THE TRUST'S AIMS AND OBJECTIVES

The objects of the Trust as set out in its Trust Deed are the advancement of education for people of all ages, and all religious faiths and none, in particular by promoting the use of the Cathedral and Abbey Church of St Alban and its connections as an educational resource.

The Trust advances these objects by raising funds to help with the cost of St Alban Cathedral's education activities and by providing support and expertise in all areas of this part of the Cathedral's work.

St Albans Cathedral has been a renowned centre of learning for many centuries and continues this tradition to the present day. The Cathedral's award-winning school and adult learning programmes were both the first of their kind in the United Kingdom.

The Cathedral's schools team hosts visits from over 14,000 children each year, using the Cathedral building as its classroom. The team's programme of trails and workshops complements the National Curriculum and gives children an opportunity to develop their skills in a variety of ways, as well as instilling a sense of wonder, discovery and fun. The schools team not only works with primary and secondary school children, but also with sixth form students and those at university.

The Cathedral is one of only a few cathedrals in the country which offers a full programme of adult learning events designed to explore faith, history and culture. These include talks, study days, café events, language courses and discussion groups, covering anything from theology, spiritual and biblical studies, politics and history, ancient languages, art and literature, and film and music. The Cathedral also offers a part-time theology course which allows students to explore the Christian faith and work towards the accredited St Albans Certificate in Theology.

The Cathedral also benefits from having a modern theological lending library containing books on a variety of subjects, along with an archives collection containing materials pertaining to the life and faith of the Cathedral over the course of history.

The Trust's vision is to secure learning for the future and to enable the Cathedral to continue to be innovative and pioneering in its learning activities. The Cathedral's recent Alban, Britain's First Saint project has brought a whole host of brand new learning spaces to provide fantastic opportunities to more children, adults and families alike. The Trust provides a pivotal role in building the Cathedral's revenue resources to maximise this wonderful potential.

The Trust's principal source of income comes from its endowment fund, which is invested to generate a growing and sustainable income. The Trust is enormously grateful for the generosity of donors past, present and future who have contributed to this fund. The Trust also raises income through its Patrons of Learning and Patron Schools scheme, and the Cathedral's Adopt our Archives scheme. Trustees additionally support the Cathedral's development team in making grant applications relating to learning.

TRUST ADMINISTRATION

The board of trustees met on three occasions during the year to direct and monitor the work of the Trust. The Trust is supported in its day to day activities by St Albans Cathedral's development and finance teams.

The Trust Deed provides for the Dean of St Albans Cathedral to be an ex-officio trustee if they wish. Other trustees are appointed by the board of trustees on the basis of suggested nominations from the Cathedral's governing body. The Bishop of St Albans additionally has the right to nominate a trustee for appointment by the board of trustees, although this right is currently not exercised. Trustees hold office for a period of three years and may be reappointed for further terms.

Trustees are selected for the skills and experience they can bring to the Trust, in particular expertise in education and fundraising. On appointment, trustees are briefed as necessary on the aims and objectives of the Trust and their legal responsibilities. All new trustees sign a model trustee declaration statement confirming their eligibility and responsibilities.

RELATIONSHIP WITH ST ALBANS CATHEDRAL

The Trust is constituted as an independent charity and is not controlled by St Albans Cathedral. Summarised results of the Trust's activities are disclosed for information in St Albans Cathedral's financial statements.

FINANCIAL SUPPORT FOR THE CATHEDRAL'S EDUCATION ACTIVITIES

The Trust made a grant of £40,848 (2020: £63,452) in the year to St Albans Cathedral to support its education activities. This was primarily funded from the Trust's endowment investment income along with a small contribution from the Trust's designated development fund.

During the year the board of trustees concluded its review into the way in which it provides financial support to the Cathedral. Investment income from the Trust's endowment fund is now passed as an annual grant to the Cathedral for use towards education activities, rather than the Trust funding the gap between income and expenditure. The previous grant-making approach was no longer sustainable or fit for purpose in terms of relationship between the Trust and the Cathedral, and the new approach matches that adopted by the Cathedral's other fundraising trust. The Trust will continue to use its other funds to make grants to the Cathedral in line with the Trust's objects, and in line with any restrictions placed on those funds by donors, either upon application by the Cathedral for a grant or of its own decision.

The Trust's fundraising activity continued to be significantly curtailed through the year as a result of COVID. The Trust continued engagement with its supporters through email communications and promotion of the Cathedral's remote learning activities.

