eastbourne Wreck

The NAS was awarded grants by the Cultural Heritage Agency of the Netherlands (RCE) to investigate an unknown wreck discovered off the coast of Eastbourne in 2019. It is likely that the historic wreck is of Dutch origin.

Lottery Covid

In 2020 the NAS were awarded a grant from the National Heritage Lottery Fund to help it come through the Covid-19 crisis intact and with strength to continue into the future. The grant allowed the NAS to adapt heritage engagement offerings and supported the employment of the NAS Public Engagement Officer to be innovative and proactive in communication streams, especially through our digital output including online courses and webinars.

eLearning Development

A grant from Historic England was awarded to help the NAS to expand online educational courses. The grant would also allow the creation of two new 'specialist' courses covering monitoring archaeological sites through photography and photogrammetry and cannon research and recording.

Transfers between funds

The transfers from restricted to unrestricted funds relate to funds on which restrictions have been satisfied and therefore are no longer considered to be restricted funds. Restricted funds in deficit all have sufficient funding in 2020/21 to cover any shortfalls.

21. EMPLOYEE BENEFIT OBLIGATIONS

During the year the charitable company operated a defined contribution pension scheme for its employees. The charge for the year was £6,687 (2020: £6,798). There were no amounts prepaid or outstanding with the scheme at the balance sheet date (2020: £nil).

22. RELATED PARTY DISCLOSURES

There were no related party transactions for the year ended 31 March 2021.

23. ULTIMATE CONTROLLING PARTY

The charitable company is not under the control of another entity or any one individual.

24. LEGAL STATUS OF THE CHARITY

The charity is a company limited by guarantee and has no share capital. The liability of each member in the event of winding up is limited to £5.

NAUTICAL ARCHAEOLOGY SOCIETY
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 31 MARCH 2021

The trustees who are also directors of the charity for the purposes of the Companies Act 2006, present their report with the financial statements of the charity for the year ended 31 March 2021. The trustees have adopted the provisions of Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019).

OBJECTIVES AND ACTIVITIES

Objectives and Aims

The aims and objectives of the Society are to:

- preserve our nautical heritage,
- act as a focus for nautical archaeology and to provide publications,
- provide education, training and information for improving techniques of excavation, recording and preservation of nautical heritage.

NAUTICAL ARCHAEOLOGY SOCIETY

REPORT OF THE TRUSTEES FOR THE YEAR ENDED 31 MARCH 2021

OBJECTIVES AND ACTIVITIES

Review of Activities

The purpose of this section is to summarise the various activities of the Society for the year ended 31 March 2021. The Society's office and staff are well established in the Historic England casemates at Fort Cumberland, Portsmouth. Due to Covid-19/Corona Virus staff spent much of their time working from home.

Outreach Activity

Outreach activity has been supported by the activities of volunteers giving talks throughout the country. Due to Covid-19/Corona Virus the Society was unable to exhibit at the Dive Show at the NEC. The Society continues to campaign to save the London shipwreck in the Thames Estuary and arranged an online event to celebrate the work being done to save artefacts from the wreck. Due to Covid-19/Corona Virus restrictions, the Society ran (for the first time) an online conference weekend where speakers presented papers on research undertaken and virtual exhibitors provided exhibition stands on subjects and projects relevant to nautical archaeology. During the UK's Covid-19/Corona Virus lockdown the Society hosted a series of free weekly online talks and well as launching a free monthly webinar series with grant support from the Honor Frost Foundation

Publishing Activity

During the year the Society continued to publish the International Journal of Nautical Archaeology through John Wiley and Sons. At the end of the year the Society entered into an agreement to publish the journal with Taylor & Francis. The members' online newsfeed continues to be published in-house and stories from the Society and its members is published on its website. Sales continued of the Society's handbook, Archaeology Underwater, and well as the NAS Monograph series.

Publications Grants and Awards

The NAS received a grant from the Honor Frost Foundation to support the International Journal of Nautical Archaeology. The grant is being used to provide translations of article abstracts, to support the costs of the journal editor including helping the editor to attend international conferences. There were no Joan Du Plat Taylor grants awarded in 2020-21.

