The Mere Charitable Trust Note to the Account 2022-23

1 Accounting Policies

(a) Basis of preparation of accounts

The financial statements have been prepared under in accordance with Accounting and Reporting by Charities Statement of Recommended Practice applicable to charities in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2015) – (Charities SORP (FRS 102)), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and the Charities Act 2011 and applicable regulations.

The Mere at Ellesmere meets the definition of a public benefit entity under FRS102. Assets and liabilities are initially recognised at historical value unless otherwise stated in the relevant accounting policy notes(s).

(b) Income

All Income is recognised once the Charity has entitlement to the income, and there is sufficient certainty that receipt of income is considered probable and the amount can be measured reliably. The income from fundraising ventures is shown gross, with the associated costs included on fundraising costs. Donated services and facilities are recognised on the basis of the value of the gift to the charity which is the amount the charity would have been willing to pay to obtain services or facilities of equivalent economic benefit on the open market; a corresponding amount is then recognised in expenditure in the period of receipt. Donations and Legacies are recognised when they have been communicated in writing and the amount and settlement date is known. In the event that a donation is subject to conditions that require a level of performance before the charity is entitled to the funds, the income is deferred and not recognised until either those conditions are fully met, or the fulfilment of those conditions is wholly within the control of the charity and it is probable that those conditions will be fulfilled in the reporting period.

(c) Value Added Tax

Value added tax is not recoverable by the Charity, but as Shropshire Council is the Trustee, VAT was recovered through their accounts and as such is not included in the relevant costs in the Statement of Financial Activities.

2 Basis of accounting

The accounts have been prepared on an accruals basis.

3 Fund Accounting

Unrestricted funds are donations and other incoming resources receivable or generated for the objects of the charity without further specified purpose and are available as general funds.

Designated funds are unrestricted funds of the charity which the trustees have decided at their discretion to set aside to use for a specific purpose.

Restricted funds are to be used for specific purposes as laid down by the donor. Expenditure which meets these criteria is charged to the fund, together with a fair allocation of management and support costs.

4 Staff, Volunter & Trustees' Costs

No Staff were employed by the Charity but staff employed by Shropshire Council have time apportioned to the Charity.

5 Taxation

The Charity is exempt from corporation tax on its charitable activities.

6 Tangible Fixed Assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives.

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to income and expenditure.

7 Investments

Investments are recognised initially at fair value which is normally the transaction price excluding transaction costs. Subsequently, they are measured at fair value with changes recognised in 'net gains / (losses) on investments' in the SoFA if the shares are publicly traded or their fair value can otherwise be measured reliably. Other investments are measured at cost less impairment.

8 Property

Assets were bequeathed to North Shropshire Council to be run on behalf of the local community. Shropshire Council took over this role in 2009 after the merger of the County Council and District Council. The Charity does not own the property but merely maintains it.

Asset revaluations		<u>35,280</u>		<u>-6,660</u>
		<u>245,280</u>		<u>238,620</u>

9 Debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

10 Creditors and Provisions

Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

11 Going Concern

The financial statements have been prepared on a going concern basis as the trustee believes that no material uncertainties exist. The trustee has considered the level of funds held and the expected level of income and expenditure for 12 months from authorising these financial statements. The budgeted income and expenditure is sufficient with the level of reserves for the charity to be able to continue as a going concern