For a large part of the year, the Cathedral's visitor and learning experience necessarily remained different to usual, but throughout this difficult period the Cathedral has been hugely imaginative and creative in exploring ways of doing things remotely, not least in the area of adult learning. The Cathedral's in-person schools programme resumed in the summer term, but at reduced numbers, with greater numbers now coming back through the autumn term. The schools team also used the year to explore potential digital offerings, using a grant from the Royal Opera House Bridge Learning Offer Development Fund. The Cathedral's community learning and engagement team also looked at ways of engaging audiences digitally, but has welcomed the opportunity to come back to in-person activity since the summer.

THE TRUST'S FUNDRAISING AND DONOR ENGAGEMENT

Alban Foundation

The Trust is delighted to continue to work in partnership with the St Albans Cathedral Alban Foundation. This body helps the Cathedral and its associated fundraising trusts to nurture, develop and promote fundraising, under the governance of Chapter, the Cathedral's governing body. The members of the foundation play a pivotal role in fundraising activity, and support the stewardship and continued engagement of all those who have given in support of the Cathedral financially. The foundation supports Chapter in its determination of future fundraising priorities and works closely with this Trust, along with the St Albans Cathedral Music Trust and the Friends of St Albans Cathedral. The Chair of the Trust is an ex-officio member of the foundation.

Donations

Donations totalling £4,560 (2020: £5,612) were received in the year from the Trust's patrons, the Adopt an Archive scheme and other donors. A readily accessible leaflet titled 'Support our Learning' is available in the Cathedral and promoted at relevant events. Giving is also encouraged through the Cathedral's website. The Cathedral's Adopt an Archive scheme is part of 'Adopting St Albans Cathedral', a way for visitors and all who love the Cathedral to give their support to help safeguard its treasures for the next generation. Adopt an Archive enables donors to adopt an item from the Cathedral's archives and in doing so support the Trust.

Patron Schemes

The Trust's Patrons of Learning play a vital role in supporting the future of learning at the Cathedral. Patrons receive regular information about learning events and fundraising opportunities, and are invited to the Trust's annual patrons event.

Along with individuals becoming Patrons of Learning, schools are invited to become Patron Schools. A review of the Patron Schools scheme was conducted in the year, with the plan that the programme will become more advisory than fundraising, but with the continued option of well-resourced schools still being able to provide a form of financial donation.

The Trust currently has 29 Patrons of Learning.

FUTURE PLANS AND ACTIVITIES

The board of trustees recognises that COVID has brought many challenges to fundraising. It is unlikely that substantive large-scale in-person fundraising events will be possible until 2022, but smaller-scale in-person fundraising activity has now restarted, with the usual annual patrons event taking place in September 2021.

During the year the Cathedral commissioned an independent review into the Cathedral's learning activity, the reporting from which came to Chapter, the Cathedral's governing body, in March 2021. The aim of the review was to review the current working patterns of the Cathedral's learning team, with a particular focus on work with schools, and to make recommendations for future programmes, new growth and funding opportunities, and appropriate staffing models in order to support growth and to attain financial sustainability. The review was conducted by Nick Daymond, one of this Trust's trustees. The review was performed in the context of learning being a key strategic priority for the Cathedral, and one which is very much part of the Cathedral's Vision 2019-2024. The Cathedral's learning team has warmly welcomed the review and has started to examine its specific points and recommendations. The review also provides the opportunity for the Cathedral to be clearer in its funding needs for learning, helping the Trust in its role as principal fundraiser for this type of activity.

THE TRUST'S FINANCIAL POSITION

Overall position

The Trust's net assets at the end of the year totalled £1,396,335 (2020: £1,189,368).

Investments

The Trust's funds held for long-term endowment purposes are invested with CCLA Investment Management and M&G Investments. CCLA manages investments for the Church of England, other charities and a number of local authorities. M&G is a savings and investments business, managing investments for both individuals, institutional investors and charities. At the end of the year the Trust was invested in the CCLA Church of England Investment Fund, the CCLA Church of England Property Fund and the M&G Charifund.

The Trust's overall investment objective for its funds held for the long-term is to maintain a balanced investment portfolio that delivers sustainable growing income and long-term capital growth. This means holding investments that grow capital values above real terms over the long-term in order to produce sustainable growth in net investment income year on year. The board of trustees accepts the Trust's investment objective may give rise to short or medium-term declines in capital values or net investment income, translating most closely to an investment manager defined risk profile of 'medium risk'.

In order to achieve sustainable investment returns over the long-term, the Trust requires all of its investment funds to incorporate relevant environmental, social and governance (so-called ESG) considerations as a minimum. The Trust also seeks to invest in an ethical manner that reflects and, where possible, furthers the mission of the Church of England.