Education Activity

The Society continued to deliver its Education scheme, through the Education Programme that was relaunched in 2015. It continues to run eLearning courses in Maritime Archaeology, Underwater Archaeology and Foreshore Archaeology as well as practical skills days, both underwater and on foreshore sites. Due to Covid-19/Corona Virus restrictions the Society began to host online live courses in a wide number of special interest topics using experts in their field. Due to Covid-19/Corona Virus restrictions the Society was only able to arrange a limited number of opportunities for recreational divers to visit UK Protected Wrecks to raise awareness of protection of underwater cultural heritage. The Society remains a leading organisation for the education of recreational divers, archaeologists and non-archaeologists in the techniques of maritime archaeology on land, in the inter-tidal zone and underwater. The Education Programme is widely taught overseas by international training partners and has been praised internationally.

Project Activity

The Society organised a number of projects which enabled volunteers to engage with nautical archaeology and develop skills. Projects included continuing research into the protected wreck of the historic submarine Holland No.5 and the Norman's Bay Wreck, the Chesil Beach Wrecks and a newly protected wreck off Eastbourne. The NAS received funding from a number of different grant providers (see restricted funds) to run training activities and fieldwork involving the public.

The Nautical Archaeology Sub-Aqua Club (NASAC) was set up in 2009-10 as an affiliated branch of the Sub-Aqua Association (BSAC). This dive club is established to operate as a BSAC branch carrying out underwater archaeology dives using NAS equipment, including a boat bought in October 2011.

Trading Activity

The Society continued to sell merchandise, consisting of books relating to nautical archaeology, survey equipment for nautical archaeology and clothing advertising the Society, to further the aims of the Society. The sales include books (including the NAS handbook and monographs) and survey equipment to be utilised by students of the Society's training courses.

NAUTICAL ARCHAEOLOGY SOCIETY
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 31 MARCH 2021

OBJECTIVES AND ACTIVITIES

PUBLIC BENEFIT

The Trustee Directors confirm that they have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the Society's aims and objectives and in planning future activities. In accordance with the charitable objects, the Society educates and raises awareness of maritime cultural heritage. Through education, particularly of the general public and the diving community, the maritime cultural heritage is valued and respected and so preserved for future generations. While the Society's courses are generally provided on a fee basis, the Society obtains grants where possible to subsidise such courses and also provides free talks.

The nautical archaeological research which is carried out and promoted by the Society results in knowledge that is recorded in public archives and is also made available through publications. The Society's website is used to disseminate information for the benefit of the public. The Society's learned journal and monograph series ensure that all such research of a suitable standard for publication, whether carried out by the Society or by others will be available to current and future researchers. The Society's editors encourage and support new authors of such work to help bring work to publication.

FINANCIAL REVIEW

Reserves Policy

The Executive Committee has a reserves policy which states that the reserves should be £60,000 of liquid assets. This figure is principally to provide for working capital in respect of grants paid in arrears, the need for deposits to be paid in advance and provides a reserve against unexpected loss of income, enabling the Society to meet its commitments for a period of at least six months. No reserves are designated but expenditure may be authorised against the reserves provided that income sources are in a favourable state and investment is required to support the future sustainability of the Society.

NAUTICAL ARCHAEOLOGY SOCIETY
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 31 MARCH 2021

FINANCIAL REVIEW

Summary of Financial Position

At the end of the year 2020-2021 the Society's funds stood at £241,635 (2020: £124,970). The accounts report a surplus of £116,665 for the year to 31 March 2021 (2020: £4,652).

Grants

The NAS received a contribution from the Heritage Lottery Funded CITiZAN Project, for providing support to the south-west CITiZAN team who are based in offices at Fort Cumberland.

The NAS received a grant from the Honor Frost Foundation to support the International Journal of Nautical Archaeology. The grant is being used to provide translations of article abstracts and to support the costs of the journal editor and to allow the editor to attend international conferences.

During the year the NAS completed a Resilient Heritage project grant from the Heritage Fund (previously the Heritage Lottery Heritage Fund). The grant has helped NAS deliver our strategic plan to build awareness of threat to our nautical heritage and achieve greater engagement and support from a larger and more diverse public audience and private sector organisations. This involved new marketing and fundraising strategies, additional staff, trustee and volunteer training, the re-development of marketing and fundraising materials and greater use of social media to reach a larger and broader range of people. The project completed in October 2020.

The NAS received a Heritage Emergency Fund grant from the Heritage Fund to support the Society through the Covid-19/Corona Virus pandemic. The grant supported staff costs and marketing and advertising over four months from July through to October 2020.

