Reserves policy

It is the policy of the charity that unrestricted funds which have not been designated for a specific use should be maintained at a level equivalent to between three and six month's expenditure. The trustees consider that reserves at this level will ensure that, in the event of a significant drop in funding, they will be able to continue the charity's current activities while consideration is given to ways in which additional funds may be raised. This level of reserves has been maintained throughout the year. As at 31 May 2025, unrestricted funds were £3,862,714 (2024: £3,621,720).

Risk Management

The trustees actively review the major risks which face the charity on a regular basis and believe that the trust, having adequate free resources, combined with an annual review of key financial controls will provide sufficient safeguards in the event of adverse conditions. The trustees have also examined other operational and business risks which face the charity and confirm that they have established systems to mitigate them.

The charity does not hold fundraising events and consequently risk from fire and health and safety is reduced. A reserves policy has been set up to manage financial risk and is regularly reviewed by the trustees.

The trustees have delegated investment powers to Barclays Wealth. The trustees maintain regular contact with Barclays Wealth to discuss the performance and future requirements of the charity. Barclays Wealth has a number of policies in place to ensure that any risks they face are managed Efficiently. These include the following:

- Clients Who make use of Barclays Wealth's nominee services have their stock registered in the name of one of Barclays Wealth's nominee companies. The nominee companies are exclusively non-trading companies as their sole purpose is to hold securities on behalf of their client. These securities are covered by the FSA Investors' Compensation Services.
- Barclays Wealth also carries Professional Indemnity and Comprehensive Crime insurance that provides additional cover of up to £20 million for each and every claim in the event of clients' stock being misappropriated. In addition, should a claim exceed this figure then Barclays Wealth also has the potential protection of its parent company's Crime and Civil Liability Insurance Policy.
- Transactions can only take place be authorised instruction. It is a requirement that all movements of stock to and from Barclays Wealth custodians are only affected on authorisation by authorised personnel.

The trustees' report was approved by the Board of Trustees.

1.1 Accounting convention

The financial statements have been prepared in accordance with the charity's Articles of Association, the Companies Act 2006, FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the Charities SORP "Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)" (effective 1 January 2019). The charity is a Public Benefit Entity as defined by FRS 102.

The charity has taken advantage of the provisions in the SORP for charities not to prepare a Statement of Cash Flows.

The financial statements are prepared in sterling, which is the functional currency of the charity. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

1.2 Going concern

At the time of approving the financial statements, the trustees have a reasonable expectation that the charity has adequate resources to continue in operational existence for the foreseeable future. Thus the trustees continue to adopt the going concern basis of accounting in preparing the financial statements.

1.3 Charitable funds

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purposes of each fund is included in the notes to the financial statements.

1.4 Income

All incoming resources are included on the Statement of Financial Activities when the charity is legally entitled to the income and the amount can be quantified with reasonable accuracy. The following specific policies are applied to particular categories of income.

Voluntary income is received by way of grants, endowments, donations, and gifts and is included in full in the Statement of Financial Activities when receivable. Grants where entitlement is not conditional on the delivery of a specific performance by the charity are recognized when the charity becomes unconditionally entitled to the grant. The value of services has not been included.

Income from investments is included in the year in which it is receivable.

1.5 Expenditure

Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category. Where costs cannot be directly attributed to particular headings, they have been allocated to activities on a basis consistent with the use of resources. Expenditure includes any VAT which cannot be fully recovered and is reported as part of the expenditure to which it relates.

Costs of generating funds comprise investment managers' costs.

Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

Support costs are those costs incurred directly in support of expenditure on the objects of the charity and include project management.

Governance costs comprise all costs involving the public accountability of the charity and its compliance regulations with good practice. These costs include costs relating to independent examination and legal fees together with an apportionment of overhead and support costs.

Grants offered subject to conditions which have not been met at the year-end date are noted as a commitment but not accrued as expenditure.

1.6 Fixed asset investments

Investments held as fixed assets are revalued at mid-market value at the balance sheet date and the gain or loss taken to the Statement of Financial Activities.

1.7 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, cash contained within the investment portfolio, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.8 Taxation

The charity is exempt from corporation tax on its charitable activities.

2 Critical accounting estimates and judgements

In the application of the charity's accounting policies, the trustees are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

The Trustees do not consider that there are any key areas of judgement or estimation uncertainty within the financial statements.