The board of trustees receives regular quarterly performance reporting on its investments and reviews the performance of the Trust's overall investment portfolio on an annual basis. Following last year's performance review and a recent update of the Trust's investment policy, the board of trustees has decided to transfer its holdings in the M&G Charifund to the CCLA Church of England Investment Fund. A transfer of £294,973 took place during the year, with the remainder scheduled for the second half of 2021.

The Trust's investments are split across investment managers and individual funds as follows.

	2021 £	2020 £
CCLA Church of England Investment Fund	1,065,474	646,389
CCLA Church of England Property Fund	100,154	94,038
M&G Charifund	206,446	428,968
Total	1,372,074	1,169,395

There were no capital additions or withdrawals to/from the Trust's combined investment portfolio over the course of the year. (2020: Nil). The net annual gains/(losses) on individual funds arising from revaluations and after adjusting for the transfer noted above are as follows.

	2021 £	2020 £
CCLA Church of England Investment Fund	124,112	11,224
CCLA Church of England Property Fund	6,115	(6,789)
M&G Charifund	72,452	(119,841)
Total	202,679	(115,406)

THE TRUST'S FINANCIAL POSITION (continued)

Investments (continued)

The Trust's annual net investment income by fund is as follows. Income yield in any one particular year can be impacted by the timing of capital additions or withdrawals.

	2021 £	2020 £
CCLA Church of England Investment Fund	22,798	19,080
CCLA Church of England Property Fund	4,557	5,113
M&G Charifund	14,051	27,679
Total	41,406	51,872
CCLA Church of England Deposit Fund	-	-
Total	41,406	51,872

Reserves

The vast majority of the Trust's funds are held as a capital endowment fund, the investment income from which is applied as grant funding. Where income has been donated to the Trust for specific purposes and has not been used in the year, this income will necessarily be held in restricted funds until it is used.

The Trust holds a relatively small level of free reserves in order to meet its financial liabilities, operational commitments and likely future ad-hoc grant funding. The Trust's total unrestricted funds stand at £59,158 (2020: £48,198) at the end of the year. Of these unrestricted funds, £28,543 (2020: £14,936) represent free reserves, the remainder being designated to provide funding capacity for grants not otherwise covered by investment income from the Trust's endowment fund. The Trust is currently looking at ways to distribute some of its excess unrestricted funds for the benefit of the Cathedral.

RISK MANAGEMENT

Careful consideration is given to the major risks and wider external environment to which the Trust is exposed. The board of trustees has ultimate responsibility for the Trust's overall risk management and internal control, recognising that any risk management and internal control framework can only manage risk to a reasonable level rather than to eliminate all risk of failure, and can provide only reasonable, and not absolute, assurance against material misstatement or loss.

As a fundraising body, the Trust has specific risks to manage, principally in the areas of fundraising, financial control and compliance. Systems and procedures are in place covering each of these risk areas. Following a change in November 2019, the Trust now uses the Cathedral's finance team for transactional processing, financial reporting and compliance activities. The Trust continues to use the Cathedral's development team for fundraising advice and support. The Trust monitors its profile, reputation and presence on an ongoing basis.

PUBLIC BENEFIT

The board of trustees confirms it has complied with the Charities Act 2011 to have due regard to the public benefit guidance published by the Charity Commission in determining its activities. By supporting St Albans Cathedral, the Trust helps promote learning of the highest standard that is available to all.

STATEMENT OF TRUSTEES' RESPONSIBILITIES

The board of trustees is responsible as follows with regard to the annual report and financial statements:

- preparing a statutory annual report and financial statements for each financial year in accordance with applicable law and regulations, which give a true and fair view of the state of affairs of the Trust and of the incoming resources and application of resources of the Trust for that period;
- stating that the financial statements comply in all material respects with the provisions of the Trust Deed, the Charities Act 2011, the applicable Charities (Accounts and Reports) Regulations, and with applicable law and United Kingdom Accounting Standards (together United Kingdom Generally Accepted Accounting Practice), as set out in the notes to the financial statements and subject to any material departures disclosed and explained in the financial statements;
- selecting suitable accounting policies and then applying them consistently;
- making judgements and estimates that are reasonable and prudent;
- preparing the financial statements on the going concern basis unless it is inappropriate to presume that the Trust will continue to be financially viable.
- keeping adequate accounting records that disclose with reasonable accuracy at any time the financial position of the Trust and enable the board of trustees to ensure the financial statements comply with applicable law and regulations; and
- safeguarding the assets of the Trust and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The board of trustees confirms the financial statements have been prepared in accordance with the accounting policies set out in notes to the financial statements and comply with the provisions of the Trust Deed, the Charities Act 2011 and Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their financial statements in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102).