During the year the NAS completed "A feasibility study for a scheme for the "Recovery, Recording and Reburial" of material from the protected wreck of The London (1665) in the Thames Estuary". The project was grant funded by Historic England and completed in January 2021. The Society made a recommendation for a pilot study to be commissioned and awaits Historic England's guidance.

The NAS received a grant from Historic England to update its three eLearning courses and to develop two new eLearning courses on Cannon Research and Recording and Monitoring Archaeological Sites with Photogrammetry. This project will complete in 2021-22.

The NAS continues to manage a grant from the Honor Frost Foundation that will result in the creation of Arabic versions of the NAS eLearning Courses in Maritime and Underwater Archaeology. The project is now due to complete in 2021-22.

The NAS received a grant to co-manage (with the Maritime Archaeology Trust) a community archaeology project on the Chesil Beach Protected Wrecks off Chesil Beach, Portland, Dorset. This work with included diver training and educational open days for the public will complete in April 2021.

The NAS received a grant from the Honor Frost Foundation for the development of the Big Anchor Project website and database. The grant allows for the creation of a project mobile App to allow the real time recording of anchors by the general public. The project is due to complete in 2021-22.

The NAS received a grant income from a partnership with MSDS Marine to work on a project titled "Historic England Affiliated Volunteer Recruitment and Engagement Project", to run two pilot projects to link two existing Licensee wreck teams with new diver groups; to report on the successes and challenges faced in the project; and, to make a series of recommendations for future licensee volunteer recruitment. In 2020-21 the project was impacted by Covid-19/Corona Virus and should now complete in 2021-22.

Subscriptions

Membership subscriptions include online membership, including access to a member's online newsfeed as well as online or hardcopy membership providing access to the International Journal of Nautical Archaeology. Concessionary subscriptions are provided for students and unsalaried individuals. Members who are UK taxpayers may elect to subscribe as Gift Aid. Gift Aid is not eligible where members receive a benefit from their membership (including discounts on training and conference attendance) that exceeds thresholds defined by HM Revenue and Customs.

NAUTICAL ARCHAEOLOGY SOCIETY
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 31 MARCH 2021

FINANCIAL REVIEW

Publishing

Wiley publish and distribute the International Journal of Nautical Archaeology on behalf of the Society. The Society receives a profit share and a contribution to the editorial costs from sales of subscriptions to the journal by Wiley. There are no royalties payable for the Monographs which are published by Archeopress. The Society's handbook, published in 2008 by Wiley continues to sell and the Society has received royalties from Wiley.

Training and Project Income

Income from attendees on training events, supported by the grants covered the expenditure on these activities. A small amount of project income derives from the contributions of participants in protected wreck visits including to the Normans' Bay Wreck, the Holland 5 submarine, as well as to HMS Invincible and the A1 submarine in the Solent.

Outreach Income including Annual Conference

The annual conference was held online with the support of numerous sponsors and exhibitors. Small donations were received from outreach activities, but these were less than the total costs of outreach.

Merchandise

There was a small amount of income from the sale of merchandise, nautical archaeology books and equipment and branded clothing.

International Licensing

The Society receives an income in respect of licensing the NAS training materials to suitable organisations outside the UK and sales of NAS qualification cards to such organisations. This source of income enables the NAS to provide education and advice to individuals and organisations to further nautical archaeology research outside the UK.

Non-operational Income

The Society's reserves are held in an interest-bearing investment account operated in conjunction with a current account. A small amount of interest was received in the financial year.

Financial Controls

All Society income and expenditure is managed through the Portsmouth office. Every cheque needs to be signed and counter signed by authorised signatories on the account. All major expenditure needs to be approved at committee level. The Society contracts the services of a bookkeeper to maintain the income and expenditure records on a regular basis.

FUTURE PLANS

The activities for the 2021-22 year will include similar activities to those in 2020-2021, with the development of new training, outreach, projects and publishing activities. It is expected that the Society will continue to develop online offerings to allow more people to attend from all over the world. In addition, effort will be spent on reviewing the Society's activities, determining future activities for ensuring a stable financial future for the Society as well as supporting divers and non-divers alike with clear training paths and to motivate them to continue learning about nautical archaeology.

NAUTICAL ARCHAEOLOGY SOCIETY
REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 31 MARCH 2021

STRUCTURE, GOVERNANCE AND MANAGEMENT

Governing Document

The Nautical Archaeology Society (NAS) is a charity registered in England and Wales (Registration number 264209) and registered in Scotland (Registration number SC040130). The Society is a company limited by guarantee, registered in England and Wales (Company number 01039270). The registered address, to which all correspondence should be addressed is shown on page 6.