Lady Stuart-Smith
Chair

On behalf of the board of trustees
8 November 2021

INDEPENDENT EXAMINER'S REPORT
TO THE TRUSTEES OF ST ALBANS CATHEDRAL EDUCATION TRUST

I report to the charity's trustees on my examination of the accounts of the above charity for the year ended 31 July 2021 which are set out on pages 1 to 19.

Responsibilities and basis of report

As the charity's trustees, you are responsible for the preparation of the accounts in accordance with the requirements of the Charities Act 2011 ("the Act").

I report in respect of my examination of the charity's accounts carried out under section 145 of the Act and in carrying out my examination I have followed all the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act.

Independent examiner's statement

I have completed my examination. I confirm that no material matters have come to my attention in connection with the examination which gives me cause to believe that in, any material respect:

1. accounting records were not kept in respect of the charity in accordance with section 130 of the Act; or
2. the accounts do not accord with those records; or
3. the accounts do not comply with the applicable requirements concerning the form and content of accounts set out in the Charities (Accounts and Reports) Regulations 2008, other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination.

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

Steve Robinson FCA

Mercer & Hole, 72 London Road, St Albans, AL1 1NS

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting policies

Basis of preparation and assessment of going concern

The financial statements have been prepared on a going concern basis under the historic cost convention, with items recognised at cost or transaction value, apart from investments which are held at market value. The financial statements have been prepared in accordance with (1) the second edition of Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their financial statements in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued in October 2019; (2) the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) issued in March 2018; (3) other applicable United Kingdom Generally Accepted Accounting Practice as it applies from 1 January 2019; and (4) the Charities Act 2011.

The financial statements have been prepared to give a true and fair view and have departed from the extant Charities (Accounts and Reports) Regulations 2008 only to the extent required to provide a true and fair view. This departure has involved following Accounting and Reporting by Charities: Statement of Recommended Practice for charities preparing their financial statements in accordance with FRS 102, rather than following the since withdrawn Accounting and Reporting by Charities: Statement of Recommended Practice (SORP 2005) as referenced in the regulations.

The Trust constitutes a public benefit entity as defined by FRS 102.

The financial statements are prepared in £ sterling, which is the functional currency. Monetary amounts in the financial statements are rounded to the nearest £.

The board of trustees consider that there are no material uncertainties related to events or conditions about the Trust's ability to continue as a going concern. The board is of the opinion that the Trust has sufficient ongoing income and cashflow to meet its liabilities as they fall due. The board has made its going concern assessment in respect of a period of at least one year from the date of approval of these financial statements.

Income

Income is recognised once the Trust has entitlement to the income, it is probable that the income will be received and the monetary value of the income can be measured with sufficient reliability. If the use of income has been restricted, it is used for the specific purpose in the year or credited to an appropriate fund until it can be spent for the restricted purpose.

Income is received by way of donations from patrons, fundraising events, appeals, legacies, endowments and other general donations. Pledged donations are not recognised until they are received as too much uncertainty over their receipt remains. Gift Aid on donations is recognised when a claim is submitted to HMRC. Any Gift Aid recovered on a donation is considered to be part of that gift and is treated as an addition to the same fund as the initial donation unless the donor or the terms of the appeal have specified otherwise.

Legacies are accounted for on a receivable basis when they meet the income recognition criteria set out above. Typically this will only be after grant of probate, the executors have established there are sufficient assets in the estate and any conditions attached to the legacy are either within the control of the charity or have been met. Where legacies have been notified to the Trust and the criteria for income recognition have not been met, details of the legacy are disclosed if material in the notes to the financial statements.

Investment income is recognised on a receivable basis once it has been declared and notification has been received of the dividend due.

No amounts are included in the financial statements to reflect the value of services provided free of charge to the Trust by its many volunteers.

Expenditure

Expenditure is recognised as soon as there is a legal or constructive obligation to transfer economic benefits as a result of past transactions or events, it is probable that the transfer of economic benefit will be required in settlement and the monetary value of the settlement can be measured with sufficient reliability. All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category.

Tax

The charity is entitled to certain tax exemptions on income and profits from investments, and on any surpluses from trading activities carried out in furtherance of the Trust's primary objectives, providing any income, profits and surpluses are applied solely for charitable purposes. Irrecoverable VAT is charged to the appropriate expenditure heading.

Investments

Listed investment is stated at market value as fair value at the balance sheet date. Realised and unrealised gains and losses relating to the movement in valuation or sale of listed investments are combined and shown in the Statement of Financial Activities within net gains and losses on investments in the year in which they arise. Investments held on cash deposit are stated at face value at the balance sheet date. Retained interest is shown within net gains and losses on investments. The carrying values of all investments are reviewed annually to establish if there has been any material impairment in their value.

Financial instruments

The Trust holds only basic financial instruments. The Trust's financial instruments, represented by its financial assets and financial liabilities, and their measurement bases, are as follows. The only class of financial instrument measured at fair value as opposed to amortised cost or cost less impairment is listed investment within fixed asset investments, the carrying amount of which is provided in note 4.

Financial assets:

Listed investment within fixed asset investments is held at fair value as set out above. Any cash deposit within fixed asset investments is held at face value.

Any amounts due from connected entities and accrued income within debtors are debt instruments measured at amortised cost and are held at their settlement amount less any provision for non-recoverability. Any prepayments within debtors are not deemed to be financial assets as the cash settlement has already taken place.

Any short term cash deposit investments are held at face value.

Cash at bank is held at face value.

Financial liabilities:

Any amounts due to connected entities and accruals within creditors are debt instruments measured at amortised cost and are held at their anticipated settlement amount. Any deferred income within creditors is not deemed to be a financial liability as the cash settlement has already taken place and there is an obligation to deliver charitable services rather than cash or another financial instrument.

Funds

Funds provide the financial resources for the Trust's activities. The Trust's funds are divided between unrestricted funds, restricted funds and endowment funds. Unrestricted funds are expendable at the discretion of trustees in furtherance of the Trust's objectives. Trustees also have the discretion to set aside unrestricted funds for designated purposes. Restricted funds can only be applied in furtherance of some particular aspect as defined by the donor at the point of donation or at the point of fund establishment. These conditions, or trusts, are binding on the trustees. The restriction can be explicitly declared by the donor, implied with their authority (e.g. in a public appeal), or established by the Trust Deed or other legal process. The vast majority of the Trust's funds are held in the form of endowment, in line with the Trust's retention of such income as capital in order to generate investment income. The Trust's endowment is expendable, meaning the board of trustees can at some point in the future determine it is in the best interests of the Trust to spend or apply the endowment capital. The board of trustees has no current plans to do so.

Significant areas of judgement in the application of accounting policies

In preparing the financial statements, the board of trustees may have to make a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenditure in the application of the Trust's accounting policies set out above. The board does so on a continuous evaluation basis using historical experience and prudent evaluation of future events that are believed to be reasonable under the circumstances. In doing so the resulting accounting estimates will, by definition, seldom equal the related actual results. In the course of preparing the financial statements, no judgements have been made in the process of applying the Trust's accounting policies, other than those involving estimates about the future (which are dealt with separately below), that have had a significant effect on the recognition and measurement of assets, liabilities, income and expenditure in the financial statements.

Reporting uncertainty in the next reporting period from judgements involving estimates about the future

With respect to the Trust's next reporting period, the year ending 31 July 2022, the most significant areas of uncertainty from judgements involving estimates about the future that may affect the carrying value of assets and liabilities held by the Trust as at 31 July 2021 are as follows.

Listed investments:

Although not impacted by judgement involving estimates about the future as the fair value of listed investments can be accurately obtained at any one point in time, the following disclosure is provided due to the relative significance of the Trust's listed investments to overall net assets. The actual fair value of the Trust's listed investments at any one time is affected by market-driven changes and the performance of uncertain investment markets outside of the Trust's direct control. Fair values at the reporting date may therefore vary from those in the future. As at 31 July 2021 the value of the Trust's listed investments amounted to £1,372,074 (2020: £1,169,395) (see note 4).

2. Staff costs and key management personnel

The Trust does not have any employees. The trustees consider the board of trustees as comprising the Trust's key management personnel. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly. No remuneration, other benefits or expenses is paid to any of the trustees.

ST ALBANS CATHEDRAL EDUCATION TRUST
ANNUAL REPORT 2020-21

7. Endowment funds (continued)

The Endowment Fund is an expendable endowment established to support the Cathedral's learning activities. A transfer of £2,647 was made from the Development Fund to the Endowment Fund in the year ended 31 July 2021 to reflect the balance of residual funding commitment under the Trust's old funding model. The transfer of £69,766 in the prior year ended 31 July 2020 represents the movement of invested capital previously held in the now-closed Endowment Income Fund.

8. Restricted funds

Current Year

The Trust currently does not hold any restricted fund balances.