The Society was originally incorporated and registered as a charity in 1972 under the name of the Nautical Archaeology Trust. The Nautical Archaeology Society in its present form dates from 1981 when the name and constitution were changed, and the memorandum and articles of association were revised accordingly.

The governance of the Society is defined by its memorandum and articles of association. In accordance with the articles of association, the Society is governed by an executive committee. The members of the Executive Committee are the Trustee Directors. Members of the Executive Committee are elected at the Annual General Meeting (AGM) for a period of three years and on expiry of this term are free to stand again. The Executive Committee may also choose to co-opt additional members during the year. Any members co-opted in this manner will stand for election at the next AGM. The Executive Committee also benefit from the advice of Vice-Presidents. Vice-Presidents are appointed for a period of three years at the discretion of the Executive Committee but do not count towards the quorate of the Executive Committee and do not have voting powers on the Executive Committee.

Organisational Structure

There are sub-committees which are formed for the management of the Society's publication activities and for general management of the Society's activities in the office at Portsmouth, onto which members may be co-opted. The Society, by the year-end, had three full time employees. Bookkeeping is carried out by a sub-contractor.

INDEPENDENT EXAMINER'S REPORT TO THE TRUSTEES OF NAUTICAL ARCHAEOLOGY SOCIETY

Independent examiner's report to the trustees of Nautical Archaeology Society ('the Company')

I report to the charity trustees on my examination of the accounts of the Company for the year ended 31 March 2021.

Responsibilities and basis of report

As the charity's trustees of the Company (and also its directors for the purposes of company law) you are responsible for the preparation of the accounts in accordance with the requirements of the Charities and Trustee Investment (Scotland) Act 2005 ('the 2005 Act'), the Charities Accounts (Scotland) Regulations 2006 (as amended) and the Companies Act 2006 ('the 2006 Act'). You are satisfied that the accounts of the company are not required by charity or company law to be audited and have chosen instead to have an independent examination.

Having satisfied myself that the accounts of the Company are not required to be audited under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of your charity's accounts as carried out under section 44 (1) (C) of the 2005 Act and section 145 of the Charities Act 2011 ('the 2011 Act'). In carrying out my examination I have followed the requirement of Regulation 11 of the Charities Accounts (Scotland) Regulations 2006 (as amended) and the Directions given by the Charity Commission under section 145(5) (b) of the 2011 Act.

Independent examiner's statement

Since your charity's gross income exceeded £250,000 your examiner must be a member of a listed body. I can confirm that I am qualified to undertake the examination because I am a registered member of FCCA which is one of the listed bodies.

Since the Company is required by company law to prepare its accounts on an accruals basis and is registered as a charity in Scotland your examiner must be a member of a body listed in Regulation 11 (2) of the Charities Accounts (Scotland) Regulations 2006 (as amended). I can confirm that I am qualified to undertake the examination because I am a registered member of FCCA which is one of the listed bodies.

I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe:

1. accounting records were not kept in respect of the Company as required by section 386 of the 2006 Act; or
2. the accounts do not accord with those records; or
3. the accounts do not comply with the accounting requirements of section 396 of the 2006 Act other than any requirement that the accounts give a true and fair view which is not a matter considered as part of an independent examination; or
4. the accounts have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities (applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

The charitable company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 March 2021.

The members have not required the company to obtain an audit of its financial statements for the year ended 31 March 2021 in accordance with Section 476 of the Companies Act 2006.

The trustees acknowledge their responsibilities for

- ensuring that the charitable company keeps accounting records that comply with Sections 386 and 387 of the Companies Act 2006 and
- preparing financial statements which give a true and fair view of the state of affairs of the charitable company as at the end of each financial year and of its surplus or deficit for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the charitable company.

NAUTICAL ARCHAEOLOGY SOCIETY

BALANCE SHEET - continued
31 MARCH 2021

These financial statements have been prepared in accordance with the provisions applicable to charitable companies subject to the small companies regime.

The financial statements were approved by the Board of Trustees and authorised for issue on 16th Oct 2021 and were signed on its behalf by:

S Harvey - Trustee

The notes form part of these financial statements

NAUTICAL ARCHAEOLOGY SOCIETY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The financial statements of the charitable company, which is a public benefit entity under FRS 102, have been prepared in accordance with the Charities SORP (FRS 102) 'Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)', Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Income

All income is recognised in the Statement of Financial Activities once the charity has entitlement to the funds, it is probable that the income will be received and the amount can be measured reliably. Such income is only deferred when:

- The donor specifies that the grant must only be used in future accounting periods; or
- The donor has imposed conditions which must be met before the charity has unconditional entitlement.

Investment income is recognised on a receivable basis.

Expenditure

Liabilities are recognised as expenditure as soon as there is a legal or constructive obligation committing the charity to that expenditure, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all cost related to the category. Where costs cannot be directly attributed to particular headings they have been allocated to activities on a basis consistent with the use of resources.

Intangible fixed assets

Intangible fixed assets (including website costs) are amortised on a straight line basis over their estimated useful economic lives, which is considered to be 5 years.

Tangible fixed assets

Tangible fixed assets over £100 are capitalised at cost.

Tangible fixed assets are depreciated over their estimated useful lives as follows:

Training equipment	33.33% and 20% straight line
Furniture	20% straight line
Computer equipment	33.33% straight line

Heritage assets

The NAS has been formally collecting material since its inception. Collections arrive at the Museum as a result of gift, bequest, purchase or loans. In addition the NAS undertakes proactive acquisition of books. The number of items purchased in any one year is generally low, and would typically number between 6 and 12 books. All the books are catalogued on an Excel spreadsheet administered by the NAS.

Heritage assets are capitalised at cost unless they have been donated when they are included at market value, where such a value is readily available. No depreciation is provided for on heritage assets.

NAUTICAL ARCHAEOLOGY SOCIETY

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 MARCH 2021

1. ACCOUNTING POLICIES - continued

Heritage assets

The collection

The Nautical Archaeology Society holds a library collection that is split between its office in Portsmouth and its North East branch in Hartlepool. The library collection has not been valued as, due to the specific and individual nature of the books and periodicals held, it is not believed to be possible to obtain a reliable value of the collection without incurring a cost disproportionate to the benefit of the information reported to the readers of the accounts.

The collection consists of books, periodicals, magazines, CD's and DVD's on the subject of nautical archaeology and history as well as a nearly complete collection of Lloyd's Registers dating from 1876 to 1966.

By categories, numbers held are:

Printed books - 400

Periodicals / Journals - 500

Magazines - 300

CD's / DVD's - 390

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Taxation

The charity is exempt from corporation tax on its charitable activities.

Fund accounting

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the Statement of Financial Activities on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The charitable company operates a defined contribution pension scheme. Contributions payable to the charitable company's pension scheme are charged to the Statement of Financial Activities in the period to which they relate.

Financial instruments

The charity only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities like trade and other accounts receivable and payable and investments in stocks and shares. The measurement basis used for these instruments is detailed below.

Debtors and cash at bank

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due. Cash at bank and in hand included cash held on deposit or in a current account.

NAUTICAL ARCHAEOLOGY SOCIETY

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 MARCH 2021

1. ACCOUNTING POLICIES - continued

Creditors and provisions

Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

Description of funds

Wales

Grant aid by Cadw was used to carry out an assessment of all currently known material relating to the Bronze Bell (Tal-y-Bont) protected wreck. To use the existing information assessed, together with knowledge of the site from licensees, plan a suitable route around the site that would provide divers visiting the shipwreck with an enjoyable and informative dive, and depart having gained a better understanding of both the site and the remains of the wreck. Finally, the grant was used to compile documentation that would contribute to providing a bi-lingual underwater guide suitable for divers. An additional £2,000 in grant support from Cadw was used to undertake additional work on the Bronze Bell (Tal-y-Bont) Diver Trail project, specifically to undertake 3D photogrammetry surveys of several items from the wreck site which currently are housed at the Maritime Museum in Barmouth.

RCAHMW

A grant was received from the Royal Commission on the Ancient and Historical Monuments of Wales for development work, as part of the partnership project: Commemorating the Forgotten U-boat War around the Welsh Coast, 1914-18. The U-boat War project will lead to NAS events being held in North Wales in 2018-19 and in South-Wales in 2019-20

Norman's Bay Wreck Project

A grant was received from Historic England for research on the Norman's Bay Wreck and the creation of an online interpretative trail of the protected wreck.

IJNA Publication Support

The NAS received a grant from the Honor Frost Foundation to support the International Journal of Nautical Archaeology. The grant is being used to provide translations of article abstracts, to support the journal editor to attend international conferences as well as creating an open access prize for a single article every year.

NAUTICAL ARCHAEOLOGY SOCIETY

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 MARCH 2021

20. MOVEMENT IN FUNDS - continued

Cyprus Fieldschool

This fund represents income received from the Honor Frost Foundation for the delivery of the 2017 Cyprus Underwater Archaeology Fieldschool.

Big Anchor Project

This project has been funded by a Crowdfunder campaign to help develop a new website for the project.

Wales U Boats Project

During 2018 -19 this Heritage Lottery Funded project used the latest imaging techniques to reveal underwater wrecks from the Great War, and will support coastal communities around Wales to tell their previously untold stories about the Great War at Sea. As a project partner the NAS will be involved in delivering two fieldschool events in North Wales in 2018-19 and South Wales in 2019-20.

Arabic Elearning Project

This project funded by the Honor Frost Foundation will result in the creation of Arabic versions of the NAS Elearning Courses in Maritime and Underwater Archaeology.

Resilient Heritage HLF

The NAS received a grant from the Heritage Fund (previously the Heritage Lottery Fund). The grant will help NAS deliver our strategic plan to build awareness of threat to our nautical heritage and achieve greater engagement and support from a larger and more diverse public audience and private sector organisations. This will involve new involvement and fundraising strategies, additional staff, trustee and volunteer training, the re-development of marketing and fundraising materials and greater use of social media to reach a larger and broader range of people. The project is due to complete late 2019-20.

IJNA Support HFF

The NAS received a grant from the Honor Frost Foundation to support the International Journal of Nautical Archaeology (IJNA). The grant is being used to provide translations of article abstracts, to support the journal editor to attend international conferences, to broadcast live online webinars, as well as creating an annual open access prize for a single IJNA article.

London Wreck Project

Restricted fund for income associated with research and investigation of the protected wreck of the London in the Thames Estuary.

Licensee Succession Project - Historic England

A Historic England grant funded project in partnership with MSDS Marine to help build new strong licensee teams to work on England's protected wrecks.

Chesil Beach Project

A Historic England grant funded project in partnership with Maritime Archaeology Trust to undertake work on the Chesil Beach Protected Wrecks, involving the local community. Also involves drafting a conservation statement and management plan for the wreck and creating an online dive tour to allow the public to access the wreck from their computer.

Recover Record Rebury study

A Historic England grant funded feasibility study to evaluate whether a programme of recovery, record and then subsequent reburial could be undertaken on the protected wreck of the London in the Thames Estuary.

Save the London

Restricted fund for donations associated with the campaign to save the London shipwreck in the Thames Estuary. The campaign is being run in partnership with the London Shipwreck Trust with funds raised being allocated to cover the cost of diving, conservation of material and the costs of running the campaign itself.

NAUTICAL ARCHAEOLOGY SOCIETY

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 MARCH 2021

20. MOVEMENT IN FUNDS - continued

RCE Bronze Gun Site

Restricted fund for income associated with the research and investigation of the Unknown Wreck, off Eastbourne. The site was protected by DCMS in 2019 as it is believed to contain the remains of a 17th century warship.

Eastbourne Wreck

The NAS was awarded grants by the Cultural Heritage Agency of the Netherlands (RCE) to investigate an unknown wreck discovered off the coast of Eastbourne in 2019. It is likely that the historic wreck is of Dutch origin.

Lottery Covid

In 2020 the NAS were awarded a grant from the National Heritage Lottery Fund to help it come through the Covid-19 crisis intact and with strength to continue into the future. The grant allowed the NAS to adapt heritage engagement offerings and supported the employment of the NAS Public Engagement Officer to be innovative and proactive in communication streams, especially through our digital output including online courses and webinars.

eLearning Development

A grant from Historic England was awarded to help the NAS to expand online educational courses. The grant would also allow the creation of two new 'specialist' courses covering monitoring archaeological sites through photography and photogrammetry and cannon research and recording.

Transfers between funds

The transfers from restricted to unrestricted funds relate to funds on which restrictions have been satisfied and therefore are no longer considered to be restricted funds. Restricted funds in deficit all have sufficient funding in 2020/21 to cover any shortfalls.

21. EMPLOYEE BENEFIT OBLIGATIONS

During the year the charitable company operated a defined contribution pension scheme for its employees. The charge for the year was £6,687 (2020: £6,798). There were no amounts prepaid or outstanding with the scheme at the balance sheet date (2020: £nil).

22. RELATED PARTY DISCLOSURES
